

Horror Film

Peter Hutchings

The Horror Film Stephen Prince, 2004 Focusing on recent postmodern examples, this is a collection of essays reviewing the history of the horror film and the psychological reasons for its persistent appeal.

Classics of the Horror Film William K. Everson, 1990 Critical reviews of classic and otherwise noteworthy horror movies are organized according to single film and recurrent motif or theme

The Horror Film Peter Hutchings, 2014-09-11 The Horror Film is an in-depth exploration of one of the most consistently popular, but also most disreputable, of all the mainstream film genres. Since the early 1930s there has never been a time when horror films were not being produced in substantial numbers somewhere in the world and never a time when they were not being criticised, censored or banned. The Horror Film engages with the key issues raised by this most contentious of genres. It considers the reasons for horror's disreputability and seeks to explain why despite this horror has been so successful. Where precisely does the appeal of horror lie? An extended introductory chapter identifies what it is about horror that makes the genre so difficult to define. The chapter then maps out the historical development of the horror genre, paying particular attention to the international breadth and variety of horror production, with reference to films made in the United States, Britain, Italy, Spain and elsewhere. Subsequent chapters explore: The role of monsters, focusing on the vampire and the serial killer. The usefulness (and limitations) of psychological approaches to horror. The horror audience: what kind of people like horror (and what do other people think of them)? Gender, race and class in horror: how do horror films such as *Bride of Frankenstein*, *The Texas Chainsaw Massacre* and *Blade* relate to the social and political realities within which they are produced? Sound and horror: in what ways has sound contributed to the development of horror? Performance in horror: how have performers conveyed fear and terror throughout horror's history? 1970s horror: was this the golden age of horror production? Slashers and post-slashers: from *Halloween* to *Scream* and beyond. The Horror Film throws new light on some well-known horror films but also introduces the reader to examples of noteworthy but more obscure horror work. A final section provides a guide to further reading and an extensive bibliography. Accessibly written, *The Horror Film* is a lively and informative account of the genre that will appeal to students of cinema, film teachers and researchers, and horror lovers everywhere.

The Horror Film Rick Worland, 2024-05-28 A lively and reliable narrative account of the horror genre, featuring new and revised material throughout *The Horror Film: An Introduction* surveys the history, development, and social impact of the genre. Covering American horror cinema from its earliest period to the present, this reader-friendly volume explores the many ways horror movies have been received by filmmakers, critics, and general audiences throughout the decades. Concise, easily accessible chapters describe historical instances of the genre's social reception based on primary research, analyze landmark films such as *Frankenstein*, *Invasion of the Body Snatchers*, and *The Texas Chain Saw Massacre*, and more. Incorporating recent scholarship on the genre, the second edition of *The Horror Film* contains new discussion and context for Hollywood horror films in the 1980s and 1990s, as well as notable developments in the genre such as "torture porn," found-footage horror, remakes and reboots of past horror films, zombies, and the "elevated horror" debate. This edition explores the rise of new filmmakers such as Ari Aster, Robert Eggers, and Jordan Peele, surveys horror films made by women and African American filmmakers, and investigates contemporary issues in the production and consumption of horror films. Combining historical narrative with close readings of significant works, *The Horror Film*: Covers major works in the genre such as *Cat People*, *Halloween*, and *Bram Stoker's Dracula* Examines important antecedents including gothic literature and the Grand Guignol Theater Offers thorough analyses of the style, context, and themes of specific horror milestones Provides

examples of close analysis that can be applied to a wide range of other horror films. Discusses important representative titles across the genre's evolution, including more recent films such as 2017's *Get Out*. The Horror Film: An Introduction, Second Edition, is an ideal textbook for undergraduate surveys of the horror genre and other courses in American film history, and an invaluable resource for scholars, lecturers, and general readers with an interest in the subject.

Horror Film and Otherness Adam Lowenstein, 2022-07-19 What do horror films reveal about social difference in the everyday world? Criticism of the genre often relies on a dichotomy between monstrosity and normality, in which unearthly creatures and deranged killers are metaphors for society's fear of the "others" that threaten the "normal." The monstrous other might represent women, Jews, or Blacks, as well as Indigenous, queer, poor, elderly, or disabled people. The horror film's depiction of such minorities can be sympathetic to their exclusion or complicit in their oppression, but ultimately, these images are understood to stand in for the others that the majority dreads and marginalizes. Adam Lowenstein offers a new account of horror and why it matters for understanding social otherness. He argues that horror films reveal how the category of the other is not fixed. Instead, the genre captures ongoing metamorphoses across "normal" self and "monstrous" other. This "transformative otherness" confronts viewers with the other's experience—and challenges us to recognize that we are all vulnerable to becoming or being seen as the other. Instead of settling into comforting certainties regarding monstrosity and normality, horror exposes the ongoing struggle to acknowledge self and other as fundamentally intertwined. *Horror Film and Otherness* features new interpretations of landmark films by directors including Tobe Hooper, George A. Romero, John Carpenter, David Cronenberg, Stephanie Rothman, Jennifer Kent, Marina de Van, and Jordan Peele. Through close analysis of their engagement with different forms of otherness, this book provides new perspectives on horror's significance for culture, politics, and art.

The Modern Horror Film John McCarty, 1990 John McCarty has selected fifty outstanding examples of the modern horror film. Film buffs will relive the terrors they enjoyed on the screen! Each of the fifty films is documented with casts, credits, production notes and reviews.

Horror and the Horror Film Bruce F. Kewin, 2012 Horror films can be profound fables of human nature and important works of art, yet many people dismiss them out of hand. 'Horror and the Horror Film' conveys a mature appreciation for horror films along with a comprehensive view of their narrative strategies, their relations to reality and fantasy and their cinematic power. The volume covers the horror film and its subgenres – such as the vampire movie – from 1896 to the present. It covers the entire genre by considering every kind of monster in it, including the human.

Horror Film Steffen Hantke, 2004 Essays on the rise of the horror film and on how moviemakers package and promote fright

American Horror Film Steffen Hantke, 2010-06-01 Creatively spent and politically irrelevant, the American horror film is a mere ghost of its former self—or so goes the old saw from fans and scholars alike. Taking on this undeserved reputation, the contributors to this collection provide a comprehensive look at a decade of cinematic production, covering a wide variety of material from the last ten years with a clear critical eye. Individual essays profile the work of up-and-coming director Alexandre Aja and reassess William Malone's muchmaligned *Feardotcom* in the light of the torture debate at the end of President George W. Bush's administration. Other essays look at the economic, social, and formal aspects of the genre; the globalization of the U.S. film industry; the alleged escalation of cinematic violence; and the massive commercial popularity of the remake. Some essays

examine specific subgenres—from the teenage horror flick to the serial killer film and the spiritual horror film—as well as the continuing relevance of classic directors such as George A. Romero, David Cronenberg, John Landis, and Stuart Gordon. Essays deliberate on the marketing of nostalgia and its concomitant aesthetic, and the curiously schizophrenic perspective of fans who happen to be scholars as well. Taken together, the contributors to this collection make a compelling case that American horror cinema is as vital, creative, and thought-provoking as it ever was.

Horror Films of the 1970s John Kenneth Muir, 2012-11-22 The seventies were a decade of groundbreaking horror films: *The Exorcist*, *Carrie*, and *Halloween* were three. This detailed filmography covers these and 225 more. Section One provides an introduction and a brief history of the decade. Beginning with 1970 and proceeding chronologically by year of its release in the United States, Section Two offers an entry for each film. Each entry includes several categories of information: Critical Reception (sampling both '70s and later reviews), Cast and Credits, P.O.V., (quoting a person pertinent to that film's production), Synopsis (summarizing the film's story), Commentary (analyzing the film from Muir's perspective), Legacy (noting the rank of especially worthy '70s films in the horror pantheon of decades following). Section Three contains a conclusion and these five appendices: horror film clichés of the 1970s, frequently appearing performers, memorable movie ads, recommended films that illustrate how 1970s horror films continue to impact the industry, and the 15 best genre films of the decade as chosen by Muir.

Hearths of Darkness Tony Williams, 1996 *Hearths of Darkness: The Family in the American Horror Film* is the first major book-length study of the family horror film. Far from being a marginal or nonexistent element in the horror genre, as some critics argue, author Tony Williams states that it is really one of the genre's most important features.

Classics of the Horror Film William K. Everson, 1974 The thrills which delight viewers of horror movies.

Horror Film Murray Leeder, 2018-01-25 An introduction to the horror film genre.

Horror Films Colin Odell, Michelle Le Blanc, 2008-04-28 Often subject to more cuts at the hands of the censor than a serial killer's razor, the horror film has a fascinating history, not only as film study but also as a look at what has been considered acceptable for the public to view, and what the state will allow its citizens to see. But

for the most part horror films are about entertainment—consistently profitable, eminently enjoyable. From horror cinema's beginnings in the late 19th century to the latest splatter films, from the chills of the ghost film to the terror of the living dead, there is more than enough here to keep fans awake at night. Among the many films discussed are the popular Dracula, Evil Dead, Frankenstein, Halloween, Ringu, Scream, and The Sixth Sense, as well as the more unusual Black Cat, The Living Dead Girl, Nang Nak, Rouge, and Les Yeux sans Visage. The guide also profiles such popular directors as Dario Argento, John Carpenter, Wes Craven, David Cronenberg, Hideo Nakata, and Sam Raimi; as well as cult directors from around the world, including Coffin Joe, Jean Rollin, and Michele Soavi.

Robin Wood on the Horror Film Robin Wood, 2018-11-12 Robin Wood—one of the foremost critics of cinema—has laid the groundwork for anyone writing about the horror film in the last half-century. Wood's interest in horror spanned his entire career and was a form of popular cinema to which he devoted unwavering attention. Robin Wood on the Horror Film: Collected Essays and Reviews compiles over fifty years of his groundbreaking critiques. In September 1979, Wood and Richard Lippe programmed an extensive series of horror films for the Toronto International Film Festival and edited a companion piece: The American Nightmare: Essays on the Horror Film — the first serious collection of critical writing on the horror genre. Robin Wood on the Horror Film now contains all of Wood's writings from The American Nightmare and nearly everything else he wrote over the years on horror—published in a range of journals and magazines—gathered together for the first time. It begins with the first essay Wood ever published, Psychoanalysis of Psycho, which appeared in 1960 and already anticipated many of the ideas explored later in his touchstone book, Hitchcock's Films. The volume ends, fittingly, with, What Lies Beneath?, written almost five decades later, an essay in which Wood reflects on the state of the horror film and criticism since the genre's renaissance in the 1970s. Wood's prose is eloquent, lucid, and convincing as he brings together his parallel interests in genre, authorship, and ideology. Deftly combining Marxist, Freudian, and feminist theory, Wood's prolonged attention to classic and contemporary horror films explains much about the genre's meanings and cultural functions. Robin Wood on the Horror Film will be an essential addition to the library of anyone interested in horror, science fiction, and film genre.

Recreational Terror Isabel Cristina Pinedo, 1997-01-01 In Recreational Terror, Isabel Cristina Pinedo analyzes how the contemporary horror film produces recreational terror as a pleasurable encounter with violence and danger for female spectators. She challenges the conventional wisdom that violent horror films can only degrade women and incite violence, and contends instead that the contemporary horror film speaks to the cultural need to express rage and terror in the midst of social upheaval.

A Companion to the Horror Film Harry M. Benshoff, 2017-01-17 This cutting-edge collection features original essays by eminent scholars on one of cinema's most dynamic and enduringly popular genres, covering everything from the history of horror movies to the latest critical approaches. Contributors include many of the finest academics working in the field, as well as exciting younger scholars Varied and comprehensive coverage, from the history of horror to broader issues of censorship, gender, and sexuality Covers both English-language and non-English horror film traditions Key topics include horror film aesthetics, theoretical approaches, distribution, art house cinema, ethnographic surrealism, and horror's relation to documentary film practice A thorough treatment of this dynamic film genre suited to scholars and enthusiasts alike

Horror Films James B. Weaver, Ron Tamborini, 2013-11-05 Why do so many of us enjoy being told frightening stories? What are some of the consequences that result from such exposure? In light of the considerable popularity of horror films over the last three decades, these questions have become the focus of growing attention for many

scholars. However, research on audience preferences for, and reactions to, horror films has been performed eclectically by investigators from varied theoretical and methodological backgrounds. As a result, the information has not been effectively integrated. This volume was written to address this problem and to position the study of audience responses to frightening fiction as a significant research topic.
