History of the Horten airplanes 1933-1960 Reimar Horten, Peter F. Selinger, 1983-01-01

The Horten Brothers and Their All-Wing Aircraft David Myhra, 1998 The Horten Brothers and Their All-Wing Aircraft is the heretofore untold true story of Reimar, Wolfram, and Walter Horten's remarkable aeronautical achievements with the all-wing planform between 1933 and 1945 as told to aviation biographer David Myhra. Talking daily with Reimar Horten at his ranch at the foothills of the Andes Mountains in Argentina for two months, and also with Walter in Baden Baden, Germany, the two brothers described in detail their struggles in Nazi controlled Germany to perfect the all-wing planform. Astounding as their real-life story is of itself, the Horten brothers gave David Myhra hundreds of photographs to illustrate this new volume. In this remarkable book David Myhra tells the true story of the Horten brothers and their all-wing aircraft through the use of over 735 photos and three-view line drawings of their entire all-wing line. Most of these photos and drawings have not been available to the public until now. Even more astonishing, the Hortens, ridiculed in the mid-1930s for wasting their genius on silly all-wing aircraft, would be the only ones called on by Hermann Goering in December 1944 to build an all-wing Amerika atomic bomber and save Deutschland from certain and final destruction by the Allies through a negotiated peace settlement. The Horten Ho 18 Amerika Bomber was not meant to be. But it might have been if the war had not ended in May 1945 but, say, May 1946. This, then, is the fascinating true story of those naive boy-designers from Bonn, the Horten brothers and their silly all-wing airplanes. AUTHOR:

Horten Ho 229 Andrei Shepelev, Huib Ottens, 2006 The Horten Ho 229, one of the Luftwaffe's legendary secret projects or so-called 'wonder weapons', was one of the most enigmatic aircraft designs to emerge from World War II. In some ways a precursor to the 'stealth' concept, it was clearly ahead of its time when compared to its contemporaries. The Ho 229 was planned as the first of the next generation of German jet fighters to follow on from the Messerschmitt Me262, with the intention to create a high-speed cannon-equipped fighter-bomber and reconnaissance aircraft. Development involved design bureaus such as Goering, Galland, and Lippish, and flight testing began in December 1944. This book covers the Ho 229's development and operational record in detail and includes specially commissioned photographs of a surviving prototype, J3. The authors are both acknowledged experts on Horten aircraft.

Conversations With: Reimar Horten–Volume 1 David Myhra, PhD., In the winter of 1982, the author Dr David Myhra, boarded an evening flight to Cordoba, Argentina to interview one the most forward-thinking and original aircraft designers in German aviation. Upon arriving, Dr. Myhra retrieved his bags (containing a cassette recorder and 100 2 hour cassettes, among his personal effects) and exited the terminal. After a short time, a white half-ton short-bed Ford pick-up pulled up. Inside was Reimar Horten. Reimar was one of the 2 people Dr Myhra has met that has the gift of total recall. Contained in these pages are direct transcripts of the conversations shared by Dr Myhra and Reimar Horten, close to 400 pages. Volume 4 contains an exclusive sneak preview of the next ebook by David Myhra, “The Day the Horten Ho 229 Jumo 004B Powered All-Wing Project Died”.

The Horten Ho 9/Ho 229 David Myhra,2002 Horten brothers biographer David Myhra continues his efforts for a full accounting of the events surrounding the design, construction, and flight testing of the twin turbojet powered all-wing prototype Horten Ho 9 fighter/interceptor and its serial production prototype the Horten Ho 229V3.

Conversations With Walter Horten David Myhra PhD,2013-09-27 This volume contains the transcript of one of many conversations the Dr David Myhra had with Walters and Reimar Horten beginning in the summer of 1942. Excerpts of this and other taped conversations have been previously used in five books written by Dr Myhra and published by Schiffer Publishing and the out-of-print Monograph book about the Horten Brothers. Walter was a beautiful individual, possessing the gift of attracting and making life-long friendships with all those he met. During the course of these numerous interviews with Walter in Baden-Baden, he didn't provide details of the Ho 9 V1 and V2, however, he described how he was able to provide Reimar with all his needs to further research on the twin-jet powered Horten Ho 9.

Small Change for Stuart Lissa Evans,2011-05-05 Stuart Horten - ten years old and small for his age - moves to the dreary town of Beeton, far away from all his friends. And then he meets his new next-door neighbours, the unbearable Kingley triplets, and things get even worse. But in Beeton begins the strangest adventure of Stuart's life as he is swept up in quest to find his great-uncle's lost workshop - a workshop stuffed with trickery and magic.

There are clues to follow and puzzles to solve, but what starts as fun ends up as danger, and Stuart begins to realize that he can't finish the task by himself . . . The first children's novel by Lissa Evans, this is a fast-moving blend of comedy and magic.

Horten Argentine IAe-48 David Myhra PhD,2014-06-20 Decades long all-wing designer Reimar Horten's seismic shift to a Mach 2.2 Ogee Gothic delta wing twin Rolls-Royce Avon powered Coke-shaped fuselage with turbines hung on short pods. This was to be an Argentine Area Rule flying machine of the late 1950s. Suggested by Reimar's friend, genius Hans Multhopp, it would be his last aircraft design after years of all-wings to end in the back waters of Argentina.

Horten's Miraculous Mechanisms Lissa Evans,2012-04-03 Enter a wonderful world filled with real magic, mystery ... and danger. As if being small for his age and also having S. Horten as his name isn't bad enough, now 10-year-old Stuart is forced to move far away from all his friends. But on his very first day in his new home, Stuart is swept up in an extraordinary adventure: the quest to find his great-uncle Tony--a famous magician who literally disappeared off the face of the earth--and Tony's marvelous, long-lost workshop. Along the way, Stuart reluctantly accepts help from the annoying triplets next door... and encounters trouble from another magician who's also desperate to get hold of Tony's treasures. A quirky, smart, charming page-turner, Horten's Miraculous Mechanisms will enchant young readers--as well as teachers, librarians, and parents. Long-listed for the Carnegie Medal (2012) and the Guardian Children's Fiction Prize (2011)

Horten's Incredible Illusions Lissa Evans,2012-09-04 This magical follow-up to Horten's Miraculous Mechanisms continues Stuart's amazing adventures--with more enchantment, more surprises, and more thrills. When we last left 10-year-old Stuart, he had just recovered his great-uncle Tony's long-lost magic workshop. Now all the priceless tricks are on display in the Beeton Museum--and Stuart is junior curator of the exhibit! But another mystery awaits Stuart: Where did the great magician hide his will? Only by entering the magic world of the workshop can he find the answer. But as the mechanisms whisk him off on increasingly incredible adventures, the puzzles become harder and harder to solve...and the stakes higher. With even more page-turning action, this second book in the exciting middle-grade series does a magic trick of its own: it's even better than the first!

Conversations With Dr Reimar Horten and His All-Wing Designs-Ho 1 to Ho 229 Part 2 David Myhra PhD,2013-09-27 In February of 1982, I flew to Buenos Aires then on to Cordoba, Argentina to meet with Dr Reimar Horten, (1915-1994) the designer of a series of sail and powered all wing flying machines. He lived in retirement on a ranch 15 to 20 miles from the small town of Villa General Belgrano. After an over night flight from Miami,Florida I arrived at the Cordoba. Reimar Horten, with a full head of white hair, met me and we drove off to his ranch in a white Ford pickup truck. Reimar had total recall. I have met only two such people in my life. We spoke only in English and our conversations were recorded on cassette tapes...which several years later I donated to the National Air & Space Museum library. After several days of speaking only English, Reimar was speaking English to everyone, his wife, helpers on his ranch, shop keepers in Villa General Belgano, and families he'd meet walking on the road into town when he offered them a ride in the back of his truck. Few English-speaking people ever visited this remote area of Argentina at the foot hills of Andes Mountains. His wife, Gisela ,frequently had to remind her husband that all these Argentines had no idea of what he was saying to them so please speak Spanish. I lived at the Horten ranch for one month recording my conversation with Reimar Horten. I returned the following year (1983) for another month. Our two month conversation resulted in 86 two hour taped cassettes. The material presented in this volume (a second volume contains conversations with Walter Horten over numerous visits to his home in Baden Baden, West Germany) has been used in my five copyrighted books on the Horten Brothers. I thank them immensely and now the world hears their voice, their personal struggles, failures, as well as their successes in seeking to perfect the performances of the all-wing aircraft.

The Heidi Horten Collection Heidi Horten Heidi Horten Collection,Agnes Husslein-Arco,The Heidi Horten Collection,2022-04 The history and redevelopment of the building housing the Heidi Horten Collection. In early 2022, the Heidi Horton Collection opened in the heart of Vienna. For its first book, the Collection decided to showcase the creation of this new exhibition venue, its architecture, and its construction history, positioning it within the context of the foundation of new museums. Heidi Goëss-Horten's art collection has been carefully cultivated since the early 1990s and focuses mainly on works of international modernism, Neo-Expressionism, and American Pop-Art. This richly illustrated book examines the previous historical buildings on the space where the museum now stands, their princely clients, the current redesign, and the conversion of a former secular residential outbuilding into a contemporary art museum. An interview with Heidi Goëss-Horten rounds out the book, allowing the collector and patron to introduce herself and provide fascinating insights into a prestigious European private collection.
