**The Math Olympian** Richard Hoshino, 2015-01-26 BETHANY MACDONALD HAS TRAINED SIX LONG YEARS FOR THIS MOMENT. SHE'LL TRY TO SOLVE FIVE QUESTIONS IN THREE HOURS, FOR ONE IMPROBABLE DREAM. THE DREAM OF REPRESENTING HER COUNTRY, AND BECOMING A MATH OLYMPIAN. As a small-town girl in Nova Scotia bullied for liking numbers more than boys, and lacking the encouragement of her unsupportive single mother who frowns at her daughter's unrealistic ambition, Bethany's road to the International Math Olympiad has been marked by numerous challenges. Through persistence, perseverance, and the support of innovative mentors who inspire her with a love of learning, Bethany confronts these challenges and develops the creativity and confidence to reach her potential. In training to become a world-champion athlete, Bethany discovers the heart of mathematics - a subject that's not about memorizing formulas, but rather about problem-solving and detecting patterns to uncover truth, as well as learning how to apply the deep and unexpected connections of mathematics to every aspect of her life, including athletics, spirituality, and environmental sustainability. As Bethany reflects on her long journey and envisions her exciting future, she realizes that she has shattered the misguided stereotype that only boys can excel in math, and discovers a sense of purpose that through mathematics, she can and she will make an extraordinary contribution to society.

**Hoshino's Alaska** Michio Hoshino, 2007-04-05 Michio Hoshino traveled from his native Japan to Alaska in 1972 for what was to be a two-week trip. Enchanted, he stayed for three months, then returned to live there in 1978, undertaking a lifelong career as a naturalist and photographer driven by a deep commitment to and curiosity about the region. Killed by a bear while traveling in Russia in 1996, he is still widely regarded as the preeminent photographer of the Alaskan wilderness for his breathtakingly beautiful photographs, at once majestic and intimate. Hoshino's Alaska celebrates his life and work by collecting nearly 150 of his best images, along with insightful excerpts from his writings, and essays by his close friend and translator Karen Colligan-Taylor and by author and photographer Lynn Schooler revealing both the heart of Alaska and of the man behind the lens.

*Lonely Hearts Killer* Tomoyuki Hoshino, 2010-10-08 Taking on a subject that is still largely avoided in Japan, this powerful thriller explores the threat posed by an emperor, even in a ceremonial role, to a democratic government. Set in a fictional island country, the novel is told from the perspective of a group of young adults who are embroiled in their private problems of friendship, work, and...

Hoshino, Satoru Satoru Hoshino, 1995\*

We, the Children of Cats Tomoyuki Hoshino, 2012-07-17 A man and woman find their genders and sexualities brought radically into question when their bodies sprout new parts, seemingly out of thin air.... A man travels from Japan to Latin America in search of revolutionary purpose and finds much more than he bargains for.... A journalist investigates a poisoning at an elementary school and gets lost in an underworld of buried crimes, secret societies, and haunted forests.... Two young killers, exiled from Japan, find a new beginning as resistance fighters in Peru.... These are but a few of the stories told in *We, the Children of Cats*, a new collection of provocative early works by Tomoyuki Hoshino, winner of the 2011 Kenzaburo Oe Award in Literature and author of the powerhouse novel *Lonely Hearts Killer* (PM Press, 2009). Drawing on sources as diverse as Borges, Nabokov, Garcia-Marquez, Kenji Nakagami and traditional Japanese folklore, Hoshino creates a challenging, slyly subversive literary world all his own. By turns teasing and terrifying, laconic and luminous, the stories in this anthology demonstrate Hoshino's view of literature as "an art that wavers, like a heat shimmer, between joy at the prospect of becoming something else and despair at knowing that such a transformation is ultimately impossible...a novel's words trace the pattern of scars left by the struggle between these two feelings." Blending an uncompromising ethical vision with exuberant, freewheeling imagery and bracing formal experimentation, the five short stories and three novellas included in *We, the*

Children of Cats show the full range and force of Hoshino's imagination; the anthology also includes an afterword by translator and editor Brian Bergstrom and a new preface by Hoshino himself.

**Love from the Depths** Tomihiro Hoshino, Deborah Stuhr Iwabuchi, Kazuko Enda, 1994

**Warm-Temperate Deciduous Forests around the Northern Hemisphere** Elgene O. Box, Kazue Fujiwara, 2014-12-29 Warm-temperate deciduous forests are southern, mainly oak-dominated deciduous forests, as found over the warmer southern parts of the temperate deciduous forest regions of East Asia, Europe and eastern North America. Climatic analysis has shown that these forests extend from typical temperate climates to well into the warm-temperate zone, in areas where winters are a bit too cold for the 'zonal' evergreen broad-leaved forests normally expected in that climatic zone. This book is the first to recognize and describe these southern deciduous forests as an alternative to the evergreen forests of the warm-temperate zone. This warm-temperate zone will become more important under global warming, since it represents the contested transition between deciduous and evergreen forests and between tropical and temperate floristic elements. This book is dedicated to the memory of Tatsuō Kira, the imaginative Japanese ecologist who first noticed and described this general zonation exception and who proposed the name warm-temperate deciduous forest.

**Fungi in Polar Regions** Masaharu Tsuji, Tamotsu Hoshino, 2019-04-23 Fungi that inhabit polar-region can grow and decompose organic compounds under subzero temperatures play important roles in the nutrient cycle of polar-region ecosystems. Thus, changes in the mycoflora affect the ecological recycling in these regions, and understanding the cold-adaptation strategies of fungi under extreme environments is critical for a better understanding of polar-region ecosystems. Due to their ability to survive under extreme environments, fungi in polar-region are seen to show potential for utilization in biotechnologies. This book presents our current understanding of the mycoflora in polar-region and their cold adaptation strategies, and applied studies using their abilities.

*ME: A Novel* Tomoyuki Hoshino, 2017-06-06 In Hoshino's dystopia, identities are fluid and any one is as good as another. . .Hoshino's ambitious novel is pleasingly uncomfortable. --Publishers Weekly Hoshino's latest-in-translation (rendered by De Wolf) begins as black comedy and devolves into an antislipsistic treatise on the impossibility of individual identity. --Booklist Online Part existential fable, part 'Night of the Living Dead,' Mr. Hoshino's inventive novel, accessibly translated by Charles De Wolf, paints a nightmare vision of Japan's rootless millennials, who work grinding dead-end jobs that leave them little time for family or individual passions...At first Hitoshi and his fellow MEs are happy to band together against an

uncaring world. But the camaraderie doesn't last, since every time one reveals a character flaw the others take it as an indictment of themselves. As the MEs' failures and weaknesses become intolerably magnified onto the 'living but useless rabble' they're gripped by a suicidal impulse that unleashes a crazed murder spree. The frenetic, knife-wielding finale reaches its climax in--a McDonald's, of course. None of them can think of any place else to eat. --Wall Street Journal, included in Best New Fiction column A Kafkaesque journey of a lonely narrator being absorbed by an impersonal system. --Los Angeles Review of Books The imaginative story of a rather unimaginative camera salesman, ME features Hitoshi Nagano; his troubles begin with his impulsive theft of a cell phone from another customer at a McDonalds. They end with a post-apocalyptic future for everyone in Japan. --New York Journal of Books [Some passages] surpass even Kobo Abe. . .The author has leaped to a higher level. --Kenzaburo Oe, Nobel Prize-winning author of *The Silent Cry*, from the afterword With an afterword by Kenzaburō Ōe. Translated from Japanese by Charles De Wolf. This novel centers on the It's me telephone scam--often targeting the elderly--that has escalated in Japan in recent years. Typically, the caller identifies himself only by saying, Hey, it's me, and goes on to claim in great distress that he's been in an accident or lost some money with which he was entrusted at work, etc., and needs funds wired to his account right away. ME's narrator is a nondescript young Tokyoite named Hitoshi Nagano who, on a whim, takes home a cell phone that a young man named Daiki Hiyama accidentally put on Hitoshi's tray at McDonald's. Hitoshi uses the phone to call Daiki's mother, pretending he is Daiki, and convinces her to wire him 900,000 yen. Three days later, Hitoshi returns home from work to discover Daiki's mother there in his apartment, and she seems to truly believe Hitoshi is her son. Even more bizarre, Hitoshi discovers his own parents now treat him as a stranger; they, too, have a me living with them as Hitoshi. At a loss for what else to do, Hitoshi begins living as Daiki, and no one seems to bat an eye. In a brilliant probing of identity, and employing a highly original style that subverts standard narrative forms, Tomoyuki Hoshino elevates what might have been a commonplace crime story to an occasion for philosophical reflection. In the process, he offers profound insights into the state of contemporary Japanese society. Charles De Wolf, PhD, professor emeritus, Keio University, is a linguist by training, though his first love was literature. Multilingual, he has spent most of his life in East Asia and is a citizen of Japan. His translations include *Mandarins*, a selection of short stories by Ryunosuke Akutagawa (Archipelago Books) and collections of folktales from *Konjaku Monogatari-shu*. He has written extensively about *The Tale of Genji*; and is currently working on his own translation of the work.

*Bioethics and Moral Content: National Traditions of Health Care Morality* H. Tristram Engelhardt Jr., L.M. Rasmussen, 2002-11-30 This volume explores the plurality of moral perspectives shaping bioethics. It is inspired by Kazumasa Hoshino's critical reflections on the differences in moral perspectives separating Japanese and American bioethics. It offers a rich perspective of the range of approaches to bioethics and brings into question whether there is unambiguously one ethics for bioethics to apply.
