Afterings Deborah Tall,2016-10-20 Poetry. Deborah Tall's final collection is a remarkable volume by a poet and nonfiction writer at the peak of her powers. Eavan Boland has called it an essential collection, and Mary Ruefle says the poems have not what is to be expected -- hints of cessation -- but an overwhelming sense of blossoming.

**Rheology of Semisolid Foods** Helen S. Joyner,2019-11-13 Rheology of Semisolid Foods comprehensively covers the rheological behaviors and rheological testing of semisolid foods. Individual chapters focus on semisolid food structure, rheological and sensory behaviors, testing of various semisolid food behaviors, and factors that impact those behaviors. Special concentration is given to the relationships among semisolid food structures and mechanical properties and textures. The second section of this work presents a series of case studies on acid milk gels and yogurt which provide a practical illustration of the concepts presented in the preceding chapters, allowing readers to gain both conceptual knowledge of semisolid food rheology and an understanding of how that knowledge can be applied to a food system of choice. Individual components, processing parameters, and storage conditions can dramatically impact food functional properties and textures. Changing any of these factors can cause significant microstructural alterations resulting in undesirable changes in product stability, functionality and texture. The lack of knowledge of how these factors impact the final food properties makes development of new food products a process of empirical trial rather than intentional design. A fundamental understanding food structure, function and texture relationships is critical for targeted design of food products. This text is a valuable reference for researchers looking to gain an understanding of how rheology works in semisolid food design and processing.

A Working Woman Jennifer Holmes,2019-02-12 A Working Woman: The Remarkable Life of Ray Strachey is a traditional biography of a very untraditional woman. Tug-of-love child, Ward in Chancery, pampered schoolgirl, pioneer car driver, would-be electrical engineer, triumphant suffragist, political lobbyist, historian, biographer, novelist, journalist, broadcaster, well-known public figure, enthusiastic bricklayer, devoted mother, despairing stepmother, neglected wife: Ray Strachey was all of these and more. Bertrand Russell taught her maths; John Maynard Keynes fell (a little) in love with her; Virginia Woolf was over-awed by her; Millicent Garrett Fawcett and Nancy Astor depended on her. She inspired admiration in men and gratitude close to worship in women. As a close colleague of Millicent Fawcett, Ray Strachey played a major, non-violent, role in gaining British women the vote in 1918. She was one of the first female Parliamentary candidates, and became one of the leading feminists of the inter-war years, devoted in particular to improving employment opportunities for women. A brilliant political lobbyist with an extraordinary range of contacts, she was also a celebrated author, journalist and broadcaster, still remembered for her classic history of the Women's Movement, The

Cause (1928). She achieved all this as a working mother with overwhelming family responsibilities and an unusual (some said eccentric) private life. Lavishly illustrated, this first full account of Ray Strachey's life is based on extensive research and draws heavily on her own lively and forthright comments on people and events. Interweaving her public roles with her challenging private life on the fringes of the Bloomsbury set, it features a host of well-known personalities, and introduces a new generation of readers to a fascinating though neglected fighter for women's rights.

**The Christian's Secret of A Happy Life, by H. W. S. Hannah Whitall Smith, 1875** Settle down on this one thing, wrote Hannah Whitall Smith, that Jesus came to save you now, in this life, from the power and dominion of sin, and to make you more than conquerors through His power. The exciting message of freedom-from the bondage of sin, to the life of Christ-is what has made *The Christian's Secret of a Happy Life* a favorite for more than a century. Smith's masterwork is personal, practical, and powerful, and overflowing with substance for thought. This handsome softcover edition features the original, unabridged text.

**COVID-19 and Existential Positive Psychology (PP2.0): The New Science of Self-Transcendence** Paul T. P. Wong, Claude-Hélène Mayer, Gökmen Arslan, In the era of COVID-19, many people have suffered high levels of stress and mental health problems. To cope with the widespread of suffering (physical, psychological, social, and economical) the positive psychology of personal happiness is no longer the sole approach to examine personal wellbeing. Other approaches such as Viktor Frankl's theory of self-transcendence provide a promising framework for research and intervention on how to achieve resilience, wellbeing, and happiness through overcoming suffering and self-transcendence. The existential positive psychology of suffering complements the positive psychology of happiness, which is championed by Martin Seligman, as two equal halves of the circle of wellbeing and optimal mental health. This Research Topic aims to examine the different approaches to Positive Psychology and their influence on individual wellbeing during the COVID-19 era. One of the exciting development in the positive psychology of wellbeing is the mounting research on the adaptive benefits of negative emotions, such as shame, guilt, and anger, as well as the dialectical process of balancing negative and positive emotions. As an example, based on all the empirical research and Frankl's self-transcendence model, Wong has developed the existential positive psychology of suffering (PP2.0) as the foundation for flourishing. Here are a few main tenets of PP2.0: (1) Life is suffering and a constant struggle throughout every stage of development, (2) The search for self-transcendence is a primary motive guided by the meaning mindset and mindful mindset. (3) Wellbeing cannot be sustainable without overcoming and transforming suffering. In this Research Topic we welcome diverse approaches discussing the following points: • The dialectic process of overcoming the challenges of every stage of development as necessary for personal growth and self-transcendence; • The role of self-transcendence in resilience, virtue, meaning, and happiness; • The upside of negative emotions; • The new science of resilience based on cultivating the resilient mindset and character; • How to make the best use of suffering to achieve out potentials & mental health.

**Hearings** United States. Congress. House, 1967

**No Vote for Women** Bernadette Cahill, 2019-10-09 From 1865, Susan B. Anthony and Elizabeth Cady Stanton led campaigns for equal rights for all but were ultimately defeated by a Congress and reformers intent on applying suffrage established with constitutional amendments and legislation to men only. Ignoring all women, black and white, advocates argued that enfranchising black men would solve race problems, masking the effect on women. This book weaves Anthony's and Stanton's campaigns together with national and congressional events, in the process uncovering relationships among these events and revealing the devastating impact on the women and their campaign for civil rights for all

citizens.

Trauma, Resilience, and Posttraumatic Growth in Frontline Personnel Jane Shakespeare-Finch, Paul J. Scully, Dagmar Bruenig, 2024-02-27 Trauma, Resilience, and Posttraumatic Growth in Frontline Personnel examines the history, context, nature, and complexity of working in front-line services. Chapters provide a detailed overview of specific mental health models that are applicable both on a day-to-day basis and to disaster and major event response. The book also details elements of mental health responses that have been proven to facilitate coping, minimize risk, and promote both resilience and posttraumatic growth. These strategies include, but are not limited to, peer support programs, mental health education, and psychological first aid. Each chapter incorporates research on PTSD, anxiety, and depression as well as research relating to posttraumatic growth, resilience, connectedness, and belongingness. Trauma, Resilience, and Posttraumatic Growth in Frontline Personnel is a vital guide for those who provide care to trauma survivors as well as for researchers and scholars.

**Me, Me, Me** Jon Lawrence, 2019-09-01 Many commentators tell us that, in today's world, everyday life has become selfish and atomised—that individuals live only to consume. But are they wrong? In *Me, Me, Me*, Jon Lawrence re-tells the story of England since the Second World War through the eyes of ordinary people—including his own parents—to argue that, in fact, friendship, family, and place all remain central to our daily lives, and whilst community has changed, it is far from dead. He shows how, in the years after the Second World War, people came increasingly to question custom and tradition as the pressure to conform to societal standards became intolerable. And as soon as they could, millions escaped the closed, face-to-face communities of Victorian Britain, where everyone knew your business. But this was not a rejection of community per se, but an attempt to find another, new way of living which was better suited to the modern world. Community has become personal and voluntary, based on genuine affection rather than proximity or need. We have never been better connected or able to sustain the relationships that matter to us. *Me, Me, Me* makes that case that it's time we valued and nurtured these new groups, rather than lamenting the loss of more 'real' forms of community—it is all too easy to hold on to a nostalgic view of the past.
