Blue Tara; Or, How Is a Hyacinth Macaw Parrot Like a Tibetan Goddess? Michael Ostrogorsky, 2017-03-24
I originally got a parrot because an old black guy with parrots told me it would help me pick up chicks. And I don't mean the poultry kind. Picked out a parrot at this old black guy's bird store here in Seattle that was big, blue, and loud. And a princess. The loudness I didn't learn about until it was too late. But that was the least of my problems. First of all, turns out I didn't actually pick out the parrot. The parrot picked me. Not only was the parrot big, blue, and loud. And a princess. The parrot was a witch. Not a figurative or allegorical witch. A literal witch. A witch of the spell casting kind. The abracadabra kind. A witch with a coffee addiction.

Once I entered the bird store the parrot cast a spell. The kind of spell that caused me to open my wallet for a big, blue, loud witch. The kind of witch that didn't abide with girlfriends. The kind of witch that didn't abide with not getting her way. The kind of witch that turned out to be my guardian angel and a proverbial albatross around my neck at the same time. A witch named Princess Tara. Princess Tara was on a mission to save the world from a diabolically evil shapeshifting warlord and his zombie minions. She needed the help of a couple of history professors, one retired, the other struggling to achieve tenure. Me, the retired one, all I wanted to do was roast coffee and snag a date with a hot barista I knew. But there's an old Chinese proverb. Save a life, and you're responsible for that life forever.

Keeping Hyacinth Macaws as Home Pets. Dr Ashley Ruell,2023-12-31 The Hyacinth Macaw, known for its stunning cobalt-blue plumage and impressive size, is a captivating and intelligent bird that has gained popularity as an exotic pet. Native to South America, particularly Brazil, these majestic parrots are the largest of the macaw species, making them a unique and striking choice for those seeking a feathered companion. Physical Characteristics: The Hyacinth Macaw boasts vibrant, deep blue feathers that cover its entire body, with a distinctive yellow patch around the eyes and beak. Their strong beaks are designed for cracking nuts and seeds, and their facial skin is bare, featuring vibrant yellow coloring. With a wingspan of up to 4 feet, these birds are a spectacle to behold. Personality Traits: Known for their sociable and affectionate nature, Hyacinth Macaws form strong bonds with their human caregivers. They thrive on interaction, requiring ample time outside of their cages for mental stimulation and socialization. These intelligent birds are quick learners and can develop an extensive vocabulary, showcasing their ability to mimic sounds and words. Social Needs: Hyacinth Macaws are highly social creatures, often forming deep connections with their owners. They appreciate companionship and can become emotionally attached to

their human family members. Due to their sociable nature, providing regular interaction, playtime, and mental stimulation is crucial for their well-being. Dietary Requirements: A nutritionally balanced diet is vital for the health of Hyacinth Macaws. Their diet typically includes a mix of high-quality pellets, fresh fruits, vegetables, and nuts. Ensuring a varied and nutritious diet contributes to their overall health and longevity. Habitat and Enrichment: Given their impressive size, Hyacinth Macaws require spacious enclosures that allow for ample movement. Including sturdy perches, toys, and climbing structures is essential for their physical and mental well-being. These birds thrive on mental stimulation, so providing toys that encourage problem-solving and play is beneficial. Exercise Needs: Regular exercise is crucial to prevent obesity and keep Hyacinth Macaws physically fit. Time outside the cage for supervised flying, climbing, and exploration is essential. Additionally, they enjoy playing with toys that challenge their agility and coordination. Potential Challenges: While Hyacinth Macaws make affectionate and intelligent pets, their size and social needs pose specific challenges. They require a significant time commitment for social interaction, and their powerful beaks may be destructive if not provided with suitable toys. Additionally, potential owners should be prepared for the long-term commitment these birds require, as Hyacinth Macaws can live for several decades. Legal Considerations: Due to their protected status and the need for conservation efforts, it's important for prospective owners to be aware of legal regulations regarding the ownership and trade of Hyacinth Macaws. Some countries and regions may have specific requirements and permits for keeping these birds as pets. Conclusion: The Hyacinth Macaw, with its regal appearance and engaging personality, can be a rewarding companion for experienced bird

enthusiasts who are dedicated to meeting their social, physical, and intellectual needs. Providing a loving and stimulating environment, along with the necessary care and attention, allows these magnificent birds to flourish as cherished members of a caring household.

Parrots and Witches; Or, Love. Desire. Ambition. Faith. Without Them, Life Is So Simple, Believe Me

Michael Ostrogorsky, 2019-08-04 I closed my eyes. I could feel Jean's breasts press into my chest. Loose strands of her long flowing brunette hair tickled my nose. Her breathes, initially short and rapid, slowed to a relaxed warm pulse against my cheek. Her clothes reeked of sweat infused with the stench of fired gunpowder. I could still hear the last echoes of machine gun fire fade across the darkened walls of the enclosure like the staccato clicking of a tap dancer's shoes slowly drifting off a stage. I popped my eyes open. I tried to step back from my girlfriend and focus on her face. My head commenced to swirl around my shoulders. Figuratively. Not literally. This isn't a horror story, after all. I felt light footed, floating in air. In a windstorm. Whatever I ate last roiled my gut into a ball that kept inflating until I wished my gut would burst and end my misery. Puking did not seem out of the question. I tried to recall what I ate last. And immediately regretted the thought of food. I tried to turn off my brain. I squeezed my eyes shut. I took a deep breath and focused my thoughts. A brilliant blue light manifested within my brain. I surrendered my will and let the light encompass me. A black shadow took form bathed in the blue light and gradually solidified into a human shape. Are you okay, baby? I heard the figure ask me. I jumped out of my stupor with all the alacrity of a cowboy stepping on a rattlesnake. My eyes opened wide as saucers. I lost my balance and fell to the floor. I found myself prone on a sheet of pure white crystal, extending in every direction as far as the eye could see. I struggled to my knees. My eyes squinted from the brilliant rainbow-hued light streaming through the massive translucent wall of the crystal city of Dluwulaxa spread out before me. I was back on the crystal world of the bird people, the Dluwulaxa, floating in the sky on the lenticular clouds anchored to the summit of Mount Rainier. The black shadow stepped to me

and blocked the blinding light from my face deflected by the crystal walls. She stood before me. Tall. Svelte. Muscular. Dark skinned. Naked. Long black hair cascaded over her shoulders and across her sculpted breasts. The seductress. Kinqalatlala. The black witch. Oh shit! I blurted out. You are not happy to see me? Kinqalatlala grabbed my arms with her firm hands and pulled me to my feet. She could as easily have stabbed me with her hands. In fact, she had stabbed me with her hand. She had killed me. Killed me by stabbing me through my chest with her hand. Kinqalatlala was a shapeshifter with the disconcerting ability to transform her hands into steel blades. She had stabbed me through my chest and killed me, sending me to the spirit world to help her search for the tlogwe, the special gift of magical powers. The magic which, among other things, allowed one to travel between the worlds of the living and the dead. This was a magic which could only be bestowed by the tlogwala, the keeper of the tlogwe. This was a magic which could only be bestowed by the tlogwala on someone deemed worthy enough, brave enough, or foolish enough to enter the spirit world, willingly or not. The world of the dead. Problem was, the only way for a mere mortal like me to enter the world of the dead was by becoming, well, dead. By dying. By giving up the world of the living. Kinqalatlala killed me to send me into the world of the dead on a fool's errand. As I learned, with the connivance of my own parrot, the hyacinth macaw Princess Tara, the manifestation of the blue witch Blue Tara, the mother of all the Taras, the coven of witches comprised of a pandemonium of parrots and one black cat. Turns out, Kinqalatlala didn't actually need my help to find the tlogwala or to discover the magic of the tlogwe. That's because I learned she was the tlogwala. And the tlogwe was hers to give to anyone she chose. So she chose me. But her

gift to me, if you can call killing me a gift, was not altogether altruistic.
