Pokemon Go Isabel Jones,2016-11-24 Discover Pokemon Go: Diary of a Hypno(Unofficial Pokemon Book) Are You Ready To Get into the Adventure of Pokemon Go Here is the Prologue Day 1, Monday Life as a Drowzee sure is easy. At least, that's what I thought until today. I was minding my own business, lazing in the grass after eating a tasty dream. By rubbing my belly I confirmed that I was full and ready for a nap. Just as I was about to drift into slumber, I heard the voice of a young human. It's got to be around here somewhere. The grass rustled to my left and a boy emerged. Look, there it is! He said while pointing at me. The boy had short brown hair with green eyes, and seemed very optimistic. He held a Pokeball in his hand and prepared a stance to throw it. If this kid thinks he's going to make me part of his team, he better prepare for a fight. I stood up ready to dodge his Pokeball, but just then my belly grumbled. I'm too full to move! Before I knew it the Pokeball clunked me on the head and I was forced inside. I wiggled around all I could, but my belly held me back from using my full strength. The Pokeball beeped, and I knew it was all over. Almost instantly I was released from my Pokeball. Here, the boy held out some candy to me. Eat up! I shook my head and patted my belly, Drowzee. It's okay they won't make you feel full! You want to become a Hypno don't you? Drowzee! I snatched the candy from his hands and ate them in one bite. My body began to change and slim. A pendulum formed in my hand and I knew I had become a Hypno at long last. Hypno! Even my voice was different. Nice to meet ya Hypno! I'm Levi; I think we'll make a great team. I realized that if Levi can make me strong, then I want to be on his team... Download to know all this exciting story NOW! Little Harvey the Hypno-Roo Goes Walkabout Ron Mottern, 2014-09-26 Little Harvey the Hypno-Roo Goes Walkabout is a helping book. It helps children to use their innate capacities for self-healing, both physical and psychological. This is accomplished through learning self-hypnosis. Self-hypnosis is easy for children. This book is meant for use by individuals 5 years old to 105 years old. It may be read to the younger child, with the caregiver reading the stories while the child participates in acting out the breathing and visualization exercises. As the child gets older, the caregiver may begin asking them questions in the WHAT WHAT Wombat section and, later, in the WDEP Platypus section. As the child ages, s/he may go back to the stories and, with the help of a caregiver, create scripts using the model in the back of the book. The breathing, scripts, imagination exercises, and WDEP procedures can be used throughout one's life.
