Hyundai Way: Hyundai Speed Donald G. Southerton, 2014-03-04 In the wake of the recent accomplishments of the Hyundai Motor Group and respectively the Hyundai Motor and Kia Motors brands a question is often raised, "What makes Hyundai so successful?" My objective for *Hyundai Way: Hyundai Speed* is to share insights into the Hyundai Motor Group—a unique inside view of a unique corporate culture.

Hyundai and Kia Motors: the Early Years and Product Development Donald G. Southerton, 2012-06-20 *Hyundai and Kia Motors: The Early Years and Product Development* by Donald G. Southerton provides deep insights into the rise of the Korean car industry. From the 1960s to early 2000s, political and economic forces impacted the growth and development of the South Korean carmakers, including Hyundai and Kia Motors. In addition, the brands at times partnered for technology with Ford, Mazda, and Mitsubishi, along with world class designers like Giorgetto Giugiaro. Expanding rapidly the Korean brands soon looked to new international markets, including the U.S. Despite the failure of Kia Motors to survive the IMF Crisis, the merger with Hyundai led to integrated technology research, development, and manufacturing-- not to mention the economies of scale needed for the Korean automaker to compete globally with industry heavyweights such as Toyota, Ford, GM, and VW. Car models discussed including the Kia's Brisa, Pride, Sephia, Sportage, and Rio along with Hyundai's Pony, Excel and Santa Fe.

The Global Korean Motor Industry Russell D. Lansbury, Chung-Sok Suh, Seung-Ho Kwon, 2007-01-24 This book examines the experiences of the globalizing Korean automobile industry, with particular focus on the Hyundai Motor Company (HMC), one of the most prominent of the new Korean multinational corporations. It provides an overview of the changing nature of the global automobile

industry, before considering in depth the globalization processes that the Korean automobile industry has undertaken. Tracing the development of HMC as it recovered from the failure of its first venture overseas, in Canada, and tried again in India, the authors explore the similarities and differences between the practices which HMC implemented in India and Korea. They highlight the importance of production systems and employment relations as part of HMC's growth, and argue that if Korean companies such as HMC are to compete successfully as global automobile producers they will need to increase the proportion of overseas production, establish global supply chains and improve co-ordination between head office and subsidiaries. Based upon extensive fieldwork in India and Korea, this book is a detailed account of the globalization of the Korean automobile industry and Hyundai Motor Company. Its findings will be of importance to all those who seek to understand the challenges faced by firms that attempt to become global players.

Made in Korea Richard M. Steers, 2013-08-21 American business folklore is awash with the adventures of successful entrepreneurs. Still, most of these stories are about Americans, neglecting important and courageous entrepreneurs from other countries. Made in Korea recounts the story of how Chung Ju Yung rose from poverty to build one of the world's largest and most successful building empires - Hyundai - through a combination of creative thinking, tenacity, timing, political skills, and a business strategy that few competitors ever understood. Chung entered the shipbuilding business with no experience and went on to create the world's largest shipyard. He began making automobiles when foreign experts unanimously predicted he would fail, and he started a global construction company that has built some of today's greatest architectural wonders. He even convinced the International Olympic Committee to select South Korea over Japan as the site for the highly successful 1988 Olympics. Unlike most CEO's of major firms, Chung has always preferred the company of his

workers to that of the global executive elite. Hard work, creativity and a capacity to never give up - this is the essence of Chung's life. In each of his ventures, he exhibited a sheer determination to succeed, regardless of the obstacles, and he worked tirelessly to instil this drive in all of his employees. Even today, in the midst of Korea's worst economic crisis in over four decades, Chung's company is busy implementing plans to emerge as an even stronger contender in the world economy. Illustrated with 32 pages of colour photographs not previously seen in the West, including photos of Chung's recent historic visit to North Korea in 1998, *Made in Korea* takes stock of Chung's entire life, highlighting both his contributions to society and the lessons his work can teach to aspiring entrepreneurs.

Hyundai Live Brilliant, 2016-03-08 Every century is marked by a few men and women whose efforts influence a nation, and even the world. In Korea, Chung Ju-yung is among such people. He shaped the destiny of his country by founding Hyundai Motor Company, and his legacy continues today through the spirit of this global company. In 2004, Hyundai ranked second on the J. D. Power and Associates Initial Quality Survey, and continues to be recognized in this and other top automotive rankings. Today, Hyundai has come to embody the spirit of modern premium, by emphasizing the values of being simple, creative, and caring in its conception. Hyundai celebrates this legacy of imagination and innovation with images that evoke the strength, elegance, and speed of Hyundai's cars. For lovers of speed and design, Hyundai is the ultimate addition to any collection.

Santro BVR Subbu, 2018-01-05 `There?s no business like the car business!? Within months of its launch in late 1998, with every well-known global automobile brand jockeying for a foothold in a small-car market almost monopolized by Maruti Udyog Limited, Hyundai Motor India?s debut production, the Santro, emerged as a force to reckon with. The first car to be conceptualized and designed for ? and then developed and manufactured in ? India, the `Sunshine Car? has, over a period of sixteen years, set the record for the quickest small car brand to go from zero to one million units sold. It achieved profitability for Hyundai at an unprecedented speed and made an impressive global impact as a made-in-India automobile in markets as diverse as Algeria and Zimbabwe, Western Europe and North America. In Santro: The Car That Built a Company, BVR Subbu, who spearheaded much of the Santro?s success, reveals the hitherto untold story of how this small car made such a big impact. Vivid anecdotes detail the challenges of introducing a new product in a new market, the canny business strategies that were employed to get the better of rival brands, the unforgettable marketing campaigns that made all the difference ? and the thrills of the high-stakes power battles and everyday drama that characterize corporate India. By turns revelatory, insightful and delightfully engaging, this is a business story with a difference about a car like no other.
