Polikarpov I-15, I-16 and I-153 Aces Mikhail Maslov,2013-02-20 The I-15, I-16 and I-153 fighters were the world's first mass-produced fighters. Some 17,000 Polikarpovs had been manufactured by the time production ceased in 1941. They served with the Republicans in the Spain, the Chinese against Japan in 1937–38, and the Soviets against both Japan in the Nomonhan Incident and Finland during the Winter War. By 1941, more than 20 Soviet pilots had made ace in Polikarpovs, and many more attained that status during the first months of the German invasion. Though thoroughly outclassed, the Polikarpov was the backbone of the Soviet air force during the early months of the war in the east, and continued to serve, as training aircraft and as frontline fighters, some right through to 1945.

Democratic Decentralization in India E. Venkatesu,2016-06-10 This book explores experiences, issues and challenges which have emerged since Constitutional status was granted to the local bodies at grassroots level in India in the early 1990s. Among other issues, it focuses on: the contrasting political ideas of Mahatma Gandhi and B. R. Ambedkar on Panchayati Raj Institutions the legal and constitutional provisions which were introduced through the 73rd and 74th Amendment Acts the devolution process, status and challenges of democracy for local governmental bodies empowerment of the women and lower castes through reservations in the local bodies governance in Schedule V and VI tribal areas Based on extensive fieldwork across India, this volume will be useful to scholars and researchers of political science, sociology, public administration as well as policymakers and civil society activists.

Polikarpov I-153 In Profile & Scale Erik Pilawskii,2021-06-29 Volume 11 of the Profile & Scale series covers the famous I-153 Chaika to an entirely new standard of authenticity. More than 65 I-153 examples are faithfully documented in full-colour profile, many appearing for the first time. Many pages of original and not previously published 1:48 scale line drawings reveal the development and complexity of the I-153 family as never before. These line drawings are the culmination of nearly 30 years' dedicated work on Polikarpov's biplane fighters, and should present the most complete, accurate and illuminating scale work regarding the aircraft at the present time. The book presents many development and variant detail facts about the I-153 which have been previously unclear. The scale drawings and profiles are complimented by photographs, diagrams, appendices and other documentary material to explain the technical and construction details of all of the production versions of the I-153, to include the TK supercharger equipped models. Many of the colour profiles represent examples which will be familiar to students of the Chaika, albeit completed to the utmost standard of accuracy. Several profiles will doubtless be new even to experienced readers, and it is hoped these will delight both the casual reader and the serious student, equally.

Soviet Aces of World War 2 Hugh Morgan,2013-01-20 No single volume in English has ever appeared in the West dealing with this intriguing subject area, but now that restrictions have relaxed in the former Soviet Union, records of the deeds of the elite pilots of the various Soviet Air Forces are coming to light. Although initially equipped with very poor aircraft, and robbed of effective leadership thanks as much to Stalin's purges in the late 1930s as to the efforts of the Luftwaffe, Soviet fighter pilots soon turned the tables through the use of both lend-lease aircraft like the Hurricane, Spitfire, P-39 and P-40, and home-grown machines like the MiG-3, LaGG-3/5, Lavochkin La-5/7/9 and the Yak-1/3.

P-36 Hawk Aces of World War 2 Lionel Persyn,Kari Stenman,Andrew Thomas,2012-12-20 The Curtiss P-36 was considered a revolution in performance design in comparison to other US fighters. Yet by the time of the Japanese attack on Pearl Harbor the P-40 was increasingly supplanting the P-36, which the US then exported to France under the guise of the Hawk 75. Flown by the French, captured by the Germans, sold to the Finns, transferred to India and Africa, and even incorporated into the RAF, the Hawk 75 saw service in every theatre of operations and in a variety of combat environments. This book depicts the fascinating life of a plane that fought on both sides in the war, with colour artwork, photographs and first-hand accounts.

Slovakian and Bulgarian Aces of World War 2 Jiri Rajlich,2012-12-20 In 1939, Slovakia signed a protection agreement with the German Reich and joined the attack on Poland, where its Avia B-534-equipped fighter squadrons claimed their first kills. In October 1942, having made do with obsolete aircraft, the Slovaks were equipped with Bf 109Es and eventually acquired 43 Messerschmitt fighters. The Slovaks would claim over 215 kills. Although it supported German efforts in Yugoslavia and Greece, Bulgaria did not declare war on Russia. First seeing action in August 1943, Bulgarian fighter pilots used their Bf 109Gs to good effect. From late 1943 through to mid-1944, the Bulgarian pilots attempted to defend the country from American bombers, and Stoyanov and Bochev made ace during this period.
