We Yevgeny Zamyatin, 2023-07-20

We, *Yevgeny Zamyatin* Yevgeny Zamyatin, 2019-04-10 *We* is a dystopian novel by Yevgeny Zamyatin completed in 1921. One thousand years after the One State's conquest of the entire world, the spaceship Integral is being built in order to invade and conquer extraterrestrial planets. Meanwhile, the project's chief engineer, D-503, begins a journal that he intends to be carried upon the completed spaceship. Like all other citizens of One State, D-503 lives in a glass apartment building and is carefully watched by the secret police, or Bureau of Guardians. D-503's lover, O-90, has been assigned by One State to visit him on certain nights. She is considered too short to bear children and is deeply grieved by her state in life. O-90's other lover and D-503's best friend is R-13, a State poet who reads his verse at public executions. While on an assigned walk with O-90, D-503 meets a woman named I-330. I-330 smokes cigarettes, drinks alcohol, and shamelessly flirts with D-503 instead of applying for an impersonal sex visit; all of these are highly illegal according to the laws of One State. Both repelled and fascinated, D-503 struggles to overcome his attraction to I-330. I-330 invites him to visit the Ancient House, notable for being the only opaque building in One State, except for windows. Objects of aesthetic and historical importance dug up from around the city are stored there. There, I-330 offers him the services of a corrupt doctor to explain his absence from work. Leaving in horror D-503 vows to denounce her to the Bureau of Guardians, but finds that he cannot. He begins to have dreams, which disturbs him, as dreams are thought to be a symptom of mental illness. Slowly, I-330 reveals to D-503 that she is involved with the Mephi, an

organization plotting to bring down the One State. She takes him through secret tunnels inside the Ancient House to the world outside the Green Wall, which surrounds the city-state. There, D-503 meets the inhabitants of the outside world: humans whose bodies are covered with animal fur. The aims of the Mephi are to destroy the Green Wall and reunite the citizens of One State with the outside world. Despite the recent rift between them, O-90 pleads with D-503 to impregnate her illegally. After O-90 insists that she will obey the law by turning over their child to be raised by the One State, D-503 obliges. However, as her pregnancy progresses, O-90 realizes that she cannot bear to be parted from her baby under any circumstances. At D-503's request, I-330 arranges for O-90 to be smuggled outside the Green Wall.

We Yevgeny Zamyatin, 2020-06-13T20:08:26Z D-503 is the Builder of the Integral, the United State's first spaceship. A life of calculations and equations in the United State leaves little room for emotional expression outside of the pink slips that give one private time with another Number. The façade however starts to crack when I-330, a mysterious she-Number with a penchant for the Ancients, enters the picture. *We*, Yevgeny Zamyatin's fourth novel, was written in 1920–21, but remained unpublished until its English release in 1924 due to conditions in the Soviet Union at the time (it was eventually published there in 1988). Its dystopian future setting predates Orwell's 1984 and Huxley's *Brave New World*, and it's now considered a founding member of the genre. It has been translated into English and other languages many times; presented here is the original 1924 translation by Gregory Zilboorg. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

We Evgenii Ivanovich Zamiatin, 1938-07 In the One State of the Great Benefactor, individuals have been replaced by numbers and passions subdued. But when the chief architect of the spaceship Integral, known as D-503, has a chance meeting with the beautiful I-330, he stumbles upon an unexpected discovery that threatens all he believes about himself and the One State.

We Yevgeny Zamyatin, 2001-01-01 Before Brave New World... Before 1984... There was... WE In the One State of the great Benefactor, there are no individuals, only numbers. Life is an ongoing process of mathematical precision, a perfectly balanced equation. Primitive passions and instincts have been subdued. Even nature has been defeated, banished behind the Green Wall. But one frontier remains: outer space. Now, with the creation of the spaceship Integral, that frontier -- and whatever alien species are to be found there -- will be subjugated to the beneficent yoke of reason. One number, D-503, chief architect of the Integral, decides to record his thoughts in the final days before the launch for the benefit of less advanced societies. But a chance meeting with the beautiful I-330 results in an unexpected discovery that threatens everything D-503 believes about himself and the One State. The discovery -- or rediscovery -- of inner space...and that disease the ancients called the soul. A page-turning SF adventure, a masterpiece of wit and black humor that accurately predicted the horrors of Stalinism, **We** is the classic dystopian novel. Its message of hope and warning is as timely at the end of the twentieth century as it was at the beginning.

We Yevgeny Zamyatin,2021-11-16 A radical new translation of the dystopian classic that influenced George Orwell and Aldous Huxley, introduced by Margaret Atwood. One State is the perfect society, ruled over by the enlightened Benefactor. It is a city made almost entirely of glass, where surveillance is universal and life runs according to algorithmic rules to ensure perfect happiness. And Chief Engineer D-503 is the ideal citizen, at least until he meets I-330, who opens his eyes to new ideas of love, sex, and freedom. A foundational work of dystopian fiction, inspiration for both Orwell's 1984 and Huxley's Brave New World, We is a book of radical imaginings--of control and rebellion, surveillance and power, machine intelligence and human inventiveness, sexuality and desire. It is both a warning and a hope for a better world. This new edition also includes Ursula K. Le Guin's essay The Stalin in the Soul on the enduring influence of Zamyatin's masterpiece, and George Orwell's 1946 review of We.

We Yevgeny Zamyatin,2019-01-19 We is set in a glass city of the future, where secret police and spies inform on and supervise the public with ease. Here life is organized to promote maximum productive efficiency and monolithic conformity; people march in step with each other and wear identical clothing. There is no way of referring to people except their given numbers. Males have odd numbers prefixed by consonants; females have even numbers prefixed by vowels. The story follows a man called D-503, who dangerously begins to veer from the 'norms' of society after meeting I-330, a woman who defies the rules. D-503 soon finds himself caught up in a secret plan to destroy OneState and liberate the city. - We,

We Yevgeny Zamyatin, 1933-08-01 The exhilarating dystopian novel that inspired George Orwell's 1984 and foreshadowed the worst excesses of Soviet Russia Yevgeny Zamyatin's *We* is a powerfully inventive vision that has influenced writers from George Orwell to Ayn Rand. In a glass-enclosed city of absolute straight lines, ruled over by the all-powerful 'Benefactor', the citizens of the totalitarian society of OneState live out lives devoid of passion and creativity - until D-503, a mathematician who dreams in numbers, makes a discovery: he has an individual soul. Set in the twenty-sixth century AD, *We* is the classic dystopian novel and was the forerunner of works such as George Orwell's 1984 and Aldous Huxley's *Brave New World*. It was suppressed for many years in Russia and remains a resounding cry for individual freedom, yet is also a powerful, exciting and vivid work of science fiction. Clarence Brown's brilliant translation is based on the corrected text of the novel, first published in Russia in 1988 after more than sixty years' suppression.
