Vânător Radu Brînzan,2014 A detailed and comprehensive illustrated technical history of the I.A.R.80 and I.A.R.81 - Romanian World War II fighter and ground-attack aircraft. This elegant but little-known aircraft was the mainstay of the Romanian air force's fighter arm throughout WW2, involved in fighting against both the Allies and then against the Axis. It was heavily involved in aerial battles against USAAF heavy bombers attacking Romanian oil fields. The different versions of the plane are described and illustrated; all the changes in specification, equipment and performance are recorded. Drawings and data from the original technical manuals, full dimensional details and photographs of the few surviving relics preserved in aviation museums illustrate all aspects of the airframe, inside and out. Color photographs and many pages of color illustrations complete the book's comprehensive coverage. 60 color profiles. Profusely illustrated with photos, including walk-around section showing all aspects of the airframe, and diagrams from official manuals. Includes accurate 1/48th scale plans, and color profiles showing many of the colorful schemes applied to the aircraft.

World War II Fighter Planes Spotter's Guide Tony Holmes,2021-02-04 World War II saw pilots from around the world battling in the skies over Europe, Asia and Africa, with victory resting upon their nerve, skill and the capabilities of some of history's most iconic aircraft. In the chaos of battle, it was vital that they could quickly identify friend from foe. But do you know your Hurricane from your Bf 109, or what the legendary P-51 Mustang looks like? Do you know the wingspan of the A6M Zero-sen, or how fast it could fly? THE WORLD WAR II

FIGHTER PLANES SPOTTER'S GUIDE answers all of these questions and more, providing essential information on over 90 legendary aircraft, from the celebrated Spitfire to the jet-powered Me 262. Featuring full-colour artwork to aid recognition, as well as all the details you need to assess their performance, this is the perfect pocket guide to the Allied and Axis fighters of World War II.

Aces Against Germany Eric Hammel, 2020-12-05 ACES AGAINST GERMANY The American Aces Speak Volume II Eric Hammel In the second volume of his critically acclaimed series, The American Aces Speak, noted military historian Eric Hammel brings fresh first-person accounts from thirty-nine U.S. Army Air Corps fighter aces who blasted their way across the skies of North Africa, the Mediterranean, and northern and southern Europe in the great crusade against Hitler's vaunted Luftwaffe and the other Axis air forces. Coupled with a clear, concise historical overview of America's brilliant air war against the Axis in Europe and North Africa, Hammel's detailed interviews bring out the most thrilling in-the-cockpit experiences of some of our country's best pilots. Climb aboard a P-38 Lightning as Maj. Bill Leverette fights America's highest-scoring single personal air battle against the Luftwaffe. And get into the cockpit of a P-47 Thunderbolt as 15-victory ace Capt. Don Bryan scores his dream kill by outwitting the pilot of a far speedier German jet in the closing days of the war in Europe. As he did in four companion volumes, Hammel has collected some of the very best air-combat tales from America's war against Germany. Nearly all the stories in Aces Against Germany have never before been told, and the others have been enhanced by details and viewpoints brought out by Hammel's superb interviewing. Together, the five volumes of nearly 200 first-person aerial-combat stories from World War II, Korea, and Vietnam stand as an enduring testament to the combat airmen who fought their wars strapped into the cockpits of America's lethal high-performance fighter aircraft. Aces Against Germany is a highly charged emotional rendering of the now-dim days of personal combat at the very edge of our living national history. There was never a war like it, and there never will be again. These are the stories of America's eagles in their very own words. Critical Acclaim for The American Aces Speak Series The Book World says: "Aces Against Japan is a thunderous, personal, high-adventure book giving our 'men in the sky' their own voice." Book Page says: "Eric Hammel's book is recommended reading. It is a must for any historian's bookshelf." The Library Journal says: "No PR hype or dry-as-dust prose here. Hammel allows his flyers to tell their stories in their own way. Exciting stuff aviation and World War II buffs will love." The Providence Sunday Journal says: "A treat that deftly blends a chronology of the Pacific War with tales that would rival a Saturday action matinee." Infantry Magazine says: "If you would like to read one book that will give you a broad overview and yet a detailed look at what a fighter pilot's air war was like this is the book." The Bookshelf says: "Hammel is one of our best military historians when it comes to presenting that often complex subject to the general public. He has demonstrated this facility in a number of fine books before [Aces Against Germany] and now he does so again. Not to be missed by either buff or scholar."

Rumanian Aces of World War 2 Dénes Bérnad, 2012-11-20 First seeing action in the wake of the German invasion of the USSR in June 1941, the Royal Rumanian Air Force had been allied to the Luftwaffe since the Romanian government

signed a Tripartite Pact with Germany and Italy in November 1940. This book reveals how, despite suffering heavy losses to the numerically superior Russian forces, the Rumanians inflicted even greater casualties on the communists. Locked in bitter conflict with the Soviets until September 1944, when the Red Army poured across the Rumanian frontier and forced an armistice, the modest fighter force claimed 1500+ kills using primarily Bf 109's, E's.

Enemy at the Gates Justo Miranda,2019-12-08 When the Nazis started to threaten the world with their efficient machine of propaganda, the main concern of European governments was the overwhelming reaction of panic that the expected bombing of the Luftwaffe might cause within the civil population. During the Munich Agreement in 1938, the democracies were defended by old biplanes and a bunch of modern fighters: 50 Hurricanes, 20 Morane-405 and 5 Fokker D.XXI. France and Great Britain took up the production of USA airplanes and cancelled exports to small countries, which were forced to design and build their own PANIC FIGHTERS with the intelligence and skill that desperation provides. When nothing seemed able to contain the German advance, France, Great Britain and the USSR developed several programs of emergency fighters, as did Australia, to face the Japanese expansion. At the time the course of events switched, it was the Axis powers that had to create their own PANIC FIGHTERS, some of them suicidal. The present book includes several last resource designs of fighters that are practically unknown and that were developed in times of tribulation by Australia, Belgium, Bulgaria, Canada, Czechoslovakia, Denmark, Estonia, Finland, France, Germany, Great Britain, Hungary, Japan, Yugoslavia, Latvia, Netherland, Poland, Romania, Sweden and Switzerland.

Ploesti 1943 Steven J. Zaloga,2019-10-31 Operation Tidal Wave was one of the boldest and most controversial air raids by the United States Army Air Forces (USAAF). At the time, the Romanian Ploesti oil fields produced about a third of all Axis oil, and was Germany's single most important fuel source. In the summer of 1943, the USAAF decided to stage a major raid on Ploesti from air bases in Libya. The resulting Operation Tidal Wave raid on 1 August 1943 was one of the costliest to date, losing 53 aircraft, about a third of the starting force. Of the more than 150 bombers that took part in the raid, only 88 B-24s returned to Libya, 55 of which were damaged. On the other hand, of the 17 Medals of Honor awarded to US soldiers and airmen from Pearl Harbor in 1941 to D-Day in 1944, 5 were awarded to pilots of the Tidal Wave mission in recognition of their extraordinary performance. Although undoubtedly bold and heroic, the mission had questionable results. Initial assessments argued that the mission caused 40% of the refinery capacity at Ploesti to be lost but subsequent studies concluded that the damage was quickly repaired and that output had exceeded August levels within a month. This new study examines the raid in detail, exploring the reasons why its dubious success came at such a high price. Supported by maps, diagrams, and full-colour artwork including battlescenes and bird's-eye views, this is the full story of the audacious Ploesti raid of 1943.

Ploesti Through The Lens Roger Freeman,2004-05-30 The Ploesti Raid took place on Sunday, August 1, 1943 and, but for a navigational error which put the leading formation on a course away from the target, the operation might

have resulted in the destruction of the seven chosen targets. However, by the time the mistake was realized, the defenses were on the alert and over 20 Liberators were brought down in and around Ploesti. A further 35 aircraft were lost. Although the operation resulted in the award of five Medals of Honor — America's highest decoration for bravery — the cost was high: 308 airmen lost their lives and 208 were taken prisoner or interned. Out of the 1,753 men who are known to have set out on the mission, a total of 516 failed to return.

Fortress Ploesti Jay A. Stout, 2003-11-19 A comprehensive account of the World War II Allied bombing campaign to destroy pivotal Romanian oil refineries—by the retired Marine Corps fighter pilot. Unlike previous books on Ploesti, Jay Stout goes well beyond the famous big and bloody raid of August 1943 and depicts the entire 1944 strategic campaign of twenty-plus missions that all but knocked Ploesti out of the war and denied the German war machine the fuel and lubricants it so desperately needed. Stout's account is also a launching point for the author's inquiries into many aspects of the American strategic bombing effort in World War II. It delivers across the board. Stout, who served as a Marine F/A-18 pilot in the First Gulf War, asks questions about aviation combat history and technique that any modern combat pilot would be dying to ask. He carries the ball far beyond the goal post set by all other Ploesti historians. He has gone out of his way to describe the defenses throughout the campaign, and he brings in the voices of Ploesti's defenders to complement the tales of Allied airmen who brought Ploesti to ruin. He describes the role of the bombers, as well as that of the fighters, the antiaircraft defenses, even the technique of obscuring the Ploesti complex with smoke. Stout's lucid presentation of complex issues at the tactical and strategic levels makes his narrative "a must for those with a special interest in the attacks on Ploesti" (World War II History Magazine).

Woodbine Red Leader George Loving, 2007-12-18 A COMBAT ACE'S ACCOUNT OF PILOTING THE GREATEST SINGLE-SEAT FIGHTER IN WORLD WAR II World War II marked the end of an era; fighter pilots still flew by the seat of their pants, and George Loving recaptures the exhilarating world of aerial combat in all its stark terror and fiery glory. His first fighter was the famed Spitfire, hero of the Battle of Britain. By 1943, however, it was obsolescent and did not match up well against the first-line German Messerschmitts and Focke-Wulfs. Yet Loving survived 101 combat

missions flying the Spitfire. In the spring of 1944, Loving's 31st Fighter Group started flying P-51 Mustangs and was transferred to the new Fifteenth Air Force to escort heavy-bomber formations on long-range strategic strikes across southern Europe, including southeastern Germany. In the flak-filled skies over Ploesti, Vienna, Bucharest, Munich, and Stuttgart, where a number of the war's fiercest air battles took place, Lieutenant Loving flew head-to-head against some of the Luftwaffe's top fighter aces. By the time George Loving completed his 151st, and final, combat mission on August 21, 1944, he had risen from a lowly second lieutenant and untested wingman to captain, group leader, and Mustang ace. Loving's gripping account captures the savage action he experienced in all its intensity.

Aces of the 325th Fighter Group Tom Ivie, 2014-01-20 The 325th FG was activated under General Order number 50 on 30 July 1942 and set up training operations at Theodore F Greene Field in Providence, Rhode Island. By mid-December 1942 the group was considered ready for combat and the alert for overseas duty arrived on 2 January 1943. The pilots and their P-40s departed on the carrier USS Ranger on 8 January and flew their aircraft off the vessel into Cazes airfield, near Casablanca, on 19 January 1943. After the remainder of the personnel arrived in late February, the group prepared for combat, and finally flew its first mission on 17 April 1943 as part of the Twelfth Air Force. During the next four months it participated in the North African campaign, and operations against enemy-held islands in the Mediterranean Sea. By the end of the Sicilian campaign on 17 August the 325th FG had scored 128 aerial victories, been the first P-40 unit to deliver 1,000-lb bombs against enemy targets and had escorted 1,100 bombers without losing a single one of them to enemy action.

An Ace and His Angel Herbert Brooks Hatch, 2000-12-01 This story was written by Herbert Brooks Hatch, Jr., one of America's living Fighter Pilot Aces from World War II. Hatch flew a P-38 with the 71st Fighter Squadron, 1st Fighter Group, out of Salsola, Italy. Except for a brief deployment to Corsica to cover the invasion of Southern France, he flew his 59 missions out of Foggia #3. He earned the Distinguished Flying Cross and the Air Medal with 11 Oak Leaf Clusters. In his first book, *An Ace and His Angel: Memoirs of a WWII Fighter Pilot*, Hatch writes of the heroes and hardships endured by veterans of the Army Air Force.
