She is charming, loved by all customers including drunk people. Sometimes, those who are not human also come to Geidontei for a drink. A Feast of Lanterns L. Cranmer-Byng,2020-04-25 Theoretically Ch'eng Shao Yiin passed all her hours within her own apartments and in the flowery courtyard, as a Chinese woman of high caste

should. Actually she went daily here, there and everywhere about her vast domain, her journey ings limited only by her whim, and her face and voice as familiar to every coolie on the place as the trees and the red roofs of the houses were. At first the house had been built about two courtyards, as a Chinese home should be built, but the many marriages, and the lush influx of baby-life had first crammed and cramped it, and then burst through it quite; and that many of her children should not be roofless, Yim had caused a grove of additional home- quarters to jut out again and again from every wall, and from them others, like red-topped mushrooms, quarters leading all into the others, strung together by doors and courtyards, and that were houses in themselves except in name, and independent homes but for the vigorous over-ruling of Ch'eng Shao Yiin, and that in their irregular, straggling, sloping red-roofed mass spread over several acres. But so wide were the gardens in which they lay, and so vast the fields and groves and hilly vineyards and quarries circling the gardens about, that the great congerie of linked buildings looked snug and homelike. at They were all of but one story. In Pekin it was against the law--and in China law is obeyed--to erect a dwelling of more than one story--because Chinese ladies spend their lives within home-walls, and depend upon the courtyards of the flowery quarters for fresh air and sunshine.

Protectors and Predators Bernard Faure, 2015-12-31 Written by one of the leading scholars of Japanese religion, *Protectors and Predators* is the second installment of a multivolume project that promises to be a milestone in our understanding of the mythico-ritual system of esoteric Buddhism—specifically the nature and roles of deities in the religious world of medieval Japan and beyond. Bernard Faure introduces readers to medieval Japanese religiosity and shows the centrality of the gods in religious discourse and ritual. Throughout he engages theoretical insights drawn from structuralism, post-structuralism, and Actor-Network Theory to retrieve the “implicit pantheon” (as opposed to the

“explicit orthodox pantheon”) of esoteric Japanese Buddhism (Mikkyō). His work is particularly significant given its focus on the deities’ multiple and shifting representations, overlappings, and modes of actions rather than on individual characters and functions. In *Protectors and Predators* Faure argues that the “wild” gods of Japan were at the center of the medieval religious landscape and came together in complex webs of association not divisible into the categories of “Buddhist,” “indigenous,” or “Shinto.” Furthermore, among the most important medieval gods, certain ones had roots in Hinduism, others in Daoism and Yin-Yang thought. He displays vast knowledge of his subject and presents his research—much of it in largely unstudied material—with theoretical sophistication. His arguments and analyses assume the centrality of the iconographic record as a complement to the textual record, and so he has brought together a rich and rare collection of more than 170 color and black-and-white images. This emphasis on iconography and the ways in which it complements, supplements, or deconstructs textual orthodoxy is critical to a fuller comprehension of a set of medieval Japanese beliefs and practices and offers a corrective to the traditional division of the field into religious studies, which typically ignores the images, and art history, which oftentimes overlooks their ritual and religious meaning. *Protectors and Predators* and its companion volumes should persuade readers that the gods constituted a central part of medieval Japanese religion and that the latter cannot be reduced to a simplistic confrontation, parallelism, or complementarity between some monolithic teachings known as “Buddhism” and “Shinto.” Once these reductionist labels and categories are discarded, a new and fascinating religious landscape begins to unfold.

Forbidden Scrollery, Vol. 6 Moe Harukawa, 2019-02-19 A rush of unusual gossip is spreading to the heart of Gensokyo, and a few clever individuals are each trying to steer the chaos to their own advantage. At risk is the delicate balance between humans and

demons...Are dark days ahead for Gensokyo, or will hope come over the horizon? It's no laughing matter when the very meaning of truth is in danger!

A Medicine for Melancholy and Other Stories Ray

Bradbury,2013-04-30 Ray Bradbury is a painter who uses words rather than brushes--for he created lasting visual images that, once observed, are impossible to forget. Sinister mushrooms growing in a dank cellar. A family's first glimpse at Martians. A wonderful white vanilla ice-cream summer suit that changes everyone who wears it. A great artist drawing in the sand on the beach. A clunky contraption made out of household implements to help some kids play a game called Invasion. The most marvelous Christmas display a little boy ever saw. All those images and many more are inside this book, a new trade edition of thirty-one of Bradbury's most arresting tales--timeless short fiction that ranges from the farthest reaches of space to the innermost stirrings of the heart. Ray Bradbury is known worldwide as one of the century's great men of imagination. Here are thirty-one reasons why. Monsters in the Garden David Larsen, Elizabeth

Knox, 2021-02-23 Too stuffy inside? All those familiar social realist furnishings, all those comfortable literary tropes. Perhaps a stroll out under the trees, where things are breezier, stranger, more liable to break the rules. You may meet monsters out there, true. But that's the point. Casting its net widely, this anthology of Aotearoa-New Zealand science fiction and fantasy ranges from the satirical novels of the 19th-century utopians &- one of which includes the first description of atmospheric aerobreaking in world literature &- to the bleeding edge of now. Spaceships and worried

sheep. Dragons and AI. The shopping mall that swallowed the Earth. The deviant, the fishy and the rum, all bioengineered for your reading pleasure. Featuring stories by some of the country's best known writers as well as work from exciting new talent, *Monsters in the Garden* invites you for a walk on the wild side. We promise you'll get back safely. Unchanged? Well, that's another question.
