IFC, what it Is, what it Does, how it Does it International Finance Corporation,1974

Project Finance in Developing Countries Priscilla Anita Ahmed,Xinghai Fang,1999-01-01 This report explores the changing face of project finance in developing markets. IFC, and more recently, other multilateral, bilateral, and export credit institutions have played a strong supportive role in bringing project finance to its current volumes. This role was highlighted in 1998, when these institutions sustained flows of an estimated \$25 billion at a time when there was an abrupt decline in some types of private flows. IFC, in particular, was a pioneer of project finance in developing countries and has a unique depth of experience in this field, which spans more than 40 years in the practical implementation of some 2000 projects, many of them on a limited-recourse basis. Particularly in today's marketplace, IFC's ability to mobilize finance (both loan and equity for its own account and syndicated loans under its B-loan program), the strength of its project appraisal capabilities, and its experience in structuring complex transactions in difficult environments have been reassuring to other participants and important to the successful financing of many projects. This report draws on IFC's experience in more than 230 greenfield projects costing upward of \$30 billion that relied on project finance on a limited-recourse basis (see Appendix A). It opens with a brief description of the major international trends in project finance over the past two decades and then turns to the essential ingredients of successful project financing.--Publisher abstract.

Financing Micro, Small, and Medium Enterprises ,2008-01-01 This study evaluates the effectiveness of IFC's strategic priority of private sector development in frontier countries (high-risk and/or low-income) by supporting micro, small, and medium enterprises (MSMEs) during fiscal years (FY)1994-2006. IFC has channeled its support to MSME's by: i) indirect financing through financial intermediaries, and ii) by indirect institution-building support via specialized regional small and medium enterprise (SME) development facilities. This evaluation analyzes IFC's development results and provides recommendations on how IFC's performance can be improved in this area going forward.

International Business Expansion Into Less-Developed Countries Erdener Kaynak,James C Baker,2013-01-11 For the first time, here is the complete history of the International Finance Corporation (IFC). In the fifty years since the end of World War II, the world of development finance has grown rapidly. One of the many financial institutions which cropped up to help war-torn countries with their reconstruction was the IFC. *International Business Expansion Into Less-Developed Countries* examines the success of the IFC in its wide variety of public sector development activities. Covering thirty-five years of IFC operations, the book thoroughly evaluates the formulation of the concept of the IFC and its evolution as a viable global development finance agency. It is the most complete and up-to-date treatment available of the IFC. The administration and operational procedures are described in detail as are case examples of financial development in all regions. Problems encountered by the IFC and new and future activities of the IFC are discussed. Scholars of economic development and international finance will find the unusual way in which the IFC was established and the case examples presented a highly valuable reference, as will students of international studies and organizations.

The Environmental and Social Challenges of Private Sector Projects Ramamohan Mahidhara,2002 This document represents collective learning from a large number of people and projects at IFC. It is intended to share practical experience and to contribute to a better understanding of some of the environmental and social issues involved in private sector financing.

IFC and Its Role in Globalization Suellen Lambert Lazarus,2002-01-01 Established in 1956, the International Finance Corporation (IFC) is the largest multilateral source of loan and equity financing for private sector projects in the developing world, and it is a member of the World Bank group. This book contains a number of papers presented at the 2001 meeting of the International Finance Corporation (IFC) to discuss a range of issues including: the IFC's role in globalisation, the market environment, sustainability and corporate governance, the new Basel Capital Accord and

its implications for bank lending policies to emerging markets, and project financing issues.

Trends in Education Access and Financing During the Transition in Central and Eastern Europe Dena Ringold,1997-01-01 IFC Results on the Ground No. 1. The International Finance Corporation (IFC), whose primary mission is to encourage economic development in its member countries by supporting the private sector, measures its development effectiveness through an annual project review. This report, the first in a series that examines the IFC's development impact, presents five case studies of projects carried out during 1995-96. The projects involved were chosen for their geographic diversity and because they represent a number of sectors in which the IFC has traditionally done business--banks in Africa and Latin America; an agribusiness project in Madagascar; a textile operation in Indonesia; and an infrastructure project in Argentina. Each of these studies illustrates in detail the various aspects of project contributions of projects to development and some of the residual problems that will be the subject of future work.

Biennial Report on Operations Evaluation The World Bank,2013-08-07 The development paradigm has shifted toward private investment, and the private sector has become central in development strategies. There is much to be learned about how to effectively facilitate and mobilize private sector contributions to development. Effective monitoring and evaluation (M and E) systems are critical for learning to catalyze private sector development. In line with this advance, the International Finance Corporation and the Multilateral Investment Guarantee Agency are developing and refining their M and E efforts. In this Biennial Report on Operations Evaluation, the Independent Evaluation Group takes stock of the evolution of the M and E systems in the two organizations, assessing their adequacy, coverage, and quality, as well as their respective results measurement systems. IEG acknowledges progress by the two institutions. IFC has advanced its systems for gathering, analyzing, and applying project information and has strengthened its coverage of indicators that measure results. Information from M and E has become more prominent in its business decisions. However, the institution's corporate goals are built on indicators of client reach that cannot be solely attributable to IFC, so there is no credible articulation of IFC's impact. MIGA has introduced self-evaluation of its projects and started gathering some standard development indicators. As a result, individual learning is taking place in the institution. The report shows the importance of IFC and MIGA managements continuing their efforts to deepen M and E and improve their systems. To gain the full benefit of learning from evidence that M and E brings to light, key areas need improvement. IEG offers recommendations for IFC regarding quality, verification of data, and tracing effects. For MIGA, IEG notes that it needs to adapt and streamline its evaluation approach to fit its business practices.

Infrastructure Delivery Ashoka Mody,1996-01-01 IFC Lessons of Experience Paper No. 3. Describes the International Finance Corporation's (IFC's) 20 years of leasing experience in developing countries and assesses the developmental impact of leasing. The IFC has invested in leasing companies in more than half of the developing countries that have a leasing industry today.

Independent Evaluation of IFC's Development Results 2008 ,2008-01-01 This years Independent Evaluation of IFC's Development Results (IEDR) reviews the findings related to 174 IFC-Supported investment operations that reached early operating maturity during 2005-07. It also includes preliminary results for IFC's advisory services, based on a pilot review of 293 operations completed during 2004-06. As a second theme, the report

provides a first look by IEG at IFC's additionally (or unique contribution) in its investment and advisory services operations.

Independent Evaluation of IFC's Development Results 2007 ,2007-01-01 As part of the World Bank Group, IFC's overriding objective is to help reduce poverty and support sustainable development in developing countries. IFC pursues this mission by supporting the private sector to create jobs and simulate markets. This report, which assesses the impact of IFC toward that mission, appears at a time of unprecedented levels of private investment in the emerging markets. The report takes a look back at the development results that the IFC-supported projects have achieved in the last 10 years, the main lessons that have emerged at the project level and the strategic implications for IFC going forward, in the context of rapid organizational growth. Going forward, the report highlights major challenges IFC faces to achieving overall development effectiveness.

Technical Analysis Explained IFC Markets,2014-11-14 Technical analysis attempts to understand the market psychology by studying the behavior of the market in the past. If one understands the essence, benefits and limitations of technical analysis, it can give him new skills to become a better trader. The main objective of "Technical Analysis Explained" is to help you learn the most essential and fundamental points of technical analysis, understand why and how successful traders use it in their trade and develop your own trading strategy based on technical charts and indicators. It's a complete work to show you when to use technical charts and indicators, what the trend stands for and how to predict future market movements. Handbook for Preparing a Resettlement Action Plan ,2002 The goal of the International Finance Corporation is to promote sustainable development through private sector investment in developing countries in order to reduce poverty and improve people's lives. IFC often supports investments that involve complex social and environmental issues, and it takes these issues very seriously. IFC recognizes that the resettlement of people from their homes or displacement of people from their livelihoods is economically and socially disruptive and may affect some people living close to the edge of survival. Where resettlement is unavoidable, each project requires its utmost attention. IFC considers resettlement an opportunity to improve peoples' lives by providing sustainable benefits and improved means of livelihood to people affected by IFC-financed projects. This handbook outlines methods and practices for the preparation of successful resettlement action plans conforming to IFC's policy on involuntary resettlement. As a reference for project developers, it describes the issues associated with the economic and physical displacement of people and provides an appreciation of the level of effort a project will require. It is intended primarily to assist the practitioners, consultants, NGOs, and community-based organizations that design and carry out resettlement activities. The handbook may be used in conjunction with IFC's public consultation Good Practice Manual and its Community Development Guide.
