**Transit Bus Manufacturer Profiles** Bruce J. Weiers,1982

**H0 Scale Model Buses (Part 1 1948–2000)** Andi Payne,2012-08-29 A guide and introduction to collecting model buses and coaches in the popular HO/1:87 scale. It isn't intended as definitive but more of an aid.

Plenty of pictures help to clarify things especially if you buy over the internet.

*Technology and the Environment in State-Socialist Hungary* Viktor Pál,2017-09-15 This book explains how and why the state-socialist regime in Hungary used technology and propaganda to foster industrialization and the conservation of natural resources simultaneously. Further, this book explains why this process was ultimately a failure. By exploring the environmental pre-history of communist Hungary before analyzing the economic development of the Kádár regime, Pál investigates how economic and environmental policies and technology transfer were negotiated between the official communist ideology and the global economic reality of capitalist markets. Pál argues that the modernization project of the Kádár regime (1956–1990) facilitated ecological consciousness – at both an individual and societal level – which provoked great social unrest when positive environmental impact was not achieved. Today, global issues of climate change, urban pollution, resource depletion, and overpopulation transcend political systems, but economic and environmental discourses varied greatly in the twentieth century. This volume is important reading for all those interested in economic and environmental history, as well as political science.

**Autobusy Ikarus** Harák Martin,2022-11-29 Publikace zahrnuje historii vzniku, výroby a dalších souvislostí všech typů maďarských autobusů Ikarus, které byly v provozu v bývalém Československu, ale posléze i samostatné České republice a na Slovensku, s důrazem na nejrozšířenější typ Ikarus 280 plánkového provedení, kterému se lidově přezdívalo „abajka“.

**Transit Bus Manufacturer Profiles** ,1982

Hungarian Digest ,1982

**Diesel Particulate Emissions Landmark Research 1994–2001** John H Johnson,2002-02-20 The need for manufacturers to meet U.S. Environmental Protection Agency (EPA) mobile source diesel emissions standards for on-highway light duty and heavy duty vehicles has been the driving force for the control of diesel particulate and NOx emissions reductions. Diesel Particulate Emissions: Landmark Research 1994-2001 contains the latest research and development findings that will help guide engineers to achieve low particulate emissions from future engines. Based on extensive SAE literature from the past seven years, the 45 papers in this book have been selected from the SAE Transactions Journals.

**Transportation Infrastructure** Richard M. Gutkowski,Jan Kmita,2013-04-17 Experts discuss how to repair, rehabilitate and modernize the transportation infrastructure in emerging Central Europe. The focus is on applying modern engineering technologies and management decision-making technologies to solve common and regional environmental issues in ground transportation, with emphasis on roads and bridges. The book includes situation, position and technical papers and state-of-the-art presentations from scientific and engineering experts as well as from government agency officials responsible for national and regional transport. Concise, cogent recommendations are presented. The reader is provided with current information on related environmental and transportation issues. Experts and lay readers will benefit from the information on economic, social, and political aspects.

**Transport Planning for Third World Cities (Routledge Revivals)** Harry T. Dimitriou,2013-06-26 Cities within the developing world experience a form of urban development which is different to those in more industrialised countries. Rates of growth are usually much more dramatic, housing and transport are often provided informally, and institutional support for urban management is also much weaker. The crux of this book, first published in 1990, lies in the idea that urban transport planning cannot be viewed in isolation from this wider development context. Making special reference to a number of countries, including Brazil, India and Indonesia, chapters discuss problems of urban transport planning, deficiencies in the theory and practice of conventional transport planning, and the emerging alternatives in the countries under examination. This work addresses problems that are still of great concern to urban policy planners, professionals and academics, as well as students from the fields of development studies, urban geography and planning, architecture and civil engineering.

**Hungarian foreign trade** ,1978

*IATSS Research* Kokusai Kōtsū Anzen Gakkai,1988

*Twin Cities Metropolitan Area Analysis of Trolley Bus Feasibility in the Twin Cities* Metropolitan Transit Commission,1981

**Cross-border Partnership** Ioan Horga, István Süli-Zakar, 2010

Kultowe autobusy PRL-u Michał Leńniewski, 2020

*Autobusy a trolejbusy východního bloku* Harák Martin, 2013-11-27 Autobusy a trolejbusy mají nepopiratelné kouzlo: od starých autobusů, které se cestou do hor plné lyží šplhaly do zatáček, přes tlačenice v městské hromadné dopravě až po moderní dálkové vozy, jimiž lze pohodlně cestovat přes celý kontinent. Mnoho pozoruhodných strojů, často velmi progresivní konstrukce, vzniklo v druhé polovině 20. století i na naší straně bývalé železné opony, v továrnách tzv. východního bloku. Tato kniha nabízí v encyklopedické podobě pohled autobusů, trolejbusů i zajímavých nerealizovaných prototypů, které se vyráběly v letech 1945-1990 v jednotlivých zemích socialistického tábora, doplněný unikátními fotografiemi a tabulkami technických údajů. Neomezuje se ovšem jen na suchá fakta - výklad je doplněn mnoha zajímavostmi a nečekanými souvislostmi, díky nimž se před čtenářem otevírá plastický obraz jednoho segmentu dějin techniky doby nedávno minulé.
