Edwin P. Hoyt

Imperial Japanese Navy Light Cruisers 1941-45 Mark Stille,2012-02-20 The Imperial Japanese Navy went to war with 17 light cruisers and another three cruiser-sized training ships. Of these, most were 5,500-ton ships designed to act as destroyer squadron flagships. This made them much different in capabilities and mission from their American counterparts. During the war, the Japanese built another five light cruisers, all but one of which maintained the design premise of being able to serve as destroyer squadron flagships. During the war, Japanese light cruisers were active throughout the Pacific performing many missions in addition to their flagship duties. Mark Stille continues Osprey's coverage of the IJN of WWII with this concise and complete study of all 25 ships, from their design and development to their ultimate fates. Detailed Osprey artwork and rare period photographs from the Fukui collection held in Kure, Japan illustrate this discussion.

Japanese Light Cruisers of World War II in Action Wayne Patton,2006-05-11 At the beginning of

World War II, the Imperial Japanese Navy operated a light cruiser force of 20 ships, and added another five during the course of the war. These fast ships, carrying seaplanes and heavy torpedo armament, generally were used as flagships for destroyer flotillas and submarine squadrons. Of these, nine were sunk by U.S. or British submarines, 11 were sunk by U.S. aircraft, two were sunk by U.S. torpedo boats or destroyers, and three were still afloat at the end of the war. Star Wars Origami , 2012-08-07 Kids love origami—and what could be cooler than transforming a piece of paper into Boba Fett, Princess Leia, Yoda, or R2-D2? And not just any paper, but custom-designed paper illustrated with art from the movies. Star Wars® Origami marries the fun of paper folding with the obsession of Star Wars. Like The Joy of Origami and Origami on the Go, this book puts an original spin on an ancient art. And like Star Wars® Scanimation® and Star Wars® Fandex®, it's a fresh take on Star Wars mania. Chris Alexander is a master folder and founder of the popular website StarWarsOrigami.com, and here are 36 models, clearly explained, that range in difficulty from Youngling (easy) to Padawan (medium), Jedi Knight (difficult), and Jedi Master (tricky!). A front section introduces origami definitions and basic folds. Bound in the back is the book's unique folding paper, two sheets for each figure. Illustrated with original art, it makes each creation—the essential

lightsabers, the Death Star, and much more—true to the movies. Star Wars Origami includes a foreword by Tom Angleberger, author of the New York Times bestsellers The Strange Case of Origami Yoda and Darth Paper Strikes Back, and is scheduled to be published at the same time as Angleberger's upcoming book, The Secret of the Fortune Wookiee.

Imperial Japanese Navy Aircraft Carriers 1921-45 Mark Stille, 2012-05-20 The Imperial Japanese Navy was a pioneer in naval aviation, having commissioned the world's first built-from-the-keel-up carrier, the Hosho. Throughout the 1920s and 1930s, it experimented with its carriers, perfecting their design and construction. As a result, by the time Japan entered World War II and attacked the United States at Pearl Harbor in 1941, it possessed a fantastically effective naval aviation force. This book covers the design, development and operation of IJN aircraft carriers built prior to and during World War II. Pearl Harbor, Midway and the first carrier vs carrier battle, the battle of the Coral Sea, are all discussed.

Imperial Japanese Navy Heavy Cruisers 1941-45 Mark Stille, 2012-05-20 Designed with little more than a passing nod to the international naval treaties of the inter-war period, the Imperial

Japanese Navy's heavy cruisers were fast and heavily armed. Like the other vessels of the Japanese Navy, the heavy cruisers were technologically superior to and far more innovative than their Allied rivals, whom they met in many of the major Pacific Theatre battles, including Midway and Leyte Gulf. Mark Stille continues his study of the IJN of WWII with this fascinating topic, addressing the design and development of all 18 ships in the six heavy cruiser classes, from pre-war construction and mid-war alterations, to their operational histories and eventual fates.

Solo Command: Star Wars Legends (X-Wing) Aaron Allston, 2011-06-28 Wraith Squadron: they are the Rebel Alliance's ultimate strike force. Sleek, swift, and deadly, they are the first in battle, the last line of defense. Now they must find and destroy a wily enemy more powerful than the Empire itself. Their covert mission has been a success. The enemy has been vanquished. Or so they thought. The Super Star Destroyer Iron Fist somehow escaped destruction and with it the New Republic's greatest threat, the infamous warlord Zsinj. To defeat him, Wraith Squadron must join a combat task force led by the only man crafty enough to beat Zsinj at his own game: Han Solo. But Zsinj knows the X-wing fighters' indomitable courage is both their greatest strength--and their greatest weakness. For even against the most overwhelming odds, the Rebels will fight to the death. And that will leave Zsinj the galaxy's unchallenged master! Features a bonus section following the novel that includes a primer on the Star Wars expanded universe, and over half a dozen excerpts from some of the most popular Star Wars books of the last thirty years!

Ship of Ghosts James D. Hornfischer, 2009-03-25 NEW YORK TIMES BESTSELLER Son, we're going to Hell. The navigator of the USS Houston confided these prophetic words to a young officer as he and his captain charted a course into U.S. naval legend. Renowned as FDR's favorite warship, the cruiser USS Houston was a prize target trapped in the far Pacific after Pearl Harbor. Without hope of

reinforcement, her crew faced a superior Japanese force ruthlessly committed to total conquest. It wasn't a fair fight, but the men of the Houston would wage it to the death. Hornfischer brings to life the awesome terror of nighttime naval battles that turned decks into strobe-lit slaughterhouses, the deadly rain of fire from Japanese bombers, and the almost superhuman effort of the crew as they miraculously escaped disaster again and again—until their luck ran out during a daring action in Sunda Strait. There, hopelessly outnumbered, the Houston was finally sunk and its survivors taken prisoner. For more than three years their fate would be a mystery to families waiting at home. In the brutal privation of jungle POW camps dubiously immortalized in such films as *The Bridge on the River Kwai*, the war continued for the men of the Houston—a life-and-death struggle to survive forced labor, starvation, disease, and psychological torture. Here is the gritty, unvarnished story of the infamous Burma–Thailand Death Railway glamorized by Hollywood, but which in reality mercilessly reduced men to little more than animals, who fought back against their dehumanization with dignity, ingenuity, sabotage, will–power—and the undying faith that their country would prevail. Using journals and letters, rare historical documents, including testimony from postwar Japanese war crimes tribunals, and the eyewitness accounts of Houston's survivors, James Hornfischer has crafted an account of human valor so riveting and awe-inspiring, it's easy to forget that every single word is true. **BONUS:** This edition contains an excerpt from James D. Hornfischer's *Neptune's Inferno*.

is praised for its superb drawings and full descriptions of each ship's design, construction, operational history, and much more.

British Light Cruisers 1939-45 Angus Konstam,2012-10-20 The light cruiser was a natural development of the sailing frigate – a fast multi-purpose warship that could patrol the sea lanes, protect convoys and scout for enemy battle fleets. By the inter-war period the need for this type of ship was even more important, given the increasing need for protection from aircraft, and the need to screen the fleet from submarines or destroyers. Wartime experience had shown that the British light cruiser was one of the most versatile types of ship in the Royal Navy, able to protect other warships, bombard enemy shores, guard life-saving convoys and intercept and destroy enemy warships. These were truly the workhorses of the wartime Royal Navy. While the battleships and carriers grabbed the headlines, these sleek, elegant warships quietly got on with the job of securing control of the seas.

US Navy Light Cruisers 1941-45 Mark Stille, 2016-07-28 During World War II, the United States built 72 light cruisers of various classes. In response to the severe air threat that surface ships faced, new cruisers were designed with increasingly heavy antiaircraft weaponry as well as the traditional 6in guns. With the speed and range to keep up with aircraft carriers, and their considerable antiaircraft capability, they were a mainstay of the carrier escorts. This book examines every US light cruiser produced, including those of the Fargo and Worcester classes, which were actually complete after World War II had ended, tracing their design, development and evolution throughout the war and beyond.

Cruiser Mike Carlton, 2011 Of all the Australians who fought in the Second World War, none saw more action nor endured so much of its hardship and horror as the crew of the cruiser HMAS Perth. Most were young--many were still teenagers--from cities and towns, villages and farms across the nation. In three tumultuous years they did battle with the forces of Nazi Germany, Fascist Italy, the Vichy French, and, finally, the Imperial Japanese Navy. They were nearly lost in a hurricane in the Atlantic. In the Mediterranean in 1941 they were bombed by the Luftwaffe and the Italian Air Force for months on end until, ultimately, during the disastrous evacuation of the Australian army from Crete, their ship took a direct hit and thirteen men were killed. After the fall of Singapore in 1942, HMAS Perth was hurled into the forlorn campaign to stem the Japanese advance towards Australia. Off the

coast of Java in March that year she met an overwhelming enemy naval force. Firing until her ammunition literally ran out, she was sunk with the loss of 353 of her crew, including her much-loved captain and the Royal Australian Navy's finest fighting sailor, 'Hardover' Hec Waller. Another 328 men were taken into Japanese captivity, most to become slave labourers in the infinite hell of the Burma-Thai railway. Many died there, victims of unspeakable atrocity. Only 218 men, less than a third of her crew, survived to return home at war's end. Cruiser, by journalist and broadcaster Mike Carlton, is their story. And the story of those who loved them and waited for them.
