A photographic food atlas with portion sizes of commonly consumed foods in Accra, Ghana Folson, Gloria, Bannerman, Boateng, Ador, Gabriel, Atadze, Vicentia, Akoto, Saudatu, Asante, Stephen, Abbeyquaye, Joseph, Anang-Tetteh, Audrey, Guri, Erica, Ibrahim, Gabriel, Alhassan, Jamil, Tetteh, Matilda, Afuanimaa, Belinda, Koch, Bastien, McCloskey, Peter, Gangupantulu, Rohit, Braga, Bianca C., Hughes, David, Gelli, Aulo, 2022-10-06 This Food Atlas provides a photograph series of 68 meals commonly consumed by adolescent girls in Accra, Ghana. It consists of pictures of four portion sizes per meal, including weights. The main aim of this Food Atlas is to enable accurate portion-size estimation; during food consumption surveys, these images can be shown to respondents to aid them in describing the quantity of food consumed. The Food Atlas can also aid in estimating, quantifying, educating, and counseling on appropriate portions of food in order to help improve dietary intake. The meals were chosen using data collected during a previous study conducted at the Department of Nutrition, NMIMR, "Dietary Patterns and Cardio-metabolic Risk in Urban Dwelling Adolescents" (IRB Study Number 001/17-18), aimed at understanding the eating patterns, physical activity levels and their association with measures of adiposity, blood pressure, and fasting blood sugar among adolescents between ages 10 and 17. All recipes were compiled with the aid of a professional caterer who had experience cooking for adolescents in a school setting.

Proceedings of the 2nd International Student Conference on Linguistics (ISCL 2022) Mirsa Umiyati, I Nyoman Kardana, Aron Meko Mbete, I Gusti Made Sutjaja, Dewa Komang Tantra, Nyoman Sujaya, Ni Wayan Kasni, I Wayan Budiarta, Rika Purnama Sari, 2023-03-02 This is an open access book. Linguistics as a field of study discussing languages plays a fundamental role in the life of humans. It affects the human way of thinking in various aspects. In turn, there is a pervasive influence of language on our daily lives. The impact is that the work of linguists is no longer only managing language in one discipline, but relating and interconnecting the linguistics with other fields at a further level. Linguistic studies have now been carried out in various fields including psychology, anthropology, neuroscience, law, philosophy, computer science, communications, and education. Linguistics enthusiasts find practical solutions for their linguistic training in the computer, law, and forensic industries, teaching foreign languages and English as a second language, translation and interpretation, speech pathology, lexicography, and policymaking in government and education. Nowadays, these jobs are, however, no longer operational but encounter many challenges, especially in the global era. The digital revolution has created new avenues for language use and new communication modalities. The existence of technology mediates our linguistic and social interactions. The pervasive influence of technology on human development has the potential to influence language acquisition and change social behavior. In this global era, many challenges in human life arise. Our brave new digital world has caused some discord for language activists - and if harsh text speakers do not feel good, woe ensues our new diet of round-shaped emojis. Our language and our relationship to language have developed to keep pace with cultural changes. Furthermore, since the spread of the COVID-19 pandemic, society has been carrying out communication online through the internet and social. To , society has been accustomed to doing it that way. One of the challenges linguistics studies are facing is the implementation of appropriate language capacity. There are conditions for the use of inaccurate languages according to standardized rules in communication through online media. To solve this, reciprocal interactions are also important for creating a pool of different perspectives among the smart human community. In total, digital technologies are also changing the ways we learn and teach, as well as the ways we compose and research. These changes are occurring throughout the academy, including the humanities - a set of disciplines less associated with technology. In an effort to vanquish

the challenges trending in the linguistic study in order to depict the future perspectives on it established in the description above, fresh ideas from the younger generations are needed. For that purpose, the Graduate School of Linguistics, the Postgraduate Program University of Warmadewa in collaboration with other institutes presents an international academic discussion forum in the form of a conference. This event is themed "The 2nd Student Conference on Linguistics: Trends and Future Perspectives in Language study and Language Teaching". Through the forum students from various parts of the world are expected to share bright and innovative ideas to discover solutions to the problems and challenges faced by linguistics today and in the coming future.

Liem Sioe Liong's Salim Group Richard Borsuk, 2014-11-07 After Suharto gained power in Indonesia in the mid-1960s, he stayed as the country's president for more than three decades, helped by the powerful military, hefty foreign aid and support from a coterie of cronies. A pivotal business backer for his New Order government was Liem Sioe Liong, a migrant from China, who arrived in Java in 1938. A combination of the Suharto connection, serendipity and personal charm propelled him to become the wealthiest tycoon in Southeast Asia. This is the story of how Liem built the Salim Group, a conglomerate that in its heyday controlled Indonesia's largest non-state bank, the country's dominant cement producer and flour mill, as well as the world's biggest maker of instant noodles. The book features exclusive input from Liem, who died in 2012, and his youngest son, Anthony Salim. It traces the founder's life and the group's symbiosis with Suharto, his generals and family. After the tumultuous 1997-98 Asian financial crisis sparked Suharto's fall and a backlash against the strongman's cronies, Anthony staved off the crushing of the debt-laden group. Told in a journalistic style, the story of the Salim Group provides insights into Suharto's New Order. For business executives, students and anyone with an interest in Southeast Asia's largest economy, the volume makes a valuable contribution towards understanding the country's modern history.

The Overcomers Alef Meulenberg, 2022-10-24 What would you do if you suddenly lost everything? If the business you've put your heart and soul into is gone overnight? This question became a reality for many entrepreneurs whose businesses were destroyed during the looting of July 2021 in South Africa. Alef Meulenberg travelled into the heart of townships like Alexandra in

Johannesburg and the deep rural settings of KwaZulu-Natal to follow ten entrepreneurs who built businesses from nothing, nurtured and grew them over the years, only to lose everything during this time. In *The Overcomers* Alef provides us with each of these entrepreneurs' stories – where they come from, what they do, what happened during the looting and how they recovered from such a devastating event. And, importantly, Alef writes about the dreams of these remarkable entrepreneurs and their plans to grow their businesses going forward. These stories about hardship, resilience, determination and hope are the backdrop for valuable lessons for all of us, in both business and life. Let's learn from those who have come out on the other side. Let us learn from the overcomers.

KasiNomic Revolution GG Alcock, 2018-10-22 The informal business sector is the next great frontier of Africa and it is undergoing an economic revolution, a new world of small people doing big things, transforming the continent. Prepare for this new generation, prepare for the Afropolitan Generation. A revolution is taking place in the great marketplaces of the informal sector and it contains an unquantified scale and power as an economic engine and a way of life for the majority of our low income populations. The KasiNomic Revolution may still be a murmur in the streets, a grassroots economic groundswell, but it is the future of African economic activity. Kasi is the South African term for the township, a teeming conurbation of homes and businesses, entertainment venues and social meeting places. GG Alcock uses the term KasiNomics to describe the informal sectors of Africa, whether they are in the township, a rural marketplace, at a taxi rank or on a pavement in the shadow of skyscrapers. Brought up in a rural Zulu community, GG has learnt and shares the lessons of African culture, language, stick fighting, lifestyle and tribal politics, along with shared poverty and community, which have prepared him for accessing the great informal marketplaces of Africa. He is uniquely placed to uncover the extraordinary stories of kasi businesses which not only survive but excel, revealing a revolutionary entrepreneurship which is mostly invisible to the formal sector. KasiNomic Revolution is a story of kasi entrepreneurs on one side and, on the other, of great corporate successes and failures in the informal community. KasiNomic Revolution is at once a business book, and at the same time a deeply human book about the people and lives of rural and urban informal societies. KasiNomic Revolution is about the lessons of marketing, distribution, culture and modernity in an informal African world. Prepare for a KasiNomic Revolution.

The War Against Counterfeit Medicine Dora Nkem Akunyili, 2011-12-29 There is a general agreement that piracy; counterfeiting and passing off are unfair. However, there is often surreptitious - or even open - sympathy for, say, those who purchase counterfeit designer fashions or the latest technical gadgets. The pirate is even sometimes represented as a daring evil hero. In this book, Prof. Dora Nkem Akunyili, Director General of Nigeria's National Agency for Food and Drug Administration and Control, presents a unique study of a global phenomenon in which law-breaking and profiteering prevail at the cost of human health and life - and of the ways in which this can be fought by appropriate legislation, regulation and enforcement.

FAO/INFOODS Food Composition Table for Western Africa (2019) / Table de composition des aliments FAO/INFOODS pour l'Afrique de l'Ouest (2019) Food and Agriculture Organization of the United Nations, 2020-02-20 Food composition data are useful throughout the food system for nutrition-sensitive agriculture, improved processing methods that ensure greater nutrient retention in foods, nutrition labelling, and to inform, educate and protect consumers through food-based dietary guidelines, nutrition education and communication, and legislation. The FAO/INFOODS Food Composition Table for Western Africa (WAFCT 2019) is an update of the West African Food Composition Table of 2012, which lacked some important components, foods and recipes. WAFCT 2019 contains almost three times as many food entries and double the number of components, with increased overall data quality. Many of the data points from WAFCT 2012 have been replaced with better data – mostly analytical data from Africa, with a special emphasis on Western Africa. These improvements are essential to understanding the nutrient composition of foods in the region and to promoting their appropriate use. WAFCT 2019 is the result of four years of collaboration among INFOODS network researchers in Africa and the Nutrition and Food Systems Division of FAO, and was developed as part of the International Dietary Data Expansion (INDDEX) Project, implemented by Tufts University's Gerald J. and Dorothy R. Friedman School of Nutrition Science and Policy, with funding from the Bill & Melinda Gates Foundation. These new data from WAFCT 2019 will support further research towards an expanded and improved evidence base and will support better, more informed decisions and effective policies and programmes for improved nutrition in Africa.

The Five Sorrowful Mysteries of Andy Africa Stephen Buoro, 2023-04-18 The Los Angeles Times Book Prizes Finalist Longlisted for the 2024 Aspen Words Literary Prize Named a Best of the Year Book by NPR Crackling with energy and intelligence, this debut is the smart, subversive, funny, heartbreaking (Kamila Shamsie) story of an exceptional teenager coming of age in the shadow of colonialism and communal violence in Nigeria. Andrew Aziza is an unusually smart fifteen-year-old in Kontagora, Nigeria. He lives with his fiercely protective mother, Gloria, and fantasizes obsessively about white girls—especially blondes. When he's not in church, at school, or hanging about town with his droogs wishing to become one of "Africa's first superheroes," he's contemplating the larger questions with his teacher Zahrah and his equally brilliant friend Fatima, a Hausa-Fulani girl who has feelings for him. Together they discuss mathematical theorems, Black power, and what Andy has deemed the Curse of Africa. Sure enough, the reluctantly nicknamed Andy Africa soon falls hopelessly and inappropriately in love with the first white girl he lays eyes on: Eileen. But at the church party held to celebrate her arrival, multiple crises loom. An unfamiliar man there claims, despite his mother's denials, to be Andy's father, and an anti-Christian mob has gathered, headed for the church. In the ensuing havoc and its aftermath, Andy

is forced to reckon with his identity and desires and determine how to live on the so-called Cursed Continent. The Five Sorrowful Mysteries of Andy Africa announces a dazzlingly unique literary voice. Crackling with energy, this tragicomic novel provides a stunning lens into contemporary African life, the complicity of the West, and the impossible challenges of growing up in a turbulent world.
