*The Report: Peru 2014* Oxford Business Group, 2013-12-19

Over the past decade Peru has seen a period of transformative growth, effectively positioning it as one of the leading economic performers in Latin America. Posting growth rates in excess of 6% from 2010-12, the economy expanded by a further 5.1% in the first half of 2013. A major metals and minerals exporter with a

burgeoning agricultural sector, Peru's rapid economic growth has been the result of elevated global demand for commodities and key exports, as well as prudent fiscal planning and the expansion of non-primary sectors. With an investor-friendly legal framework, Peru has become a prime destination for foreign direct investment and was recently ranked the second-best country for doing business in Latin America by the World Bank. Despite ongoing social conflict related to extractive industries and a sizeable infrastructure gap, Peru's stable macroeconomic environment and its efforts to diversify and guard against price volatility should ensure continued growth for this Andean economy.

*Semiótica del consumo. Una aproximación a la publicidad desde sus signos* Eduardo Yalán Dongo, 2019-03-01 Entendida como la ciencia de los signos, la semiótica se ha ocupado largo tiempo de las reflexiones sobre la publicidad y el consumo. Desde el clásico análisis de los fideos Panzani de Roland Barthes hasta el despliegue de un branding semiótico por parte de Andrea Semprini, la semiótica de la publicidad ha estudiado los efectos de sentido producidos por los signos al interior de una sociedad, específicamente, una sociedad de consumo. Por ello, el autor

explora el hiperconsumo y aceleracionismo del estado actual del mercado a través de los signos encontrados en anuncios gráficos, logotipos, marcas, colores, conceptos y otros elementos insertados en la lógica del consumo. Esta obra propone el estudio de estas tendencias y límites del consumo registradas a nivel de los signos. Los primeros dos capítulos presentan a la semiótica y a su método orientado al estudio de las lógicas de consumo y sus tensiones al interior de una sociedad. Los tres capítulos finales partirán de esta cartografía elaborada de los signos para aplicarla en el estudio del color y logotipo en el mercado, el consumidor y su representación en la narrativa publicitaria. Es un libro dirigido a profesionales de la comunicación, marketing y demás interesados en el tema.

*Peru's Southern Coast* Nicholas Gill, 2010 Peru is one of the most diverse and fascinating countries on the planet. Of the 117 life zones on earth, 84 can be found here. Because of this, Peru's flora and fauna is some of the most unusual on earth. Scientists are only beginning to grasp just how many species exist and how many are still likely to be discovered. Large areas of rainforest and mountains remain unexplored. It was only in the past few decades

that research began on the canopy tops, the upper levels of the rainforest, which have opened up a whole new world of plant and wildlife. As far as history goes, there is more here than anywhere else in the Americas. Most have heard of the Incas and Machu Picchu, but there were many large civilizations here long before the Incas: the Chavín, Chimu, Moche, Wari, Nazca and Paracas. Each group left their mark on the country in some way and their achievements, artifacts, and architecture are more impressive in many ways than that of the Incas. Highlights of the Southern Coast: \* Wine and Pisco tasting OCo Sample the world's largest Pisco-producing region and some of the finest wine Peru has to offer. \* Islas Ballestas OCo See seals, frigate birds, and Humboldt penguins in the poor man's Galapagos. \* Santa Catalina Monastery OCo Walk through the secluded city within a city, one of Peru's most revered Catholic landmarks. \* Nazca Lines OCo Take a gut-wrenching flight in a five-seater plane for the best view of the Nazca lines. The Nazca Lines, 22 km/13 miles north of Nazca, were made by removing the darker sun-baked stones and piling them on either side of the line, exposing the lighter soil. Why the lines were made is still open to much debate, but scientists have a fairly good idea of who made them. The Paracas and Nazca peoples are believed to have created the lines between 900 BC to 600 AD. It is also believed that the Huari settlers from Ayacucho made some additions in the seventh century. There are literally hundreds of lines and geometric shapes that stretch for miles, but the animals such as a monkey, dog, spider, whale, and several birds, including a hummingbird with a wingspan of over 100 yards, are the most well-known. There are also images of a tree, hands, and what is thought by some to be an astronaut. \* Adventure OCo Trek Colca Canyon, climb El Misti, or raft in Cotahuasi. This guide includes full details on where to stay and eat in Southern Peru, plus what to see and do. Also included is an extensive introduction to Peru as a whole, with information about the history and culture of the country, the cuisine, the arts, the people, the flora & fauna, the

parks & reserves, and the 20 top adventures.
