Veronica Scott

Interstellar Marine Strike Force Derek Stone,2023-12-10 For the men of the Interstellar Marine Strike Force stationed aboard the ECS Stryker have at last returned to Earth. Expecting a hero's welcome, they instead find the war against the Serkins has followed them home. The only option is to fight, but the question is, can this humiliating blow be turned into a victory? Will the victory hold any weight, and how far will someone go to make that so?

*Star Corps* Ian Douglas,2009-10-06 In the future, earth's warriors have conquered the heavens. But on a distant world, Humanity is in chains ... Many millennia ago, the human race was enslaved by the An -- a fearsome alien people whose cruel empire once spanned the galaxies, until they were defeated and consigned to oblivion. But a research mission to the planet Ishtar has made a terrifying -- and fatal -- discovery: the Ahanu, ancestors of the former masters, live on, far from the reach of Earth -- born weapons and technology ... and tens of thousands of captive human souls still bow to their iron will. Now Earth's Interstellar Marine Expeditionary Unit must undertake a rescue operation as improbable as it is essential to humankind's future, embarking on a ten-year voyage to a hostile world to face an entrenched enemy driven by dreams of past glory and intent once more on domination. For those who, for countless generations, have known nothing but toil and subjugation must be granted, at all costs, the precious gift entitled to all of their star-traveling kind: freedom!

**Space Marines** Veronica Scott,2017-01-29

Star Marines Ian Douglas,2007-01-30 With the planet's fighting men and women deployed across the galaxy—battling in the noble cause of enslaved humanity—the insidious Xul have reached across space to devastate the unsuspecting Earth with asteroid fire. Without warning, a once majestic world is reduced to near-rubble—and the very future of humankind is in dire jeopardy. Interplanetary leaders are on the brink of abandoning Earth and its colonies to an overwhelming enemy. But Brigadier General Garroway of the Marine Interstellar Expeditionary Unit is unwilling to concede defeat—not as long as there's a single marine willing to give his or her life in defense of their embattled homeworld. The ultimate battle is about to be waged—with breathtaking new attack technology, an ancient code of courage, and the help of an ally race that once inhabited the Earth—in a war that will alter the universe forever . . .

*Chaos Company* James Domenighini,2024-01-12 The day Lion Biyela graduated from the Naval Academy as a Marine officer, he resigned his commission and enlisted in the Interstellar Marines as a grunt. He has never regretted it. Several years later, Lion is now a sergeant, leading his own fire team. The Marines of his team are his friends and family, his brothers and sisters. They serve on the colonial world of Eos, where they fight against alien invaders seeking to destroy all things human. But it's not just the war and the invaders that they strive against, but rather cold-hearted fellow

Marines, self-righteous officers, and the fear of losing each other. Their challenges are many, but their bond is tight. Yet will they survive?

*Galactic Corps* Ian Douglas, 2009-10-06 War is forever The people on Earth no longer remember how the human race was nearly obliterated centuries earlier during the terror visited upon them by the merciless Xul. But the Star Marines, thirty thousand light years from home, know all too well the horror that still lives. In the year 2886, in the midst of the intergalactic war that has been raging nonstop for nearly a decade, the unthinkable has occurred. Intelligence has located the gargantuan hidden homeworld of humankind's dedicated foe, the brutal, unstoppable Xul. The time has come for the courageous men and women of the 1st Marine Interstellar Expeditionary Force to strike the killing blow. But misguided politics on an Earth that no longer supports their mission could prove the Marine's greatest enemy—as they plunge bravely into the maelstrom of conflict . . . and into the heart of a million-year-old mystery.

**United Star Systems Marines** Hunter S. Opilla, 2011-03-09 It is the 22nd Century and mankind has achieved wormhole space travel; colonizing several nearby planets in the Milky Way galaxy. The United Star Systems now struggles to provide a unified system of government for Earth and its colonies amidst civil war, rampant piracy, and slaver raids. Meanwhile, Kaleb Taylor, an ordinary kid from a farming colony, is placed directly into the mayhem of the interstellar conflict against his will. With his home destroyed and no other

options but to enlist in the United Star Systems military, he volunteers to undergo the most intense training available in order to become a Recon Marine. Soon thereafter, Kaleb and his elite platoon find themselves on the high-tech front lines of battle with a new, powerful, intergalactic enemy that threatens to destroy all of humanity. Earth and the colonial governments must now decide whether to set aside old grudges and unite under the United Star Systems banner to defend against this mysterious enemy, or face certain annihilation.

**Broken and Hunted** Charissa Dufour, Mars: a beacon of safety and refuge, unless you're transporting the disputed embryos of genetically modified animals intended for auction to the Martian elite. Jack Macleef and his small crew of interstellar merchant marines—including "Bit," an unexpected indentured servant—think they're on a simple cargo drop when things suddenly go awry. Dodging paint-hurling protestors and mercenaries bent on terrorizing the crew's families, Jack and Bit have their hands full as they try to keep the crew from falling apart while still delivering the cargo on time.

*Bloodstar* Ian Douglas, 2012-08-28 With his *Heritage*, *Legacy*, and *Inheritance* trilogies, New York Times bestselling author Ian Douglas established himself as one of the true masters of military sf—sharing center stage with such authors as Rick Shelley, John Ringo, David Sherman, and Dan Cragg in a wildly popular sub-genre of science fiction that includes such enduring classics as *The Forever War* by Joe Haldeman and Robert Heinlein's *Starship Troopers*. Now,

with Bloodstar, Douglas kicks off his new series, Star Corpsman, with a bang, focusing on the elite units of recon Marines and S/R Corpsmen who infiltrate alien worlds ahead of major planetary invasions to gather intelligence on both the local environment and on the psychology and biology of the enemy. In Bloodstar Ian Douglas carries readers once more across the vast galaxy, light-years from Earth, and into the fire and terror of future war.

**Rebel** Jonathan Brazee, 2015-01-08 Michiko MacCailin is a member of the First Families, more concerned with her privileged lifestyle of ballet, spending time with friends, and planning her wedding than of the injustices suffered by the indentured workers of the all-powerful Propitious Interstellar Fabrication, Inc., the charter holder of the planet. When her activist fiancé is murdered at a protest rally, she blames the company and embarks on a personal mission of vengeance. Michi has some initial, if minor success, but when the company requests that the Federation send in the Marine Corps to quell the unrest, the stakes immediately get higher. Undeterred, Michi is willing to take on the Marines if that is what it takes to achieve her revenge. **WARNING:** This book contains some graphic violence that may not be suitable for all readers. **AUTHOR'S NOTE:** Rebel is set in the same universe as the first three books in The United Federation Marine Corps series, and a few of the characters in those three books make brief appearances in this one. However, this is a decidedly different book, examining what it might be like on the other side of a Federation Marine deployment. The battle scenes are

limited, and the violence is much more visceral and personal. This is a darker, deeper book and not your typical Space Marine story. Rebel will tie into future volumes of the series that will put the focus back on the Marines, but it is a departure from the first three volumes.

**Pandora** Marguerite Labbe, 2017-04-25 When convicted murderer Riff Khora and his crewmates board the derelict spacecraft Pandora, they are plunged into a reality they cannot trust as murder and insanity consume their prison ship.

**The Drifter** Stephen A. North, 2021-12-29 2099 A.D. With billions around the globe jobless, a spiraling crime rate, and an unquenchable demand for offworld human labor and soldiers, Earth's rulers implement voluntary and forced transportation to other planets. Among those compelled to go offworld are criminals and the unemployed. Serve your sentence and maybe you will get the coveted "Second Chance at Life the Way It Should Be." Alexander Cray is just another piece of human flotsam lost among the hopeless majority of humanity's teeming billions. The odds are against him and getting worse. He's had at least one memory wipe and his wife and former life are both lost to him forever. When he is sent to the hell planet known as Bacchus III, he knows his chances of survival—let alone a Second Chance—just got slimmer.

**Battlespace (The Legacy Trilogy, Book 2)** Ian Douglas, 2013-04-04 When called to do battle many light years from home, the 1st Marine Interstellar Expeditionary Unit rose to the challenge – and now thousands of enslaved humans have been freed, but the earth has moved on...

Hunter's Legacy Jason Kooi,2008-12-05 The demonic howls continued reverberating inside the sphere. The shrill sounds kept raising and lowering in pitch, as though there were more than one kind of animal within that filmy fog. Each time the thing inside the dome roared, the different tones slowly began modifying themselves into one piercing bellow, slicing through the air. Hunter grimly whispered, 'Don't watch. This is the part where something really bad happens.' On the eve of final exams, the remarkably young, yet remarkably talented Hunter is sent out to the uncivilized ends of the universe to disarm an up-and-coming terrorist organization. In the midst of his absence, an unknown alien species descends upon the Universally-Credited Tactics Academy, the most advanced center for training in interstellar warfare, industrial espionage, and technological sciences. In the space of a single night, this hostile force takes control of the galaxy's best kept military secrets. When these creatures uncover information surrounding the source of Hunter's strength, they stop at nothing to destroy him. Before Hunter can face this new threat, though, he must come to terms with a secret buried deep inside him; a secret that could lead to the destruction of everything and everyone Hunter holds dear.

**The Video Games Guide** Matt Fox,2013-01-03 The Video Games Guide is the

world's most comprehensive reference book on computer and video games. Presented in an A to Z format, this greatly expanded new edition spans fifty years of game design--from the very earliest (1962's Spacewar) through the present day releases on the PlayStation 3, Xbox 360, Wii and PC. Each game entry includes the year of release, the hardware it was released on, the name of the developer/publisher, a one to five star quality rating, and a descriptive review which offers fascinating nuggets of trivia, historical notes, cross-referencing with other titles, information on each game's sequels and of course the author's views and insights into the game. In addition to the main entries and reviews, a full-color gallery provides a visual timeline of gaming through the decades, and several appendices help to place nearly 3,000 games in context. Appendices include: a chronology of gaming software and hardware, a list of game designers showing their main titles, results of annual video game awards, notes on sourcing video games, and a glossary of gaming terms.

**A Long Way Home** Terrence R. McInnes, 2012-01 This is the story of Sean McKinnie, a young farm boy from the medieval world of Brae who longs to escape the family farm. On his way to begin study at the university, Sean stumbles into a fire-fight between troops of the local tyrant and Congressional Marines trying to overthrow Brae's corrupt and brutal government. Saving the life of one ambushed Marine, McKinnie is taken aboard the Congressional starship cruiser Lewis and Clark and is befriended by the

starship's crew-becoming an unofficial ship's mascot. His new friends realize that though McKinnie comes from a backwater world and is ignorant of interstellar politics, he is highly intelligent and might become a valuable asset as a covert Congressional agent.

**The Race For A New Game Machine:** David Shippy, Mickie Phipps, 2010-01-01 The pioneering game-chip engineers behind the revolutionary Cell microprocessor tell the story of its creation in this “fast-paced tell-all” (Steve Cherry, IEEE Spectrum Magazine). The Xbox 360 and PlayStation 3 game systems have changed the face of home entertainment. But few know the amazing story inside the consoles—how David Shippy and his team of engineers at the Sony/Toshiba/IBM Design Center (STI) forged the tiny miracle at the core of it all: a revolutionary microprocessor chip that set a new paradigm in personal computing. In *The Race for a New Gaming Machine*, Shippy tells the dramatic story in his own words. Here is a dazzling, behind-the-scenes account of life in the tech world, featuring memorable characters, high-level corporate intrigue, and cutthroat business dealings. At stake were the livelihoods—and sanity—of an unsung group of tireless visionaries. At war were the giants Microsoft and Sony. It's a story that's never been told—until now.

*Min-Maxing My TRPG Build in Another World: Volume 7* Schuld, 2023-10-09 After a road home full of new meetings, farewells, and all sorts of chaos, Erich has finally made his way back to Konigstuhl. His brothers may have grown up a

bit, but his friends and family haven't changed much at all. Although the warm welcome from his little canton is comforting...the show must go on! Finally ready to fulfill his promise to himself and his childhood companion, how will everyone's favorite Level 1 Fighter fare as he sets off on his adventure?!
