The Dragon of the Ishtar Gate Lyon Sprague De Camp, 1982-01-01

The Ishtar Gate Joachim Marzahn, 1992

A Wonder to Behold Anastasia Amrhein, Clare Fitzgerald, Elizabeth Knott, 2019-12-10

The Ishtar Gate of Babylon Helen Gries, 2022 The lavishly decorated Ishtar Gate was one of ancient Babylon's city gates. The Babylonian king Nebuchadnezzar II built it in the 6th century BCE. During the annual New Year festival, the processions of the gods passed through this gate as they entered the city centre. But how did the Babylonians make the glazed bricks used in the gate's construction? What was the significance of the lions, dragons, and bulls that adorned the gate? How and why did pieces of the gate end up in Berlin, where the Ishtar Gate was reconstructed from thousands of fragments in the 1920s? And how authentic is this reconstruction? This publication addresses these and many other questions. In the process, it sheds light on the historical context, the respective actors, and their various motivations.

Beyond the Ishtar Gate Joshua Free, 2011-12-01 Following the author's widely successful Mardukite Year-3 series of works culminating an in-depth examination of Mesopotamian Magic, Sumerian Sorcery and the Dark Arts of Babylon, Joshua Free's *Beyond the Ishtar Gate* (Liber-C) completes the trilogy launched from *Magan Magic* (Liber-E) and *Maqlu Magic* (Liber-M); simultaneously released by the Mardukite Chamberlains as the *Necronomicon Spellbook* trilogy series. BEYOND THE ISHTAR GATE

(also released as Necronomicon Spellbook III) is concerned with the 'other side' of the tradition, parts that have been concealed and yet also what made the tradition famous - mainly, the connection to the Other, that which we have been programmed to perceive as 'separate' from this reality. By whatever names it has been given, the part of this 'advanced', 'esoteric' or 'inner circle' work connected directly to the Other, in whatever tradition it is realized from, is the highest part of the 'Great Work' - that which all the rest seemingly culminates into or points toward. It has been considered 'divine communication' by some and 'trafficking with the devil' to others - but regardless of the view taken, the knowledge and experience of these crossings is never held without some regard, for better or worse. Liber-C also contains the unpublished conclusion to Series-U and Series-V tablet cycles not found in the Necronomicon Anunnaki Bible anthology.

The Dragon of the Ishtar Gate Lyon Sprague De Camp, 1968

The Dragon of Ishtar Gate L. Sprague De Camp,1982-05-01

The Ishtar Gate Diana Brebner,2005 We are always in the middle of life, looking forwards and backwards; the only movement we can make to defy physics and history is the journey of the spirit. The Ishtar Gate, a ceremonial gate from the palace of Nebuchadnezzar at Babylon, reconstructed and housed in the Staatliche Museum, Berlin, is my personal symbol for the merging of ancient and modern culture, the old goddess-centred religions and the scholarly, rational West. So wrote Diana Brebner of the book she planned to write. Though cancer claimed her life before she could complete this project, she wrote some thirty poems towards it. Here is a poet in extreme control of her craft: the aesthetic refinement, the musicality of language, the spiritual vision, and the playfulness that drew readers to Brebner's previous award-winning books - *Radiant Life Forms*, *The Golden Lotus*, and *Flora & Fauna* - resonate with even greater force in her last poems.

Babylonian Topographical Texts A. R. George, 1992
Babylonian Topographical Texts collects for the first time all Babylonian and Assyrian texts of the first millennium B.C. that belong to what is designated the topographical genre. Much of the material is not previously published. The book is largely concerned with Babylon. Seventeen texts on this city now allow its topography to be properly understood for the first time. Another seventeen texts concern the cities of Nippur, Assur, Kish and Uruk. Also included are thirty miscellaneous texts, mostly new, which bear upon topographical matters. The text editions and translations are supplemented by a philological and topical commentary. The work is concluded with full indices, and 57 plates of cuneiform copies.

Occult Roots of Religious Studies Yves Mühlematter, Helmut Zander, 2021-06-08
The historiographers of religious studies have written the history of this discipline primarily as a rationalization of ideological, most prominently theological and phenomenological ideas: first through the establishment of comparative, philological and sociological methods and secondly through the demand for intentional neutrality. This interpretation caused important roots in occult-esoteric traditions to be repressed. This process of "purification" (Latour) is not to be equated with the origin of the academic studies. De facto, the elimination of idealistic theories took time and only happened later. One example concerning the early entanglement is Tibetology, where many researchers and respected chair holders were influenced by theosophical ideas or were even

members of the Theosophical Society. Similarly, the emergence of comparatistics cannot be understood without taking into account perennialist ideas of esoteric provenance, which hold that all religions have a common origin. In this perspective, it is not only the history of religious studies which must be revisited, but also the partial shaping of religious studies by these traditions, insofar as it saw itself as a counter-model to occult ideas.

Gate of the Gods Thurman C. Petty, Thurman C. Petty, Jr., 2008
Flushed with victory, the young Babylonian prince surveyed the battleground where his army had defeated the Egyptians. In the distance a division of elite soldiers rapidly pursued the fleeing survivors. He mourned the loss of so many brave warriors, but quickly focused on his quest to expand Babylons control of world

trade. Egypt was only one of the nations to be conquered; before long Lebanon, Phoenicia, Syria, and Judah would feel the edge of Babylonian swords. Soon he, Nebuchadnezzar, would be king, and all the world would pay homage to him

Glazed Brick Decoration in the Ancient Near East

Anja Fügert, Helen Gries, 2020-06-18 Glazed bricks applied as a new form of colourful and glossy architectural decor first started to appear in the early Iron Age on monumental buildings of the Ancient Near East. This volume provides an updated overview of the development of glazed bricks and scientific research on the topic.
