No Job for a Man John Ross Bowie, 2022-11-01 A darkly witty, deeply affecting, and finely crafted memoir by the Big Bang Theory and Speechless star and comedian, John Ross Bowie. From his earliest memories of watching Rhoda with his parents in their tiny Hell's Kitchen apartment, John knew that he wanted to be an actor. The strange, alternate world of television—where people always cracked the perfect joke, lived in glamorous Upper East Side buildings, and made up immediately after fighting—seemed far better than his own home life, with a mother and father on the brink of divorce and a neighborhood full of crumbling pre-war architecture and not-so-occasional muggings. And yet that other world also seems unattainable. Besides crippling stage fright (which would take him years to overcome) John's father, ever aloof and cynical, has instilled within him the notion that acting is “no job for a man.” His father would impart that while theater, film, and television should be consumed and even debated, to create was no way to make a living or support a family. Putting aside his acting dreams, John stumbles through his twenties. He tries his hand at teaching and other traditional occupations, but nothing feels nearly as fulfilling as playing with his fleetingly on-the-map punk band, Egghead. When he and his bandmates break up, John lands a joyless job copywriting for a consulting agency and slips into a dark depression. He loses weight, begins drinking heavily, and his relationships flounder. But everything changes when John discovers improv (and anti-depressants). As a part of New York's now-famous Upright Citizens Brigade, John not only explores his passion for acting and comedy—and begins to envision himself doing so professionally—he also meets his future wife and fellow actor, Jamie Denbo. *No Job for a Man* follows the couple as they relocate to Los Angeles and try to make it in the arts, meeting success and failure, wins and losses, despair and hope along the way. Though his father chronically refuses to acknowledge pride in his adult son's accomplishments, John comes to realize what being a man truly means.

Encyclopedia of Television Pilots Vincent Terrace, 2020-01-17 On November 27, 1937, NBC presented TV's first pilot film, Sherlock Holmes (then called an experiment). Thousands of pilot films (both unaired and televised) have been produced since. This updated and restyled book contains 2,470 alphabetically arranged pilot films broadcast from 1937 to 2019. Entries contain the concept, cast and character information, credits (producer, writer, director), dates, genre and network or cable affiliation. In addition to a complete performer's index, two appendices have been included: one detailing the pilot films that led to a series and a second that lists the programs that were spun off from one series into another. Never telecast pilot films can be

found in the companion volume, *The Encyclopedia of Unaired Television Pilots, 1945-2018*. Both volumes are the most complete and detailed sources for such information, a great deal of which is based on viewing the actual programs.

Man Made Joel Stein, 2012-05-15 The smudge looked suspiciously penis- like. The doctor confirmed: That's the baby's penis! which caused not celebration, but panic. Joel pictured having to go camping and fix a car and use a hammer and throw a football and watch professionals throw footballs and figure out whether to be sad or happy about the results of said football throwing. So begins his quest to confront his effete nature whether he likes it or not (he doesn't), by doing a twenty-four-hour shift with L.A. firefighters, going hunting, rebuilding a house, driving a Lamborghini, enduring three days of boot camp with the U.S. Army, day-trading with \$100,000, and going into the ring with UFC Hall of Famer Randy Couture. Seeking help from a panel of experts, including his manly father-in-law, Boy Scouts, former NFL star Warren Sapp, former MLB All-Star Shawn Green, Adam Carolla, and a pit bull named Hercules, he expects to learn that masculinity is defined not by the size of his muscles, but by the size of his heart (also, technically, a muscle). This is not at all what he learns.

This would come to be known as a miniseries. Although the term was not coined until 1954,

I Like to Watch Emily Nussbaum, 2020-06-09 From The New Yorker's fiercely original, Pulitzer Prize-winning culture critic, a provocative collection of new and previously published essays arguing that we are what we watch. "Emily Nussbaum is the perfect critic—smart, engaging, funny, generous, and insightful."—David Grann, author of *Killers of the Flower Moon* **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • Chicago Tribune • Esquire • Library Journal • Kirkus Reviews** From her creation of the "Approval Matrix" in New York magazine in 2004 to her Pulitzer Prize-winning columns for The New Yorker, Emily Nussbaum has argued for a new way of looking at TV. In this collection, including two never-before-published essays, Nussbaum writes about her passion for television, beginning with *Buffy the Vampire Slayer*, the show that set her on a fresh intellectual path. She explores the rise of the female screw-up, how fans warp the shows they love, the messy power of sexual violence on TV, and the year that jokes helped elect a reality-television president. There are three big profiles of television showrunners—Kenya Barris, Jenji Kohan, and Ryan Murphy—as well as examinations of the legacies of Norman Lear and Joan Rivers. The book also includes a major new essay written during the year of MeToo, wrestling with the question of what to do when the artist you love is a monster. More than a collection of reviews, the book makes a case for toppling the status anxiety that has long haunted the "idiot box," even as it transformed. Through it all, Nussbaum recounts her fervent search, over fifteen years, for a new kind of criticism, one that resists the false hierarchy that elevates one kind of culture (violent, dramatic, gritty) over another (joyful, funny, stylized). **I Like to Watch** traces her own struggle to punch through stifling notions of "prestige television," searching for a more expansive, more embracing vision of artistic ambition—one that acknowledges many types of beauty and complexity and opens to more varied voices. It's a book that celebrates television as television, even as each year warps the definition of just what that might mean. **FINALIST FOR THE PEN/DIAMONSTEIN-SPIELVOGEL AWARD FOR THE ART OF THE ESSAY** "This collection, including some powerful new work, proves once and for all that there's no better American critic of anything than Emily Nussbaum. But **I Like to Watch** turns out to be even greater than the sum of its brilliant parts—it's the most incisive, intimate, entertaining, authoritative guide to the shows of this golden television age."—Kurt Andersen, author of *Fantasyland* "Reading Emily Nussbaum makes us smarter not just about what we watch, but about how we live, what we love, and who we are. **I Like to Watch** is a joy."—Rebecca Traister
