**The Netflix Vision of Horror** Sotiris Petridis,2021-06-22 Since the emergence of on-demand streaming platforms, television as a storytelling medium has drastically changed. The lines between TV and cinema are blurred. Traditionally, television relied on narrative forms and genres that were highly formulaic, striving to tease the viewer onward with a series of cliffhangers while still maintaining viewer comprehension. Now, on platforms such as Netflix, the lack of commercial breaks and the practice of binge-watching have led to a new type of television flow that urges viewers to see and consume a series as a whole and not as a fragmented narrative. This book examines the structuring methods of 13 Netflix original horror series, including *Chilling Adventures of Sabrina*, *Stranger Things*, *Hemlock Grove*, *The Haunting of Hill House*, and *Santa Clarita Diet*. Although these shows use television as the medium of storytelling, they are structured according to the classical rules of film.

**Animals' Best Friends** Barbara J. King,2021-03-23 How do people who love animals translate that devotion into helping creatures who are not our pets? How do we express our care for animals when that means different things to omnivores and vegetarians-or, say, to hunters and non-hunters? Barbara J. King, a widely read expert on animal cognition and emotion, here guides readers through the difficult choices and deep rewards of turning empathy into action on behalf of animals. King discusses our relationship to animals in five different contexts: our homes, the wild, zoos, our food system, and research facilities such as biomedical laboratories. She offers a host of ways in which each of us can be better, and do better, for animals. Acting to improve animals' lives can, she shows, immeasurably enrich our own. True, there is also heartache and the risk of burnout from

endlessness of animal rescue the dilemmas that attend it. But King's focus is on the joys. She describes the happiness lift that she herself has experienced joining with other activists on behalf of animals destined for slaughter or confined in sub-standard zoos-and in rescuing dozens of cats, some of whom we meet in this book. This is a book for anyone who cares for animals and wishes to do more for them, whether it's learning to live peaceably with spiders in the home or join with others to rescue our more dramatically endangered animal friends--
