Jeepney Through the Town J. C. Bernal, 2016-08-01 Riding a jeepney through town, is exciting from the outside as much as what is happening from within. A teaching book for simple tagalog words, addressing the cultural importance of respecting elders and an activity in exploring personal creativity. Author's Notes: My simple goal for this book is to expose my children to a culture that should not be so distant to them. This is an attempt to get a conversation started. Growing up, I was never comfortable with the limited Tagalog that I knew. Lacking the confidence to pronounce the words correctly and complete an entire sentence in the language, discouraged me to keep trying. For those who can relate, we can't let this language and richness of its culture end with us. The book is not an academic reference. It is for our children to hear the language from us, in hopes that we can continue to hear it from them.

Little Yellow Jeepney Jocelyn Francisco, 2015-12-06 In an effort to inspire children to be curious about the world and to be globally aware, Little Yellow Jeepney helps children explore Manila, Philippines, without ever having to buy a plane ticket.

Reading the Parables of Jesus Inside a Jeepney Revelation
Velunta, 2017-11-11 If you've ever driven down the entire length of

Aurora Blvd in Cubao (or any regular in-city route, for that matter), you would know how Jeepneys bring a whole new meaning to the word disruptive. They snake through traffic at full throttle and screech to a full stop all while incessantly honking, cutting corners, and negotiating with passengers to scoot over and make room, so more passengers can board. Most private car owners (me included) will find jeepneys annoyingly frustrating. I am a church-worker, see, and I try to keep my cussing at a level minimum, but when I am sharing the road with jeepney drivers, all bets are off. I scream, and all hell breaks loose from my mouth. The object of irritation would be the Jeepney and its driver. The apparent lack of consideration for law-abiding motorists like me; the blatant disregard for traffic rules; and the thorough abandonment of all good manners and right conduct on the road. So it seems. You see, jeepneys ferry tired day-laborers, students, public school teachers, taho vendors, rank-and-file employees, fast food servers, strangers, and friends back to their homes after a very long day. The Jeepney (and its counterpart, the tricycle) is the only reliable means of transport in almost all major thoroughfares in the metro. Jeepney drivers are your salvation when it's monsoon season when you need to get from one end of the street to the other for just 8 Pesos. When you experience the jeepney by virtue of your road encounter from your airconditioned car with cherry bubble gum freshener and Bruno Mars on spotify, you will most likely hate jeepneys for everything that they are--annoying, frustrating, disrupting. But if you experience the jeepney as your everyday mode of transport, the rest of the bourgeois world is just one huge shitpile of things and people that make your life more difficult than it already is. Revelation Velunta's Jeepney Hermeneutics brings to the fore this contrast of locations. It surfaces a reading that, when done from inside

a jeepney, could breathe a whole new truth into the text--any text--but more profoundly the Parables attributed to Jesus of Nazareth. In the era of allegory and standard interpretations and proper driving conduct and road manners, Velunta's Jeepney Hermeneutics is a necessary disruption to the ways in which we, as faithful Bible readers and law-abiding motorists capable of doing no wrong, conduct and view ourselves. Reading the Parables of Jesus inside a Jeepney is good news for everyone in the jeepney which is roughly 70% of the general population in the Philippines. It is bad news for those in the remaining 25% and an absolute horror story for those in the uppermost 5%. And if truth is a matter of statistics, the truth that is preached by Velunta, is indeed truest. Those who would feel insulted by these truths will realize, by the end of this book, that they are exactly that which is wrong in this world and they should--quite honestly--repent before a Jeepney runs them over.

The Evolution from Horse to Automobile Imes Chiu, 2008 Little work has been done to explicate the motivational factors of agency, particularly in cases where an artifact initially deemed ineffective or superfluous becomes an everyday necessity, such as the automobile at the turn of the twentieth century. Farmers saw it as a devil wagon but later adopted it for use as an all-around device and power source. What makes a social group change its position about a particular artifact? How did the devil wagon overcome its notoriety to become a prosaic mainstream device? These questions direct the research in this book. While they may have been asked before, author Imes Chiu (PhD, Cornell University) brings a different and refreshing approach to the problem of newness. Preexisting practices and work routines used as explanatory devices have something interesting to say about diffusion strategies and localization measures. This innovative study

examines the conversion of users. To understand the motivating factors in mass adoption, the study focuses on perceptions and practices associated with horses and motorcars in three different settings during three different periods. All three cases begin with the motorcar in the periphery: all three end with it achieving ubiquity. This multiple-case design is used for the purpose of theoretical replication. Results in all three cases show that a contrived likeness to its competitor-the horse-contributed to the motorcar's success. The motorcar absorbed the technical, material, structural, and conceptual resources of the technology it displaced. This book, which includes several rare photographs, will be an important resource for those who wish to study the history of transportation and technology adaptation.

Pragmatics of Space Andreas H. Jucker,Heiko

Hausendorf,2022-09-20 This handbook provides a comprehensive overview of spatial configurations of language use and of language use in space. It consists of four parts. The first part covers the various practices of describing space through language, including spatial references in spoken interaction or in written texts, the description of motion events as well as the creation of imaginative spaces in storytelling. The second part surveys aspects of the spatial organization of face-to-face communication including not only spatial arrangements of small groups in interaction but also the spatial dimension of sign language and gestures. The third part is devoted to the communicative resources of constructed spaces and the ways in which these facilitate and shape communication. Part four, finally, is devoted to pragmatics across space and cultures, i.e. the ways in which

language use differs across language varieties, languages and cultures.
