

Jeffery Armored Car

Steven J. Zaloga

Early US Armor Steven J. Zaloga, 2018-02-22 The first American armoured cars began to emerge around the turn of the century, seeing their first military use in 1916 during the Punitive Expedition against Pancho Villa. When the United States entered World War I, the American Expeditionary Forces used some armoured cars in France, and American armoured cars were used by the French Army. The inter-war years saw considerable innovation and experimentation in armoured car design. Of the 1930s scout car designs, the M3A1 scout car was good enough to be produced in very large numbers in World War II, and was widely exported to many other armies via Lend-Lease. It also served as the basis for the late M2 and M3 armoured half-tracks. In this study, using detailed full colour plates and rigorous analysis, US armour expert Steven J. Zaloga chronicles the development of the US armoured car in the years leading up to World War II.

The American Military Armored Car Al J. Clemens, 1969

American Military Vehicles of World War I Albert Mroz, 2009-10-21 In World War I the American motor vehicle industry was tested by the sudden appearance of vast transport challenges. The nation's immense manufacturing capabilities and abundant natural resources combined with increased standardization and mass production to enable the industry to meet the military's needs. Motor vehicles and aircraft were quickly cemented as the most influential military tools of the early twentieth century. This book both describes the development and use of a wide range of specialized motor vehicles during World War I and analyzes how their advent indelibly altered modern warfare and transportation.

American Cars, Trucks and Motorcycles of World War I Albert Mroz, 2010-03-08 Even before American involvement in World War I, motor vehicle manufacturing in the United States was widespread and diverse, though the war served to expand the market rapidly. Hundreds of companies were building vehicles for military as well as civilian use during this time. From their beginnings until their demise, the histories of 225 companies that manufactured cars, trucks or motorcycles for the civilian market are provided, along with illustrations and specs of representative models from each company that existed in 1917 and 1918.

American Wheeled Armoured Fighting Vehicles Michael Green, 2016-10-31 Numerous wheeled armoured fighting vehicles have seen service in the US armed forces on and off for over 80 years. There have been various changes of policy and twice, after the Second World War and Vietnam, they went out of favour but their use is now well established. This well researched and superbly illustrated book describes all the different types and variants since the first M1 was ordered in 1931. The M8 armoured car was widely used during World War Two but it was not until Vietnam that further wheeled AFVs came into service, notably the M706 armoured car. After a lull the US Marine Corps adopted the Light Armoured Vehicle (LAV) in 1983. The US Army first used armoured Humvees in 1994 and variants remain in service (M1141 and M1116). Other types today include the Guardian (M1117) and the Army version of the LAV names the Stryker. To meet the operational requirements of Iraq and Afghanistan the Mine Resistant Ambush Protected vehicle (MRAP) was ordered in bulk from 2007.

Heist Jeff Diamant, 2015-08-04 The inspiration behind the major motion picture Masterminds starring Zach Galifianakis, Owen Wilson, Kristen Wiig, and Jason Sudeikis! The bizarre true story of the criminals behind the second-largest bank heist in American history. One night in a small North Carolina town, a down-on-his-luck guard at Loomis Fargo manages to steal \$17 million—literally more than one ton of cash. Despite being caught on camera wheeling the money from the vault to the getaway van, David Ghannt makes off to Mexico before the FBI can blink. There's just one hitch: Ghannt has entrusted the money to an oddball crew of accomplices who had wooed him into committing this massive theft in the first place—and who, he soon learns, are trying to take him out. Now one of the most wanted men in America with the FBI hot on his heels, Ghannt must figure out how to get his money, get away from a hit man, and get even. In this outrageously entertaining book, Jeff Diamant, the Charlotte Observer's lead reporter on the case, offers the definitive inside account of this astonishing true story that has captivated American audiences on the news and now on the big screen in the major motion picture, Masterminds.

U.S. Army Ford M8 and M20 Armored Cars Didier Andres, 2023-11-30 A fully illustrated examination of the M8 and M20 armored cars which served the US Army throughout World War II. The M8 and M20 served in Europe and the Pacific during WWII. Author has used the archived notes of the officer tasked with coordinating the project to develop and deliver the M8, explaining why it took two years to deliver it to the Army. Over 200 photographs make this a great reference for any military modeler or vehicle enthusiast.

Kenosha's Jeffery & Rambler Automobiles Patrick Foster, 2018-04-23 The Thomas B. Jeffery Company existed as an automobile maker from 1902 to 1916 and in that short span created a corporate foundation that would lead to successor firms Nash Motors, Nash-Kelvinator, American Motors, and Jeep. Thomas Jeffery named his automobile the Rambler, after the popular bicycles he manufactured prior to his car venture. The Rambler was a car of outstanding quality and reliability. From its first showing in Chicago in 1902, the Rambler stood out as an unusual value for the money. That reputation carried over when Tom Jeffery's son and successor Charles decided to change the car's name to Jeffery in honor of his late father. In 1916, Charles Nash, then president of General Motors, resigned his position and purchased the Thomas B. Jeffery firm, renaming it the Nash Motors Company. Before long, an all-new Nash car was introduced, and the Jeffery brand faded away. Nash went on to become one of the largest of the American independent automakers.

Heist! Jeff Diamant, 2005 The 1997 Loomis Fargo theft in Charlotte, NC was the second-largest theft in U.S. history. Currently a staff writer for The Star-Ledger in New Jersey, Diamant covered the crime for the Charlotte Observer. Here, Diamant combines information from interviews, trial testimony, field trips, FBI documents, and court papers to provide a full account of this notoriously bungled robbery, the investigation of the crime and capture of the criminals, and the trials that followed. The Hunt for Pancho Villa Alejandro de Quesada, 2012-03-20 On March 9, 1916, troops under the command of Pancho Villa attacked Columbus, New Mexico and its local detachment of the US 13th Cavalry Regiment, killing 18 people and burning the town. Six days later, on orders from President Woodrow Wilson, General John J. "Black Jack"

Pershing led an expeditionary force of 4,800 men into Mexico to capture Villa. What followed was a series of skirmishes, battles, and chases through the wild and uncharted Mexican countryside. While the Americans failed in their ultimate purpose of catching Villa, they did kill two of his top lieutenants. This book charts the progress of the entire enterprise, covering the dusty marches and the bitter gunfights in the streets of small border towns, analyzing the successes and failures of this unique military expedition.
