Kanye West Owes Me \$300 Jensen Karp,2017-05-02 In this “triumphantly funny” (AV Club) memoir, comedian Jensen Karp tells the story of how, as a Jewish kid from the L.A. suburbs, he became a rap battle legend—and then almost became a star. “The funniest person I follow on Twitter finally got smart and wrote about his unlikely—and hilarious—odyssey as teenage rapper Hot Karl.”—Kevin Smith, New York Times bestselling author of *Tough Sh*t* When twelve-year old Jensen Karp got his first taste of rapping for crowds at his friend’s bar mitzvah in 1991, little did he know that he was taking his first step on a journey that would end with a failed million-dollar recording and publishing deal with Interscope Records when he was only nineteen. Now, in *Kanye West Owes Me \$300*, Karp finally tells the true story of his wild ride as “Hot Karl,” the most famous white rapper you’ve never heard of. On his way to (almost) celebrity, Jensen shares his childhood run-ins with rock-listening, Southern California classmates, who tell him that “rap is for black people,” and then recounts his record-breaking rap battling streak on popular radio contest “The Roll Call”—a run that caught the eye of a music industry hungry for new rap voices in the early ’00s. He also introduces his rap partner, Rickye, who constitutes the second half of their group XTra Large; his supportive mom, who performs with him onstage; and the soon-to-be-household-name artists he records with, including Redman, Fabolous, Mya, and will.i.am. Finally, he reveals why his album never saw the light of day (two words: Slim Shady), the downward spiral he suffered after, and what he found instead of rap glory. Full of rollicking stories from his close brush with fame, Karp’s hilarious memoir is the ultimate fish-out-of-water story about a guy who follows an unlikely passion—trying to crack the rap game—despite what everyone else says. It’s 30 Rock for the rap set; 8 Mile for the suburbs; and quite the journey for a white kid from the valley.

Paddle Your Own Canoe Nick Offerman,2013-10-01 Parks and Recreation actor and Making It co-host Nick Offerman shares his humorous fulminations on life, manliness, meat, and much more in this New York Times bestseller. Growing a perfect moustache, grilling red meat, wooing a woman—who better to deliver this tutelage than the always charming, always manly Nick Offerman, best known as Parks and Recreation’s Ron Swanson? Combining his trademark comic voice and very real expertise in woodworking—he runs his own woodshop—Paddle Your Own Canoe features tales from Offerman’s childhood in small-town Minooka, Illinois—“I grew up literally in the middle of a cornfield”—to his theater days in Chicago, beginnings as a carpenter/actor and the hilarious and magnificent seduction of his now-wife Megan Mullally. It also offers hard-bitten battle strategies in the arenas of manliness, love, style, religion, woodworking, and outdoor recreation, among many other savory entrees. A mix of amusing anecdotes, opinionated lessons and rants, sprinkled with offbeat gaiety, Paddle Your Own Canoe will not only tickle readers pink but may also rouse them to put down their smart phones, study a few sycamore leaves, and maybe even hand craft (and paddle) their own canoes.

Processual Perspectives on the Co-Production Turn in Public Sector Organizations Thomassen, Anja Overgaard,Jensen, Julie Borup,2020-12-11 Existing research understands co-production as leading to shifts in roles of the public sector institutions and their staffs. The shift is seen in the way that a discursive use of the term service provision with embedded logics encompassing fiscal accountability, performance measurement, efficiency, and process regulation has changed towards discourses that embrace collaboration between the public sector front staff and the citizens, with the aim of developing legitimate and effective welfare services that are co-produced by means of active participation and distributed decision making. However, this change requires new approaches to the way in which the implementation of new practices and tools is executed in practice as studied and researched, and how the new practices and tools are understood and evaluated in organizations. *Processual Perspectives on the Co-Production Turn in Public Sector Organizations* is an essential reference book that examines, unfolds, and develops approaches to co-production and implementation as dynamic, processual, collaborative, sensemaking, and as requiring and resulting in capacity building and learning. Moreover, the book examines new approaches to engage citizens and public sector actors in collaborative and co-productive processes, especially with concern for new goals pertaining to sustainability, social equity, democratic legitimacy, etc. Covering topics that include knowledge management and collective leadership, the book presents perspectives on capacity building, learning, change, and evaluation in organizations and current research in different areas of the public sector. It is intended for public sector

administrators and managers investigating the relevancy, approaches, and methods in co-production. Furthermore, it targets civil actors and welfare service users, leaders and managers of public organizations, researchers, academicians, and students in programs that include social welfare development, public administration, political science, and organizational development.

The Case for Marriage Linda Waite,Maggie Gallagher,2002-03-05 A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. The Case for Marriage is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced- physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. The Case for Marriage combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. "A compelling defense of a sacred union. The Case for Marriage is well written and well argued, empirically rigorous and learned, practical and commonsensical." -- William J. Bennett, author of *The Book of Virtues* "Makes the absolutely critical point that marriage has been misrepresented and misunderstood." -- The Wall Street Journal www.broadwaybooks.com

General Recursion Theory Jens E. Fenstad,2017-03-02 Since their inception, the Perspectives in Logic and Lecture Notes in Logic series have published seminal works by leading logicians. Many of the original books in the series have been unavailable for years, but they are now in print once again. In this volume, the tenth publication in the Perspectives in Logic series, Jens E. Fenstad takes an axiomatic approach to present a unified and coherent account of the many and various parts of general recursion theory. The main core of the book gives an account of the general theory of computations. The author then moves on to show how computation theories connect with and unify other parts of general recursion theory. Some mathematical maturity is required of the reader, who is assumed to have some acquaintance with recursion theory. This book is ideal for a second course in the subject.

War Against the Mafia Don Pendleton,2014-12-16 The first book in the classic vigilante action series from a “writer who spawned a genre” (The New York Times). Overseas, Mack Bolan was dubbed “Sgt. Mercy” for the compassion he showed the innocent. On the home front, they’re calling him the Executioner for what he’s doing to the guilty. In the jungles of Southeast Asia, American sniper Mack Bolan honed his skills. After twelve years, with ninety-five confirmed hits, he returns home to Massachusetts. But it’s not to reunite with his family, it’s to bury them—victims in a mass murder/suicide. Even though Bolan’s own father pulled the trigger, he knows the old man was no killer. He was driven to madness by Mafia thugs who have turned his idyllic hometown into a new kind of war zone. Duty calls . . . Introducing an action hero “who would make Jack Reacher think twice,” this is the first book in the iconic series of vigilante justice that has become a publishing phenomenon (Empireonline.com). With more than two hundred million Executioner books sold since its debut, the series continues to stimulate. Gerry Conway, cocreator of Marvel Comics’ The Punisher, credits the Executioner as “my inspiration . . . that’s what gave me the idea for the lone, slightly psychotic avenger.” The series is also now in development as a major motion picture. *War Against the Mafia* is the 1st book in the Executioner series, but you may enjoy reading the series in any order.

Natural Resources as Capital Larry Karp,2017-10-27 An introduction to the concepts and tools of natural resource economics, including dynamic models, market failures, and institutional remedies. This introduction to natural resource economics treats resources as a type of capital; their management is an investment problem requiring forward-looking behavior within a dynamic setting. Market failures are widespread, often associated with incomplete or nonexistent property rights, complicated by policy failures. The book covers standard resource economics topics, including both the Hotelling model for nonrenewable resources and models for renewable resources. The book also includes some topics in environmental economics that overlap with natural resource economics, including climate change. The text emphasizes skills and intuition needed to think about dynamic models and institutional remedies in the presence of both market and policy failures. It presents the nuts and bolts of resource economics as applied to nonrenewable resources, including the two-period model, stock-dependent costs, and resource scarcity. The chapters on renewable resources cover such topics as property rights as an alternative to regulation, the growth function, steady states, and maximum sustainable yield, using fisheries as a concrete setting. Other, less standard, topics covered include microeconomic issues such as arbitrage and the use of discounting; policy problems including the “Green Paradox”; foundations for policy analysis when market failures are important; and taxation. Appendixes offer reviews of the relevant mathematics. The book is suitable for use by upper-level undergraduates or, with the appendixes, masters-level courses.

Two Dead Van Jensen,Nate Powell,2019-11-19 From the acclaimed DC Comics writer and the artist of the #1 New York Times bestselling and National Book Award-winning illustrated trilogy *March* comes a stunning crime noir graphic novel exploring the intertwining threads of crime, conspiracy, racism, and insanity in the post-World War II Deep South. After World War II, tensions rise in a Southern city ruled by organized crime, touching countless residents as they struggle to make sense of the new world. A sudden act of violence sets off a series of bloody events between the police and mafia as they lash out against one another. As the violence worsens, desperation grows to stop it, by any means necessary. Told in multiple perspectives—from a seemingly untouchable mafia don, to a gun-happy seasoned detective succumbing to the depths of his schizophrenia, to a newly minted police lieutenant haunted by his recent service in the war, and two African-American brothers, one mired in corruption and the other leading a local militia in an effort to see that justice is served—*Two Dead* is at once a white-knuckled and unputdownable thriller, a roman à clef inspired by true events, and a book about post-traumatic stress disorder and the underlying social traumas of how war and segregation affect their survivors on all fronts.

You Had Me at Pet-Nat Rachel Signer,2021-10-19 From the publisher of *Pipette Magazine*, discover a natural wine-soaked memoir about finding your passion—and falling in love. It was Rachel Signer's dream to be that girl: the one smoking hand-rolled cigarettes out the windows of her 19th-century Parisian studio apartment, wearing second-hand Isabel Marant jeans and sipping a glass of Beaujolais redolent of crushed roses with a touch of horse mane. Instead she was an under-appreciated freelance journalist and waitress in New York City, frustrated at always being broke and completely miserable in love. When she tastes her first pétillant-naturel (pét-nat for short), a type of natural wine made with no additives or chemicals, it sets her on a journey of self-discovery, both deeply personal and professional, that leads her to Paris, Italy, Spain, Georgia, and finally deep into the wilds of South Australia and which forces her, in the face of her Wildman, to ask herself the hard question: can she really handle the unconventional life she claims she wants? Have you ever been sidetracked by something that turned into a career path? Did you ever think you were looking for a certain kind of romantic partner, but fell in love with someone wild, passionate and with a completely different life? For Signer, the discovery of natural wine became an introduction to a larger ethos and philosophy that she had long craved: one rooted in egalitarianism, diversity, organics, environmental concerns, and ancient traditions. In *You Had Me at Pét-Nat*, as Signer begins to truly understand these revolutionary wine producers upending the industry, their deep commitment to making their wine with integrity and with as little intervention as possible, she is smacked with the realization that unless she faces, head-on, her own issues with commitment, she will not be able to live a life that is as freewheeling, unpredictable, and singular as the wine she loves.

Wake Up, I'm Fat! Camryn Manheim,2000-05-09 In this New York Times-bestselling inspirational memoir, Camryn Manheim, Emmy Award-winning costar of *The Practice*, chronicles her journey from a self-hating, overweight teenager, who desperately wanted to fit in, to a self-loving, fat activist who is proud to be a misfit. *Wake Up, I'm Fat!* shares her intelligent, candid, poignant, and often hilarious stories of being fat in a society obsessed with being thin. Camryn takes us from her days as a motorcycle-riding hippie in Santa Cruz to her enrollment at New York University's prestigious school of drama--where Pulitzer Prize-winning playwright Tony Kushner broke the unspoken theater rules of size by casting her in the role of the ingenue--and finally to Hollywood, where she dispelled the fallacy that large women can't be portrayed as sensual, sophisticated, and confident. Camryn's endearing honesty, sass, and razor-sharp wit will appeal to any reader who has ever felt like an outcast or yearned to make peace with their body.
