Dictionary of Jamaican English Frederic G. Cassidy, Robert Brock Le Page, 2002 The method and plan of this dictionary of Jamaican English are basically the same as those of the Oxford English Dictionary, but oral sources have been extensively tapped in addition to detailed coverage of literature published in or about Jamaica since 1655. It contains information about the Caribbean and its dialects, and about Creole languages and general linguistic processes. Entries give the pronunciation, part-of-speech and usage of labels, spelling variants, etymologies and dated citations, as well as definitions. Systematic indexing indicates the extent to which the lexis is shared with other Caribbean countries.

The Silent Muse Asta Nielsen, 2022 The memoirs of the pioneering Danish silent film star Asta Nielsen in English translation for the first time, with scholarly introduction and annotations. From her explosive screen debut in *The Abyss* (1910) through her scandalous fourth marriage at age 89, the Danish actress Asta Nielsen (1881-1972) was a darling of fans and the press, a global star without parallel in the silent era. So famous in Germany that she was known simply as *die Asta*, during her two decades of active filmmaking Nielsen also published about her career, her impoverished childhood, her breakthrough into film, the price of fame, and her interactions with the German film industry. In 1938 Nielsen returned to Denmark, where she published her memoirs in two volumes in 1945-46, expanding on her earlier writings. This carefully crafted, colorful text offers eyewitness insights into early European film, Nielsen's star persona, and the challenges of stardom in Germany in the tumultuous period before World War II. Yet although they have appeared in multiple Danish, German, and Russian editions, the memoirs have never been published in English until now. Nielsen's work has enduring value for transnational film history, and the recent growth of interest in women's contributions to early film makes the time ripe for this translation. Julie K. Allen accompanies the text with a scholarly introduction and annotations, and a foreword by leading early film scholar Jennifer M. Bean frames the volume.

But Kyra's fierceness and willpower sheds light on my mission. She drives the darkness of my world away. The answers to the Others' goals lie in her past. For Kyra, I will risk going against Death's wishes. For her... I will battle the past and the future itself.

Zimbabwean Transitions Mbongeni Z. Malaba, Geoffrey V. Davis, 2007 This collection of essays on Zimbabwean literature brings together studies of both Rhodesian and Zimbabwean literature, spanning different languages and genres. It charts the at times painful process of the evolution of Rhodesian/ Zimbabwean identities that was shaped by pre-colonial, colonial and post-colonial realities. The hybrid nature of the society emerges as different writers endeavour to make sense of their world. Two essays focus on the literature of the white settler. The first distils the essence of white settlers' alienation from the Africa they purport to civilize, revealing the delusional fixations of the racist mindset that permeates the discourse of the white man's burden in imperial narratives. The second takes up the theme of alienation found in settler discourse, showing how the collapse of the white supremacists' dream when southern African countries gained independence left many settlers caught up in a profound identity crisis. Four essays are devoted to Ndebele writing. They focus on the praise poetry composed for kings Mzilikazi and Lobengula; the preponderance of historical themes in Ndebele literature; the dilemma that lies at the heart of the modern Ndebele identity; and the fossilized views on gender roles found in the works of leading Ndebele novelists, both female and male. The essays on English-language writing chart the predominantly negative view of women found in the fiction of Stanley Nyamfukudza, assess the destabilization of masculine identities in post-colonial Zimbabwe, evaluate the complex vision of life and reality in Charles Mungoshi's short stories as exemplified in the tragic isolation of many of his protagonists, and explore Dambudzo Marechera's obsession with isolated, threatened individuals in his hitherto generally neglected dramas. The development of Shona writing is surveyed in two articles: the first traces its development from its origins as a colonial educational tool to the more critical works of the post-1980 independence phase; the second turns the spotlight on written drama from 1968 when plays seemed divorced from the everyday realities of people's lives to more recent work which engages with corruption and the perversion of the moral order. The volume also includes an illuminating interview with Irene Staunton, the former publisher of Baobab Books and now of Weaver Press.

Icons of Danish Modernity Julie K. Allen, 2013-07-15 Julie Allen utilizes the lives and friendship of the Danish literary critic George Brandes (1842-1927) and the silent film star Asta Nielsen (1881-1972) to explore questions of culture and national identity in early twentieth-century Denmark. Danish culture and politics were influenced in this period by the country's deeply ambivalent relationship with Germany. Brandes and Nielsen, both of whom lived and worked in Germany for significant periods of time, were seen as dangerously cosmopolitan by the Danish public, even while they served as international cultural ambassadors for the very society that rejected them during their lifetimes. Allen argues that they were the prototypical representatives of a socially liberal and culturally

modern Danishness (Danskhed) that Denmark itself only gradually (and later) grew into. This lively study brings its central characters to life while offering an original, thought provoking analysis of the origins and permutations of Danish modernism and Danish national identity--issues that continue to be significant in today's multi-ethnic Denmark. Icons of Danish Modernity is a book about the uneasy waves that arise when celebrities take on national symbolism, and the beginnings of this formula in the early twentieth century.
