Jinjo and Peko Claudia Carroll, 2018-08-23 Jinjo and Peko lived an uneventful life with Claudia and family before their home was sold and they moved into a new home in a different suburb. From then on their lives became a series of adventures and escapades and in time they became very well known to many people. The stories related in this book are just a few of their adventures. The first story, *The New Home*, describes their walk, which was up and down hills and approximately 5 kilometres. How did they know how to return to their old home?

The Political Thought of Mori Arinori Alistair Swale, 2013-10-23 This new study of the Meiji Government's controversial Education Minister and thinker, Mori Arinori, seeks to complement Ivan P. Hall's excellent earlier biography (1973) by providing an alternative interpretation of the man and his mission, namely that he is 'overwhelmingly closer to the social evolutionist's view of social change', with a considerable debt to the writings of Spencer rather than the Utilitarian philosophy of J. S. Mill. In other words, Mori was able to develop a workable philosophy of government and administration in line with the pragmatic needs of Japanese society. The book, therefore, will contribute to a radical rethink of Japanese perceptions of the Meiji reforms seen in their own terms.

Hip Hop around the World [2 volumes] Melissa Ursula Dawn Goldsmith, Anthony J. Fonseca, 2018-12-01 This set covers all aspects of international hip hop as expressed through music, art, fashion, dance, and political activity. Hip hop music has gone from being a marginalized genre in the late 1980s to the predominant style of music in America, the UK, Nigeria, South Africa, and other countries around the world. *Hip Hop around the World* includes more than 450 entries on global hip hop culture as it includes music, art, fashion, dance, social and cultural movements, organizations, and styles of hip hop. Virtually every country is represented in the text. Most of the entries focus on music styles and notable musicians and are unique in that they discuss the sound of various hip hop styles and musical artists' lyrical content, vocal delivery, vocal ranges, and more. Many additional entries deal with dance styles, such as breakdancing or b-boying/b-girling, popping/locking, clowning, and krumping, and cultural movements, such as black nationalism, Nation of Islam, Five Percent Nation, and Universal Zulu Nation. Country entries take into account politics, history, language, authenticity, and personal and community identification. Special care is taken to draw relationships between people and entities such as mentor-apprentice, producer-musician, and more.

Mapping Meanings Michael Lackner, Natascha Vittinghoff, 2004-06-01 *Mapping Meanings*, a broad-ranged introduction to China's intellectual entry into the family of nations, guides the reader into the late Qing encounter with Western, at the same time connecting convincingly to the broader question of the mobility of knowledge.

Timbuktu and the Songhay Empire John Hunwick, 2021-10-25 The principal text translated in this volume is the *Ta'rīkh Al-sūdān* of the seventeenth-century

Timbuktu scholar 'Abd al-Raḥmān al-Sa'dī. Thirty chapters are included, dealing with the history of Timbuktu and Jenne, their scholars, and the political history of the Songhay empire from the reign of Sunni 'Alī (1464-1492) through Moroccan conquest of Songhay in 1591 and down to the year 1613 when the Pashalik of Timbuktu became an autonomous ruling institution in the Middle Niger region. The year 1613 also marked the effective end of Songhay resistance. The other contemporary documents included are a new English translation of Leo Africanus's description of West Africa, some letters relating to Sa'dīan diplomacy and conquests in the Sahara and Sahel, al-Ifrānī's account of Sa'dīan conquest of Songhay, and an account of this expedition by an anonymous Spaniard. This publication has also been published in paperback, please click here for details.

African Dominion Michael Gomez, 2019-08-27 In a radically new account of the importance of early Africa in global history, Gomez traces how Islam's growth in West Africa, along with intensifying commerce that included slaves, resulted in a series of political experiments unique to the region, culminating in the rise of empire.

A Papuan Plutocracy John Liep, 2009-08-31 This book of classic scope is a monograph on a Melanesian society, an exploration of ranked exchange and a bold critique of anthropological exchange theory. John Liep unravels the complex society and exchange system on Rossel Island east of New Guinea. At centre stage is the famous 'Rossel Island money', a hierarchy of more than twenty classes of sea shells displayed in payment rituals such as bridewealth and pig feasts. High-ranking shells are monopolized by big men who control exchange and dominate social life on the island. Theories of reciprocity and gift exchange with their built-in utopian assumption of social equality, Liep finds, cannot account for a system of ranked exchange. Instead, exchange is unequal and money an instrument of distinction and power. Liep argues that ranked exchange has remained undiscovered as a general phenomenon. Still found in some Pacific societies it was formerly widespread in Oceania and beyond. The book will be essential to students of indigenous currencies and exchange theory and of interest to economic anthropologists and Oceanists.

The House on Lemon Street Mark Rawitsch, 2012-06-15 In 1915, Jukichi and Ken Harada purchased a house on Lemon Street in Riverside, California. Close to their restaurant, church, and children's school, the house should have been a safe and healthy family home. Before the purchase, white neighbors objected because of the Haradas' Japanese ancestry, and the California Alien Land Law denied them real-estate ownership because they were not citizens. To bypass the law Mr. Harada bought the house in the names of his three youngest children, who were American-born citizens. Neighbors protested again, and the first Japanese American court test of the California Alien Land Law of 1913-*The People of California v. Jukichi Harada*-was the result. Bringing this little-known story to light, *The House on Lemon Street* details the Haradas' decision to fight for the American dream. Chronicling their experiences from their immigration to the United States through their legal battle over their home, their incarceration during World War II, and their lives after the war, this book tells the story of the family's participation in the struggle for human and civil rights, social justice, property and legal rights, and fair treatment of immigrants in the United States. The Harada family's quest for acceptance illuminates the deep underpinnings of anti-Asian animus, which set the stage for Executive Order 9066, and recognizes fundamental elements of our nation's anti-immigrant history that continue to shape the American story. It will be worthwhile for anyone interested in the Japanese American experience in the twentieth century, immigration history, public history, and law. This publication was made possible with the support of Naomi, Kathleen, Ken, and Paul Harada, who donated funds in memory of their father, Harold Shigetaka Harada, honoring his quest for justice and civil rights. Additional support for this publication was also provided, in part, by UCLA's Aratani Endowed Chair as well as Wallace T. Kido, Joel B. Klein, Elizabeth A. Uno,

and Rosalind K. Uno.

Educational Progressivism, Cultural Encounters and Reform in Japan Yoko Yamasaki, Hiroyuki Kuno, 2017-06-26 Educational Progressivism, Cultural Encounters and Reform in Japan provides a critical analysis of educational initiatives, progressive ideas and developments in curriculum and pedagogy in Japan, from 1900 to the present day. Drawing on evidence of both cultural encounters and internal drivers for progressivism and reform, this book re-evaluates the history of Japanese education to help inform ongoing and future debates about education policy and practice worldwide. With contributions from Japanese scholars specialising in the history and philosophy of education and curriculum studies, chapters consider key collaborative improvements to teacher education, as well as group learning, 'life education', the creative arts and writing, and education for girls and women. The book examines Western influences, including John Dewey, Carleton Washburne and A. S. Neill, as well as Japan's own progressive exports, such as holistic Zenjin education, Children's Villages and Lesson Study, highlighting cultural encounters and progressive initiatives at both transnational and national levels. The chapters reflect on historical and political background, motivations, influences and the impact of Japanese progressive education. They also stimulate, through argument and critical discussion, a continuing discourse concerning principles, policy, politics and practices of education in an increasingly globalised society. A rigorous and critical study of the history of progressive education in Japan, this book will interest an international readership of academics, researchers and postgraduate students in the fields of progressive education, comparative education, social and cultural history, history of education, Japanese studies, curriculum studies, and the history of childhood.

Japanese Moral Education Past and Present Yoshimitsu Khan, 1997 This book investigates the history and development of Japanese moral education, and analyzes and compares current moral education with the concepts of the Imperial Rescript on Education (1890) and the shushin moral education of prewar Japan. The Rescript contains Confucian and Shinto precepts and was to become the codification of the moral standards of the Japanese way of life in pre-surrender Japan. Despite the attempts of the Japanese education system to embrace democratic principles, postwar dotoku moral education has been essentially the same as that of the prewar system. The author concludes that Confucian ethics is still the engine of Japanese social cohesion and dynamics, and predicts that it will continue to be so for generations to come. Japan needs to find a way to converge the long-held Confucian ideology with more democratic ideals and fairness to all people through moral education.

Timbuktu and the Songhay Empire John O. Hunwick, 2003-01-01 The principal text translated in this volume is the Ta'rikh Al-sudan of the 17th-century Timbuktu scholar, 'Abd al-Rahman al-Sadi. The other documents include an English translation of Leo Africanus's description of West Africa and some letters relating to Sa'dian diplomacy.
