Wind Bands and Cultural Identity in Japanese Schools David G. Hebert, 2011-10-20 This well researched volume tells the story of music education in Japan and of the wind band contest organized by the All-Japan Band Association. Identified here for the first time as the world's largest musical competition, it attracts 14,000 bands and well over 500,000 competitors. The book's insightful contribution to our understanding of both music and education chronicles music learning in Japanese schools and communities. It examines the contest from a range of perspectives, including those of policy makers, adjudicators, conductors and young musicians. The book is an illuminating window on the world of Japanese wind bands, a unique hybrid tradition that comingles contemporary western idioms with traditional Japanese influences. In addition to its social history of Japanese school music programs, it shows how participation in Japanese school bands contributes to students' sense of identity, and sheds new light on the process of learning to play European orchestral instruments.

Resonances of Chindon-ya Marié Abe, 2018-01-16 In this first book-length study of chindon-ya, Marié Abe investigates the intersection of sound, public space, and sociality in contemporary Japan. Chindon-ya, dating back to the 1840s, are ostentatiously costumed street musicians who publicize a business by parading through neighborhood streets. Historically not considered music, but part of the everyday soundscape, this vernacular performing art provides a window into shifting notions of musical labor, the politics of everyday listening and sounding, and street music at social protest in Japan. Against the background of long-term economic downturn, growing social precarity, and the visually and sonically saturated urban streets of Japan, this book examines how this seemingly outdated means of advertisement has recently gained traction as an aesthetic, economic, and political practice after decades of inactivity. *Resonances of Chindon-ya* challenges Western conceptions of listening that have normalized the way we think about the relationship between sound, space, and listening subjects, and advances a growing body of interdisciplinary scholarship that examines the ways social fragmentation is experienced and negotiated in post-industrial societies.

Sword of the Demon Hunter: Kijin Gentosho (Light Novel) Vol. 1 Motoo Nakanishi, 2022-11-24 For generations, a shrine has stood in the mountain village of Kadono, and for each generation the shrine has had an Itsukihime--its shrine maiden--and the maiden has had her guardian. During the Edo period, a young man named Jinta protects the town and the Itsukihime. When he confronts a strange demon in the nearby forest, it tells him that in the distant future a Demon God will threaten all people, everywhere, and it claims that the Demon God's rise to power springs from this very time and place, in the village of Kadono. So begins the centuries-spanning journey of a man tainted by demons, hunting through time to seek justice for what he's lost, and to find a reason to keep on fighting.

The Internet and Rural Development in China Jinqiu Zhao, 2008 Despite its low penetration in China's vast rural areas, the Internet is generally perceived as a new engine for rural empowerment. By examining five Internet application initiatives in rural China, this book offers a unique view of the diffusion and usage of the Internet and its implications on the lives of rural people. Placed in the political, socioeconomic and infrastructure contexts of rural China, the book departs from the classical diffusion of innovations model and extends the existing knowledge on the adoption and usage of the Internet by rural people. In addition to testing the applicability of the diffusion of innovations theory to the diffusion of Information and Communications Technologies in the rural areas today, the study provides rich empirical evidence regarding the actual impact of the Internet on the livelihood of rural people. It also shows some innovative uses of the Internet in rural development.

Australian Languages Claire Bowern, Harold Koch, 2004-03-18 This book addresses controversial issues in the application of the comparative method to the languages of Australia which have recently come to international prominence. Are these languages 'different' in ways that challenge the fundamental assumptions of historical linguistics? Can subgrouping be successfully undertaken using the Comparative Method? Is the genetic construct of a far-flung 'Pama-Nyungan' language family supportable by classic methods of reconstruction? Contrary to increasingly established views of the Australian scene, this book makes a major contribution to the demonstration that traditional methods can indeed be applied to these languages. These studies, introduced by chapters on subgrouping methodology and the history of Australian linguistic classification, rigorously apply the comparative method to establishing subgroups among Australian languages and justifying the phonology of Proto-Pama-Nyungan. Individual chapters can profitably be read either for their contribution to Australian linguistic prehistory or as case studies in the application of the comparative method.

Thottuva Tales of an Ox, an Elephant and a River Johny Chengalan, 2021-12-13 Buffaloes and oxen normally do not lock horns. What would be the outcome if they do? The contest would be a short-lived affair resulting in the victory of the stronger buffalo. This popular notion is challenged by a feeble male calf on the verge of death. Under the loving care of a cattle-loving household, the calf grows into a beautiful and strong ox. He takes on several hitherto unbeaten heroes to become the undisputed champion among the oxen of the locality. He then dares to challenge the supremacy of a buffalo. Will the ox emerge victorious in this contest? Ayyappankutty, a tame elephant gone berserk, becomes a threat to life and property in the hamlet of Thottuva. He wreaks havoc on the south bank of the river Periyar in Kerala for nearly a week. The Travancore Maharaja deposes his sharp-shooting police officer to account for the menacing beast. A diminutive mahout has a different plan. Both converge in Thottuva on the same day. Will Ayyappankutty fall to the bullets of Veeran Mudaliar? Will the courageous mahout bring him into submission and save his life? River Periyar's magnificent sandbank in Thottuva is ravaged by the sand mining unions with the government agencies remaining mute spectators. Rivalry among the unions affects normal life. While the riverbed sinks by several metres due to both lawful and unlawful sand mining, the vice of liquor addiction overpowers several young men, disrupting their family life. The protagonist, Jivan, a silent and innocent teetotaler, gradually takes to drinking with very dangerous consequences!

Sand Dunes of the Northern Hemisphere Qi Lu, Mahesh K. Gaur, Victor R. Squires, 2023-03-10 This book in two volumes, and with a foreword by the renowned Professor M.A.J. Williams, draws on evidence from coastal and inland regions, including desert dunes, wind-blown dust, river and lake sediments, glacial moraines, plant and animal fossils, isotope geochemistry, soils and prehistoric archaeology to better understand the genesis and development of dunes systems in selected northern hemisphere sand dunes from Asia, Africa and the Middle East regions. The collection of research papers and case studies that are presented in this book provide the reader with a wealth of information about the distribution and types of sand dunes and an insight into the complexity of sand dune formation, migration and management. Research in many countries across the northern hemisphere shows that dunes, whether coastal or inland, are under pressure around the world. Much of the pressure comes from human activities, and the anthropogenic disturbance, when coupled with global warming and alterations to the amount, frequency and temporal distribution of precipitation could lead to more serious management challenges in the future. There is much that we still need to find out about the origin, genesis and development of sand dunes so that they can be managed better. The difficult and complex questions being repeatedly raised can be answered only by interdisciplinary endeavours. Geomorphologists, geologists, palaeontologists, climatologists, ecologists, and others, can work together on research projects that better define the origin, evolution and development of dunes, both inland and along the coasts. Many chapters in this book attempt to reconstruct past climatic changes in

deserts and their margins at a variety of scales in space and time in the expectation that such information might assist in preparing us for future global warming and drying.

Asking Myself, Answering Myself Shinpei Kusano, 1984 Born in 1903, Shimpei Kusano has long been among Japan's best-loved poets. *Asking Myself/ Answering Myself* introduces him to a wide American audience, with selections from over half a century of his work, in translation by Cid Corman. There is scarcely a child (or an adult) in Japan unfamiliar with Kusano's frogs. Their trills, transcribed and fancifully translated by the poet into frog soliloquies, dirges (Lululu's Funeral to be accompanied by Chopin's Funeral March), and celebrations are, says Corman, figures of nature--in its largest sense--and of absolute innocence They mock our pretensions but share them too--gently. Witty, lyrical, vigorous, Kusano is a poet of praise--for the savor of snake-liver sake or crunchy raw potatoes, the hissing night sea, a changing sky: O half a sun now./ mightiest member of the universe./blind my two upstanding eyes with a whack of light. Kusano has traveled widely, and Cantonese as well as the English he studied during his years in China still find their way into his poems. In 1935, he and friends founded *Rekitei* (Historical Process), a monthly magazine out of which grew a poetry group with over a thousand members--now the largest in Japan. Head and heart of the *Rekitei* group, Shimpei Kusano is still writing, giving readings, and promoting other poets as well as haunting Gaku (School), his famous little bar in downtown Tokyo.
