**Japan's Early Experience of Contract Management in the Treaty Ports** Yuki Allyson Honjo,2013-12-19 This is the first in-depth study of the early trial-and-error experiences of contracting between Japanese and western merchants trading in the Japanese Treaty Ports in the eighteen year period immediately following the opening of the ports in 1859. Fundamental to the equation were the inevitable east-west cultural and legal ambiguities that impacted on the traders. The learning curve for both westerners and Japanese regarding the nature and application of western contracting law was predictably difficult, tortuous and open to constant misunderstanding. Nevertheless, it was within such a framework that the principal benchmarks for trade with Japan were set down and which, in essence, have lasted to the present day.

It analyses the Japanese-born British author from the vantage point of his birthplace, showing how Ishiguro remains greatly indebted to Japanese culture and sensibilities. The influence of Japanese literature and film is evident in Ishiguro's early novels as he deals with the problem of the atomic bomb and Japan's war responsibility, yet his later works also engage with folk tales and the modern popular culture of Japan. The chapters consider a range of Japanese influences on Ishiguro and adaptations of Ishiguro's work, including literary, cinematic and animated representations. The book makes use of newly archived drafts of Ishiguro's manuscripts at the Harry Ransom Center at the University of Texas to explore the origins of his oeuvre. It also offers sharp, new examinations of Ishiguro's work in relation to memory studies, especially in relation to Japan.
