Late Alabama Poems Joel Fry, 2019-11-27 Joel Fry's poems chart a deeply interior quest. Though the object is predictable—understanding, love, friendship, hope—the poems are highly original. Deep within, where external and internal landscape merge, where easy solutions like monetary success and comfortable suburbia go down before a sharp irony, we meet fleeting memories of a childhood farm, a creek beside which boys played, rare moments of love where a couple sits on a porch. We also meet loneliness, despair, glimpses of truth, and a pervasive joy in the act of creation. The poems are disciplined, intuitive, paradoxical, richly imagined—repaying, over and over, the attention and agility required of those who would follow the poet. Fry leaves us poised on the edge of a mystery / [we] cannot command, a chorus [we] cannot escape. Harry Moore, author of *Time's Fool* and *Bearing the Farm Away*

The Lemon House Kathleen Fiero, 1984

The Philadelphia Country House Mark E. Reinberger, Elizabeth McLean, 2015-10-21 A highly readable, beautifully illustrated study of the homes built by elite colonial Philadelphians as retreats—which balanced English models with developing local taste. Colonial Americans, if they could afford it, liked to emulate the fashions of London and the style and manners of English country society while at the same time thinking of themselves as distinctly American. The houses they built reflected this ongoing cultural

tension. By the mid-eighteenth century, Americans had developed their own version of the bourgeois English countryseat, a class of estate equally distinct in social function and form from townhouses, rural plantations, and farms. The metropolis of Philadelphia was surrounded by a particularly extraordinary collection of country houses and landscapes. Taken together, these estates make up one of the most significant groups of homes in colonial America. In this masterly volume, Mark Reinberger, a senior architectural historian, and Elizabeth McLean, an accomplished scholar of landscape history, examine the country houses that the urban gentry built on the outskirts of Philadelphia in response to both local and international economic forces, social imperatives, and fashion. What do these structures and their gardens say about the taste of the people who conceived and executed them? How did their evolving forms demonstrate the persistence of European templates while embodying the spirit of American adaptation? The Philadelphia Country House explores the myriad ways in which these estates—which were located in the country but responded to the ideas and manners of the city—straddled the cultural divide between urban and rural. Moving from general trends and building principles to architectural interiors and landscape design, Reinberger and McLean take readers on an intimate tour of the fine, fashionable elements found in upstairs parlors and formal gardens. They also reveal the intricate working world of servants, cellars, and kitchen gardens. Highlighting an important aspect of American historic

architecture, this handsome volume is illustrated with nearly 150 photographs, more than 60 line drawings, and two color galleries.

Historical Archaeology of the Delaware Valley, 1600-1850 Richard Veit, David Orr, 2014-01-30 The Delaware Valley is a distinct region situated within the Middle Atlantic states, encompassing portions of Delaware, Pennsylvania, New Jersey, and Maryland. With its cultural epicenter of Philadelphia, its surrounding bays and ports within Maryland and Delaware, and its conglomerate population of European settlers, Native Americans, and enslaved Africans, the Delaware Valley was one of the great cultural hearths of early America. The region felt the full brunt of the American Revolution, briefly served as the national capital in the post-Revolutionary period, and sheltered burgeoning industries amidst the growing pains of a young nation. Yet, despite these distinctions, the Delaware Valley has received less scholarly treatment than its colonial equals in New England and the Chesapeake region. In *Historical Archaeology of the Delaware Valley, 1600-1850*, Richard Veit and David Orr bring together fifteen essays that represent the wide range of cultures, experiences, and industries that make this region distinctly American in its diversity. From historic-period American Indians living in a rapidly changing world to an archaeological portrait of Benjamin Franklin, from an eighteenth-century shipwreck to the archaeology of Quakerism, this volume highlights the vast array of research being conducted throughout the region. Many of these sites discussed are the locations of ongoing excavations, and archaeologists

and historians alike continue to debate the region's multifaceted identity. The archaeological stories found within Historical Archeology of the Delaware Valley, 1600–1850 reflect the amalgamated heritage that many American regions experienced, though the Delaware Valley certainly exemplifies a richer experience than most: it even boasts the palatial home of a king (Joseph Bonaparte, elder brother of Napoleon and former King of Naples and Spain). This work, thoroughly based on careful archaeological examination, tells the stories of earlier generations in the Delaware Valley and makes the case that New England and the Chesapeake are not the only cultural centers of colonial America.

Prayers of Power Mark Doss, Amy Jo Wrobel, 2023-01-10 *Prayers of Power* invites us to enter into a journey through the Bible to meet people whose positions as leaders of sheep, people, or nations became empowered through the humility of praying to the God of all wisdom and strength. History has revealed to us that many in positions of authority choose to use their power for good, leaving the world a better place than they found it. However, some

have become infamous for abusing their mastery over others as a tool of destruction to accomplish evil purposes. The forty days of this journal will highlight prayers from great leaders, kings, and prophets in the Old Testament to our Lord Jesus Christ, His Apostles, and others who sometimes are left without names in the New Testament. We will discover the prayers of people who knew that their strength and power lay in the simple act of worship through prayer. These powerful prayers will encourage your prayer journey, helping you find and experience the power of our great God as you walk this pilgrim's journey, doing good, and glorifying God. Whether you see yourself in a position of power or as a humble servant, you will gain practical insights and encouragement as you learn from others in Scripture. Through their adversities and victories, they overcame with sustainability that only comes from on high. Be encouraged and built up, fellow sojourner, as you walk the path through Prayers of Power. We hope it will be a journey that will renew your strength and refresh your relationship with your Savior.

The Buried Past John L. Cotter, Daniel G. Roberts, Michael Parrington, 1992
The Buried Past presents the most significant archaeological discoveries made in one of America's most historic cities. Based on more than thirty years of intensive archaeological investigations in the greater Philadelphia area, this study contains the first record of many nationally important sites linking archaeological evidence to historical documentation, including Interdependence and Valley Forge National Historical Parks. It provides an

archaeological tour through the houses and life-ways of both the great figures and the common people. It reveals how people dined, what vessels and dishes they used, and what their trinkets (and secret sins) were.

Drifting into Darien Janisse Ray, 2011-09-15 Janisse Ray was a babe in arms when a boat of her father's construction cracked open and went down in the mighty Altamaha River. Tucked in a life preserver, she washed onto a sandbar as the craft sank from view. That first baptism began a lifelong relationship with a stunning and powerful river that almost nobody knows. The Altamaha rises dark and mysterious in southeast Georgia. It is deep and wide bordered by swamps. Its corridor contains an extraordinary biodiversity, including many rare and endangered species, which led the Nature Conservancy to designate it as one of the world's last great places. The Altamaha is Ray's river, and from childhood she dreamed of paddling its entire length to where it empties into the sea. Drifting into Darien begins with an account of finally making that journey, turning to meditations on the many ways we accept a world that contains both good and evil. With praise, biting satire, and hope, Ray contemplates transformation and attempts with every page to settle peacefully into the now. Though commemorating a history that includes logging, Ray celebrates "a culture that sprang from the flatwoods, which required a judicious use of nature." She looks in vain for an ivorybill woodpecker but is equally eager to see any of the imperiled species found in

the river basin: spiny mussel, American oystercatcher, Radford's mint, Alabama milkvine. The book explores both the need and the possibilities for conservation of the river and the surrounding forests and wetlands. As in her groundbreaking *Ecology of a Cracker Childhood*, Ray writes an account of her beloved river that is both social history and natural history, understanding the two as inseparable, particularly in the rural corner of Georgia that she knows best. Ray goes looking for wisdom and finds a river.
