Dörnberg: in the Shadow of the Josefsberg Henry A. Fischer,2019-02-06 In the past, the steep, majestic, heavily forested, and somewhat impregnable Josefsberg was the lair of robber bands and brigands following the expulsion of the Turks from the area and all of Hungary. In the future, it would become known as the Jószeffegy. It is one of the highest elevations in northeastern Somogy County. In its lengthening shadow, the village of Dörnberg would emerge in the early decades of the eighteenth century named as such by its German settlers in reference to the abundance of thorns in its lower regions. These first settlers were in large part of Hessian origin, having joined the Schwabenzug (the Great Swabian migration) of the eighteenth century into Hungary at the invitation of the Habsburg emperor Charles VI. The fact that they were Lutherans would lead to decades in which they were forced to exist as an underground congregation until the Edict of Toleration was promulgated by the emperor Joseph II in 1782, which led to the naming of the local heights as the Josefsberg in his honor. It was sometime later that the county administration renamed the village, and it became Somogydöröcske. The village would maintain its German character throughout its history until the end of the Second World War when Protocol XIII of the Potsdam Declaration was carried out on April 6, 1948, and the vast majority of the village population was expelled along with the German families in its affiliates in Bonnya and Gadács and sent by cattle car to the then Russian zone of occupation of Germany. Those from Szil followed a week later. This publication is addressed to the English-speaking descendants of those families that immigrated to Canada, Australia, and the United States prior to the Second World War, as well as the families who were successful in escaping from the Russian zone of Germany to the west and were able to find a new home in English-speaking countries. It provides them with genealogical information about their forebears and additional information regarding their life and history.

Johann Sebastian Bach Philipp Spitta,1992-01-01 This monumental study of Johann Sebastian Bach ranks among the great classics of musicology. Since its first publication in 1873-80, it has remained the basic work on Bach and the foundation of later research and study. The three-part treatment describes in chronological sequence practically everything that is known of the composer's life: his ancestry, his immediate family, his associations, his employers, and the countless occasions on which his musical genius emerged. Author Philipp Spitta accompanies this biographical material with quotations from primary sources: correspondence, family records, diaries, official documents, and more. In addition to biographical data, Spitta reviews Bach's musical production, with analyses of more than 500 pieces, covering all the important works. More than 450 musical excerpts are included in the main text, and a 43-page musical supplement illustrates longer passages. Despite the scholarly nature of this work, it also has the rare distinction of being a study that can be read with considerable enjoyment and great profit by every serious music lover, with or without a substantial background in the history of music or musical theory.

The Nevadan Robert R. Schmidt,2011-02 The Nevadan is an accurate account of Johann Schmidt's experiences in 1866 and 1867 as he left Virginia City, Nevada Territory, astride his California horse 'Franky' in a diary kept by one of America's many rugged pioneers. In this case, the work covers his trek from Virginia City, Nevada, to the east coast of the United States by horse, on foot, by wagon train, and by railroad as he overcame the problems of crossing the hot, flat country of Nevada; the notorious forty-mile Utah desert; mountains and plains with their wildlife; Indians; and the cities he had never been in before. He utilized whatever was at hand for food, transportation, communication, shelter, and protection. Johann Heinrich Wilhelm Schmidt, AKA 'Henry Smith, ' kept a very detailed diary in which he chronicled a myriad of events, places and people that picture the historical, communications, transportation, geographical and even political growth of the United States in 1866 through early 1867. 'Henry Smith' was a rugged pioneer and he unceremoniously captures the old west in the narrative of this diary. He has left an entertaining dialogue describing the perils and hardships of travel across the developing American west in 1866. He exemplifies the fortitude, determination and honesty that early Americans brought to this country and gave it the name of a country 'run by the people, for the people and of the people.
