Thinking about Acting John L. Pollock,2006-07-27 John Pollock aims to construct a theory of rational decision making for real agents--not ideal agents. Real agents have limited cognitive powers, but traditional theories of rationality have applied only to idealized agents that lack such constraints. Pollock argues that theories of ideal rationality are largely irrelevant to the decision making of real agents. Thinking about Acting aims to provide a theory of real rationality.

How to Build a Person John L. Pollock,1989 Pollock describes an exciting theory of rationality and its partial implementation in OSCAR, a computer system whose descendants will literally be persons.

Contemporary Theories of Knowledge John L. Pollock,Joseph Cruz,1999 This exciting new edition of the classic Contemporary Theories of Knowledge has been significantly updated to include analyses of the recent literature in epistemology. In addition, a new case is made for the strong connection between epistemology and artificial intelligence, as Pollock and Cruz argue that a necessary condition for the correctness of any epistemological theory is that it be possible to build an implemented artificial intelligence system on the basis of it. Like the first edition, Contemporary Theories of Knowledge, Second Edition is an excellent teaching tool, introducing the reader to the fundamental issues and approaches in the field of epistemology.

The Billy Graham Story John Pollock,2011-05-03 An updated account of the inspiring and influential life of Dr. Billy Graham When the hijacked planes slammed into the World Trade Center and the Pentagon on September 11, 2001, President Bush immediately proclaimed a National Day of Prayer and Remembrance. For the interfaith, interdenominational service at the Washington National Cathedral he chose Billy Graham to give the address. At that terrible hour no other clergyman, whatever his office, could so aptly bring the Word of God to America—and a watching world. At eighty-four, Billy Graham remains one of the most respected people in the world today. He has addressed over eighty-two million people face to face and at least one billion people through television, radio, and satellite. Yet he is far more than an evangelist of integrity and vision; he is a Christian statesman whose profound influence on the growth and depth of Christianity across the world cannot be overestimated. This official biography of Dr. Graham is based on his private files, correspondence, and interviews, as well as the author's widespread research. • Written by John Pollock, Dr. Graham's official biographer • Parts one and two (1918 to 1978), based on Pollock's authorized biographies, have been abridged and contain new

material• Part three (1978 to 1983) deals at length with Dr. Graham's controversial visit to Moscow, which can now be seen as a factor in the fall of communism• Part four (1984 to 2003) updates the story to recent events, including the horrors of September 11 and the honorary knighthood Dr. Graham received from the Queen of England in December 2001• 8-page section of black-and-white photos new to this book

Thinking about Acting John L. Pollock,2006-07-27 This work aims to construct a theory of rational decision making for real, resource-bounded, agents.
