**Computer Simulations of Space Societies** William Sims Bainbridge,2018-06-09 At the intersection of astronautics, computer science, and social science, this book introduces the challenges and insights associated with computer simulation of human society in outer space, and of the dynamics of terrestrial enthusiasm for space exploration. Never before have so many dynamic representations of space-related social systems existed, some deeply analyzing the logical implications of social-scientific theories, and others open for experience by the general public as computer-generated virtual worlds. Fascinating software ranges from multi-agent artificial intelligence models of civilization, to space-oriented massively multiplayer online games, to educational programs suitable for schools or even for the world's space exploration agencies. At the present time, when actual forays by humans into space are scarce, computer simulations of space societies are an excellent way to prepare for a renaissance of exploration beyond the bounds of Earth.

**Jump Gate III RoadMaker** Larry Wasion, 2023-08-21 Jump Gate III - RoadMaker Where TELEPORTER taught humankind how to walk using Porter Tech, ROADMAKER uses the tech to run. No longer limited by our local planets, we need to go exploring. And we need to go exploring... out there. The Timely Corporation has become a world leader in Porter-Tech and near-space solutions. While a threat to the Earth begs for a solution which teleporter tech can answer though leading-edge solutions, progress remains hampered by the very real laws of physics and distance. Readers

travel in spacecraft that move between the stars at speeds that only give the captain a seventeen-minute horizon to avoid rogue planetesimals. Seventeen minutes to avoid threats of Cosmic Energy Bursts and the accumulating dangers thereof. Of spacewalks required while clinging to the exterior of a, still accelerating, spacecraft or a solution when your vehicle is drowning in an invisible river of high-energy particles that may peel the RoadMaker like a grape if an exit isn't found in a matter of minutes. The Jump Gate series presents the third of four volumes that record the history, the trials, the successes, and the failures of a technology that evolves from a quirky time machine to a space-battleship-sized Jump Gate over four volumes. ROADMAKER is the third book in the future annals of the Jump Gate.

The Power of Divine Eros A. H. Almaas, Karen Johnson, 2013-09-17 Two innovative spiritual teachers show how to use desire and passion—eros—as a gateway to realizing our fullest potential. What do desire and passion have to do with our spiritual journey? According to A. H. Almaas and Karen Johnson, they are an essential part of it. Conventional wisdom cautions that desire and passion are opposed to the spiritual path—that engaging in desire will take you more into the world, into egoic life. And for most people, that is exactly what happens. We naturally tend to experience wanting in a self-centered way. The Power of Divine Eros challenges the view that the divine and the erotic are separate. When we open to the energy, aliveness, spontaneity, and zest of erotic love, we will find it inseparable from the realm of the holy and sacred. When this is understood, desire and passion become a gateway to wholeness and to realizing our full potential. Through guided exercises, the authors reveal how our relationships become opportunities on the spiritual journey to express ourselves authentically, to relate with openness, and to discover dynamic inner realms with another person. Through embodying the energy of eros, each of us can learn to be fully real and alive in all of our interactions.

*Armies of Light and Dark* Peter David, 2000 The Drakh have assaulted Earth with deadly Shadow technology -- but the worst is yet to come in this stunning continuation of the Babylon 5 epic adventure... Centauri Prime has been infiltrated by malevolent allies of the Shadows, creatures known as the Drakh. While Centauri citizens continue to rebuild their war-torn planet, their secret masters work feverishly toward one ultimate goal: to crush the Interstellar Alliance once and for all. As the Drakh carry out their horrific plans, Emperor Londo Mollari languishes on his throne, a puppet of the Drakh-bred keeper, an insidious creature that monitors his every thought, word, and action. While the emperor broods, the power-obsessed Lord Durla -- an unwitting Drakh pawn -- follows his own agenda. But Drakh control is not absolute. Vir Cotto -- a most unlikely hero -- has begun a resistance movement, and Alliance President John Sheridan has sent his most trusted troubleshooter, Michael Garibaldi, to investigate. Yet this move may prove costly, and though the Centauri continue to build a new military machine, the Alliance avoids any overt confrontation, hoping the problem will go away. They're about to discover how wrong they are...

*Gunslinger to the Stars* Joe Vasicek, 2017-05-19 Not long from now, in our own Milky Way... The name's Sam Kletchka. Perhaps you've heard of me: captain of the Star Runner, military contractor for Earthfleet, and interstellar privateer. But before all that, I was a hired gun, freelancing across the galaxy one gunslinging job at a time. This, my friends, is how I went from being stranded in the armpit of the galaxy to becoming the luckiest human being in the universe. Not that it was easy, of course. I've looked death in the face so often, he's practically an old buddy of mine. But when all your worst enemies are immortal, that's a buddy you want on your side. Stay frosty, my friends. You never know what you'll find at the next star.

**The Complete Gunslinger Trilogy** Joe Vasicek, Join Sam Kletchka, freelance gunslinger and interstellar privateer, and Jane Carter, xenolinguist and alien anthropologist, on their intergalactic adventures as they travel the stars, make first (and sometimes last) contact with exotic alien races, and uncover the truth about the Immortals who secretly run our galaxy. This omnibus edition contains: *Gunslinger to the Stars* *Gunslinger to the Galaxy* *Gunslinger to Earth* and the short story *Jane Carter of Earth and the Rescue that Never Was*.

*Finders Keepers* Linnea Sinclair, 2005-04-26 Independent trader Trilby Elliot is making some not-quite-legal modifications to her starfreighter, when an unexpected visitor falls out of space. Literally. He's crashed onto the uninhabited planet of Avanar in a crippled 'Sko fighter-the last place you'd expect to find a Zafharin military officer because the 'Sko and the Zafharin have been at war as long

as Trilby can remember. Rhis Vanur is your typically arrogant Zafharin. But to Trilby's surprise, he doesn't look down on her or her slapdash ship. Still, Trilby's learned the hard way that even though she found Rhis, she can't keep him. She's just a low-budget jump jockey as far as men like him are concerned. She's not falling for his offer to help...until Port Rumor reports her best friend missing and Trilby learns that the 'Sko are hunting both her and Rhis. Now they're in it together for better, for worse—or till death blasts them to oblivion....

In this complex political, multi-species jungle, two attorneys-at-law-sons of the wealthiest mogul in the Terran Commonwealth-journey to a Rim world under orders to sue those amphibious bastards for everything they've got to secure the site of a new jump gate, which will hurdle the 2.5 million light years across the intergalactic Void to vast, unexplored Andromeda galaxy. But first, the Star Lawyers must run a gauntlet to the Rim, dodging pirates, politicians, prelates, and predatory star nations intent on seizing Jump Gate Omega. Even while spurning The Old Man, the black-sheep younger son, Tyler, has hungered for his father's approval since childhood.
