People Born In June Andrey Davydov, Olga Skorbatyuk, Kate Bazilevsky, 2017-06-23

ANTI-HOROSCOPE: HUMAN "SOFTWARE" (Series of 12 books) Did you know that those born on June 4 leap years or June 5 common years are not only perpetual servants by character, who are flexible, try to please and anticipate desires ("The master is laughing—I'm laughing; the master is sad—I'm sad."), but also they will ask a great price of the master for being whoever the master wants to see? They are masters of illusions, lie with or without reason... Or, for example, did you know that those people, who were born on June 6th of leap years or on June 7th of common years are not only very flexible and display calmness of a Sphinx on their faces, but in matrimonial relations (and they always seek to have a family) they act like a night cuckoos and will cuckoo anyone over: unobtrusively, between the pillows they will get what they want into their spouse's head? And, these people are essentially untamable like cats, who always walk around by themselves. Hence the question: are you sure that you know people, whom you think you know as your own self? Yes, of course, you know them, if we take word-play into account. You really do know them, like you know yourself—that is: just as bad! You know your own and other people's masks and roles, but that is all. You do not believe this? Then, open this book and see for yourself! This book is for those people, who are fed up with horoscopism, who are tired of listening to nonsense about themselves and other people from psychologists or their all-knowing relatives, friends and acquaintances. It will help you save not just some time in your life, but your whole life because otherwise you will spend your entire life on something that is a priori impossible. And, it is impossible not because you are idiots, but because Homo sapiens cannot fully know themselves and other people

without an external (and, most importantly, objective) source. Perhaps that is the reason why humanity was left factory instructions to each one of us—the Catalog of Human Population. Yes, that is right! There exists the Catalog of Human Population, which you can open and find out everything about any person you are interested in (including yourself)! Information about people presented in this book (and in other eleven books in the series titled Anti-Horoscope: Human Software) is from there, and not from your favorite horoscope.

Reminiscences of June Stanton Berg,2020-06-04 This biography has thirty-one chapters, over eighty thousand words, and over two hundred illustrations, photos, or diagrams. Billy Graham, the world-famous evangelist, once described his wife, Ruth Bell Graham, as the world's greatest Christian. Stan Berg, the author of June's biography, is convinced that June is the greatest Christian that he has ever known. June portrays the Christian love, the cornerstone of the Christian religion, always smiling, friendly, and dedicated to the Lutheran Church. One entire chapter of this book (the longest) is so dedicated in chapter 8, June and the Lutheran Church. It was June's influence that changed the author Stan from a declared agnostic to a devoted and dedicated Christian. One chapter (chapter 30) tells the story of June's Christian love in the chapter on June and a Little Girl from Africa. The book traces June's life through her early (Great Depression), middle, and elderly years, including her Alzheimer's years. Her many worldwide forensic-science travels are detailed. June and Stan traveled the world attending about 170

forensic-science conferences in Russia, Hungary, Austria, London, Edinburgh, Rome, the Vatican, Zurich, Canada, Mexico, and Dusseldorf, Germany. London was June's favorite city where she visited nine times and made personal friends of the Bruce's, south of London in Bexley, Kent. June also had an interest in Sherlock Holmes and visited his London haunts and twice stayed at the Sherlock Holmes Hotel. Stan often described June as his Dr. Watson for a lifetime!

Faith, Hope, and Ivy June Phyllis Reynolds Naylor, 2011-06-14 When push comes to shove, two Kentucky girls find strength in each other. Ivy June Mosely and Catherine Combs, two girls from different parts of Kentucky, are participating in the first seventh-grade student exchange program between their schools. The girls will stay at each other's homes, attend school together, and record their experience in their journals. Catherine and her family have a beautiful home with plenty of space. Since Ivy June's house is crowded, she lives with her grandparents. Her Pappaw works in the coal mines supporting four generations of kinfolk. Ivy June can't wait until he leaves that mine forever and retires. As the girls get closer, they discover they're more alike than different, especially when they face the terror of not knowing what's happening to those they love most.
