*Horror Literature through History [2 volumes]* Matt Cardin, 2017-09-21 This two-volume set offers comprehensive coverage of horror literature that spans its deep history, dominant themes, significant works, and major authors, such as Stephen King, Edgar Allan Poe, and Anne Rice, as well as lesser-known horror writers. Many of today's horror story fans—who appreciate horror through movies, television, video games, graphic novels, and other forms—probably don't realize that horror literature is not only one of the most popular types of literature but one of the oldest. People have always been mesmerized by stories that speak to their deepest fears. *Horror Literature through History* shows 21st-century horror fans the literary sources of their favorite entertainment and the rich intrinsic value of horror literature in its own right. Through profiles of major authors, critical analyses of important works, and overview essays focused on horror during particular periods as well as on related issues such as religion, apocalypticism, social criticism, and gender, readers will discover the fascinating early roots and evolution of horror writings as well as the reciprocal influence of horror literature and horror cinema. This unique two-volume reference set provides wide coverage that is current and compelling to modern readers—who are of course also eager consumers of entertainment. In the first section, overview essays on horror during different historical periods situate works of horror literature within the social, cultural, historical, and

intellectual currents of their respective eras, creating a seamless narrative of the genre's evolution from ancient times to the present. The second section demonstrates how otherwise unrelated works of horror have influenced each other, how horror subgenres have evolved, and how a broad range of topics within horror—such as ghosts, vampires, religion, and gender roles—have been handled across time. The set also provides alphabetically arranged reference entries on authors, works, and specialized topics that enable readers to zero in on information and concepts presented in the other sections.

**Re-Viewing the Past** Sean D. O'Reilly, 2018-08-23 Re-Viewing the Past: The Uses of History in the Cinema of Imperial Japan analyzes the complicated relationship between history films, audiences, reviewers and censors in Japan for the critically important years from 1925-1945. First contextualizing the history of the popular "Bakumatsu" period (1853-1868), the moment of Japan's emergence as a modern nation, Sean O'Reilly paves the way for a reinterpretation of Japanese pre and postwar cinema. Setting a film in the Bakumatsu period offered 'cultural breathing room' to both filmmakers and viewers, offering a cinematic space where apolitical entertainment and now-forbidden themes like romance still reigned. Some filmmakers-and viewers-even conceived of these films as being a form of resistance against Japan's growing militarism. As comparisons between the popularity of such films versus that of state-sponsored propaganda films show, audiences responded enthusiastically to these glimmers of resistance. O'Reilly argues that we should turn our attention to the much more popular films of the time that were major hits with audiences in order to understand what resonated with wartime spectators, and to speculate about why this might have been the case. Including clips of these rare films, a so-far neglected area of Japanese film history is now firmly situated in context to offer a thought-provoking, multidisciplinary approach.
