Who Was Who on TV Norman Chance, 2010-12-23 The information herein was accumulated over fifty some odd years. The collection process started when TV first came out and continued until today. The books are in alphabetical order and cover shows from the 1940s to 2010. The author has added a brief explanation of each show and then listed all the characters, who played the roles and for the most part, the year or years the actor or actress played that role. Also included are most of the people who created the shows, the producers, directors, and the writers of the shows. These books are a great source of trivia information and for most of the older folk will bring back some very fond memories. I know a lot of times we think back and say, Who was

the guy that played such and such a role? Enjoy!

Dragon Ball Valérie Précigout, 2018-02-07 Du cinéma à la série télé, du manga au comic, l'auteur revient sur les coulisses de cet univers incontournable. Ce premier ouvrage du label pop-culture de Third s'intéresse à la légende Dragon Ball, le manga culte des années 1980-1990. À l'occasion des trente ans de la série animée, les éditions Third se proposent donc de retracer toute l'histoire de l'oeuvre majeure d'Akira Toriyama. À la manière des ouvrages sur les sagas Zelda ou Final Fantasy, ce livre traitera avec la même précision de la genèse du manga, de la richesse de l'univers et des différents messages que véhicule la série du héros Son Goku. Une rétrospective unique sur un géant de la pop culture ! EXTRAIT La genèse d'une

œuvre se révèle bien souvent riche d'enseignements sur la nature même de celle-ci. À ce titre, le parcours de Dragon Ball, simple manga devenu véritable phénomène de société à travers le monde, mérite d'être décortiqué si l'on veut comprendre toutes les clefs de son succès. Par exemple, nous verrons dans ce chapitre le fond de ce que souhaitait exprimer son auteur et de quelle manière la trame de départ a évolué pour prendre une direction bien éloignée de celle de ses débuts. Il sera également question de l'impact que provoqua son exportation à travers le monde et de l'accueil que lui réserva le public étranger à une époque où le terme « manga » était encore inconnu du plus grand nombre. Cryogénisé durant de longues années pour renaître avec encore plus de vigueur aujourd'hui, le phénomène Dragon Ball n'est pas près de cesser de faire parler de lui, et nous allons tenter de comprendre pourquoi en relatant chacune des grandes étapes de son développement. À PROPOS DE L'AUTEUR Valérie Précigout, plus connue sous son pseudonyme de Romendil, a travaillé pendant quinze ans comme journaliste pour Jeuxvideo.com, le site spécialisé le plus important d'Europe. Férue de jeux de rôle japonais, elle a su s'imposer dans la critique sur Internet alors que cette dernière n'était encore que balbutiante face à la presse papier. Passionnée par la culture manga et les loisirs japonais, elle partage désormais ses impressions sur l'actualité du jeu vidéo par le biais du site Extralife.fr et rédige des articles dans la collection d'ouvrages Level Up, également chez Third Éditions.
