Makuti, 2010-11-12 *At all cost* is a novel about two kids, Chris and Laura who were caught by criminals in the trailer they hid accidentally while escaping from their father with the aim of going to their mother they longed to see in six years. Not knowing what to do with the kids; the criminals decided to sell the kids to one of their compatriot to cover up for the execution that took place in Nara desert. Chris and Laura fought for their survival until an unexpected lady who also had answers to their problems came to their rescue, but the criminals wanted them all dead with their rescuer...

The Kamina Folk George F. Tyson, Arnold R. Highfield, 1994 Companion to the bibliography on the same topic (see item #bi 96001144#), work provides access to superb 18th- and 19th-century printed sources on slavery in the Danish Caribbean, most of them translated from Danish. Much less well-known than their English and French counterparts, these texts often bring fresher and more detailed information from a variety of informants - missionaries, administrators, overseers, physicians--Handbook of Latin American Studies, v. 58.

Africa Presents The Congo RDC And A Mysterious Boy Called Timo Mikwaya well known as Kamina Bepona Collection,

We Are Not All Victims Pamela Couture, 2016 Pamela Couture chronicles the peacebuilding activities of the community led by Bishop Ntambo Nkulu Ntanda, his lay leaders, and ecumenical colleagues. This community responds to the conditions created by the wars in the Democratic Republic of Congo, 1996-2003, organizing relief, building social capacities, engaging in conflict transformation, and often risking their lives for peace. These rural Luba people in the town of Kamina and surrounding villages negotiate their understanding of Christian mandates and local tradition and practice, demonstrating that their appropriation of Christianity and local indigenous tradition can motivate practices of peace. Film Copyright in the European Union Pascal Kamina, 2016-04-28 Intellectual property issues in the film industry are often highly complex and in today's world are evolving rapidly. In this second edition of *Film Copyright in the European Union*, Pascal Kamina unravels the complexities of film protection in twenty-eight member states of the European Union, including thirteen new member states who have joined since the first edition. As well as addressing key aspects of film copyright, Pascal Kamina also deals with the protection of film works within the European Union in the context of European harmonisation of copyright laws. Including a new chapter on copyright enforcement, this second edition details the substantial developments in EU law during the last decade, including major cases for the European Court of Justice, new treaties and new directives. This book will interest practitioners, academics and students. The developments on contracts and moral rights will be of particular interest to lawyers outside continental Europe.

Mathematics and Technology in Elementary Education Penina Kamina, Ray Siegrist, 2021-07-11 *Mathematics and Technology in Elementary Education* combines knowledge-based mathematical content, foundational pedagogy, and research-based methods for teaching and learning. The material helps pre-service and novice K-6 educators learn how to teach mathematics for conceptual understanding. The book explores K-6 mathematics and enables readers to benefit

from directly experiencing how intended curriculum is implemented and enacted in the classroom. They are first introduced to general pedagogy, the pre-K-6 mathematics curriculum, and pedagogy specific to mathematics. Additional chapters provide readers with lesson plan templates, discuss the assessment of mathematics, and provide strategies for classroom management. Closing chapters offer resources for teaching mathematics and select examples of Pre-K-6 mathematics content. The second edition includes new material on how to write feedback and comments, as well as new and improved figures on operation and algebraic thinking, and intended and enacted curriculum. Designed to help ground teachers in best practices for meeting the needs of today's students, *Mathematics and Technology in Elementary Education* is ideal for courses in mathematics methodology or in-service courses for elementary educators.

Evangelization and Church Growth in the African Context Jenny Youngman, 2016-09-01 In this time when the church is experiencing a tremendous growth in members and in the number of denominations, such questions like the what, why, and how of evangelism need to be addressed. This resource gives answers and guidance to these and other important questions. Foreword by Bishop Joaquina Nhanala.

Detection of Explosives and Landmines Hiltmar Schubert, Andrey Kuznetsov, 2012-12-06 This ARW is the third NATO-sponsored workshop on Explosives Detection and Humanitarian Demining. The previous events were • Detection and Destruction of Anti-Personnel Landmines Moscow, 1997 • Explosives Detection and Decontamination of the Environment Prague, 1997. Over the last decade applied research in Humanitarian Demining has made progress to some extent, but according to the tremendous tasks of Demining and the lack of scientific methods for practical detection of explosive devices, research activities are still of the same importance than ever before. Concerning countermeasures against terrorism the detection of explosives is one of the key factors, but the practical applications are not sufficiently solved. An international exchange of research results are therefore urgent, to find out the most promising measures for application. The coincidence of this ARW and the terrible disaster of New York and Washington may demonstrate the importance of this task. In consequence the explosive device detection technologies can make a major contribution to collective, family and individual security. In developed countries, these technologies provide a strong deterrent and preventative measure against terrorist threats. In less developed regions, they can improve individual, institutional and state security, lessening the insecurity that motivates many terrorists acts. The elimination of landmine threats is just one of many ways of achieving this. However our attempts to meet the extremely difficult technical challenges posed by landmine and UXO contamination are inevitably leading us to new technological approaches.

Pastors, Chiefs, and Warlords Bob Walters, Kate Koppy, 2022-04-26 Written as a series of reflections, this book is a conversation-shifting exploration of how the church understands the role of missionaries and their work. On bicycle and riverboat journeys totaling more than 2000 kilometers, Bob's team visits Pastors, Chiefs, and Warlords in remote towns, including Rev. Jacky Mwayuma (pictured at left with a parishoner), who was appointed to serve a community that had been ravaged by the recent war. As readers are pulled deeper into this voyage, they are invited to wrestle with increasingly challenging questions about the mission of the church, the global economy, neocolonialism, savior complexes, racism, war, and justice. This book follows *The Last Missionary*, but it also stands on its own as a complete work.

Peacemakers in Action: Volume 2 Tanenbaum Center for Interreligious Understanding, 2016-10-03 The second volume of *Peacemakers in Action* tells the stories of remarkable individuals - peacemakers - across the world who strive to end violence in religiously charged conflicts.

Peacemakers in Action: Volume 2 Joyce S. Dubensky, 2016-10-03 Every day, men and women risk their lives to stop violence in religiously charged conflicts around the world. You may not know their names - but you should. *Peacemakers in Action, Volume 2* provides a window into the triumphs, risks, failures, and lessons learned of eight remarkable, religiously motivated peacemakers including: • A Methodist bishop in the Democratic Republic of the Congo who confronts armed

warlords on his front lawn • A Christian who travels to Syria to coordinate medical aid and rebuild postwar communities • A Muslim woman, not knowing how Kabul's imams will react, arrives to train them on how to treat women – respectfully. Volume 2 offers students of religious and grassroots peacebuilding informative techniques and methods for organizing community action, establishing trust in conflict, and instilling hope amid turmoil. The book also features updates of case studies presented in Volume 1.

Decolonizing Mission Partnerships Taylor Walters Denyer, 2020-06-26 We all know that healthy partnerships are essential to fruitful boundary-crossing ministries, but how exactly do we create them? What barriers must be overcome, and what self-examination must we do? How do the legacies of colonialism, racism, and unhealed trauma impact missional collaborations today? In this doctoral thesis, Denyer reflects on these questions as she examines the history of relational dynamics between American and Congolese United Methodists in the North Katanga Conference (DR Congo). By surveying memoirs, magazines, and journals, and conducting in-depth interviews, Denyer presents a complex and multifaceted example of a partnership that is in the process of decolonizing. More than just a history lesson, *Decolonizing Mission Partnerships* presents the questions, hard truths, pitfalls, and toxic assumptions we must face when attempting to be in mission together.

Advances in Computers Marvin Zelkowitz, 2011-09-21 *Advances in Computers* covers new developments in computer technology. Most chapters present an overview of a current subfield within computers, with many citations, and often include new developments in the field by the authors of the individual chapters. Topics include hardware, software, theoretical underpinnings of computing, and novel applications of computers. This current volume includes six chapters on nanotechnology emphasizing its use in biological applications. The book series is a valuable addition to university courses that emphasize the topics under discussion in that particular volume as well as belonging on the bookshelf of industrial practitioners who need to implement many of the technologies that are described. Nanotechnology in biology Development of miniature computing devices Social and legal implications of nanotechnology

La « Jamaa » au diocèse de Kamina Jean-Anatole Kalala Kaseba, 2021-12-14 18 juillet 1922 - 18 juillet 2022, le diocèse de Kamina s'apprête à célébrer son jubilé de 100 ans. C'est dans ce diocèse que le missionnaire franciscain belge mondialement connu, Placide Tempels (1906-1977), a publié son célèbre livre *La philosophie bantoue* et fondé la « Jamaa », mouvement catéchétique pour adultes qui signifie « famille ». Monseigneur Kalala, qui a dirigé ce diocèse pendant plus de 30 ans, nous fait découvrir la « Jamaa » de l'intérieur en présentant son origine historique, son enseignement doctrinal et son expansion pastorale et ecclésiale. Ce livre dévoile le lien fort qui unissait Placide Tempels et le peuple qu'il évangélisait.
