Japanese Aesthetics and Anime Dani Cavallaro, 2013-01-03 This study addresses the relationship between Japanese aesthetics, a field steeped in philosophy and traditional knowledge, and anime, a prominent part of contemporary popular culture. There are three premises: (1) the abstract concepts promoted by Japanese aesthetics find concrete expression at the most disparate levels of everyday life; (2) the abstract and the concrete coalesce in the visual domain, attesting to the visual nature of Japanese culture at large; and (3) anime can help us appreciate many aspects of Japan's aesthetic legacy, in terms of both its theoretical propositions and its visual, even tangible, aspects.

Creep Con Kim Firmston, 2015-09-21 Feeling like an outsider in a new city and at a new school, Mariam finds that her love of comic-book superheroes overlaps with the interests of a new friend who is otaku, crazy about manga and anime. Together, Mariam and Tya plan their costumes for the big fan convention. Mariam is comfortable with her choice of character, partly because as Haruhi, she can dress in a costume that doesn't bare too much skin. When Tya can't go to the convention, Mariam is relieved to meet up with some boys who are dressed as the rest of the group from Haruhi's manga. Rick, dressed as Haruhi's love interest, insists that Mariam spend all her time with him, doing things that their characters like to do and playing out their romance. When he tries to physically force himself on her, Mariam realizes that Rick is taking the game way too seriously, but how can she escape his attention? This novel explores the appealing world of comic books and graphic novels that has growing numbers of young people exploring role playing and attending fan conventions.

Framing School Violence and Bullying in Young Adult Manga Drew Emanuel Berkowitz, 2020 This book closely examines the ways in which many popular, internationally-published Japanese young adult manga graphic novel titles frame instances of K-12 school-situated violence and bullying. Manga is a Japanese literary medium that has grown worldwide as an increasingly visible fixture of young adults' recreational reading habits. The author uncovers the medium's most prevalent patterns of defining, depicting, and discussing school-situated violence and bullying. Through the lens of socio-cultural media frame analysis, he explores what these patterns might indicate about young adults' preexisting views and beliefs about occurrences of violence and bullying within their own school environments. This in-depth investigation of manga literature provides important information pertaining to the pedagogies and practices of K-12 teachers and school administrators, as well as detailed advice for parents of young adult manga fans.
