**Karen Tei Yamashita** A. Robert Lee,2018-04-30 Karen Tei Yamashita’s novels, essays, and performance scripts have garnered considerable praise from scholars and reviewers, and are taught not only in the United States but in at least half a dozen countries in Asia, South America, and Europe. Her work has been written about in numerous disciplines in the humanities and social sciences. Karen Tei Yamashita: Fictions of Magic and Memory is the first anthology given over to Yamashita’s writing. It contains newly commissioned essays by established, international scholars; a recent interview with the author; a semiautobiographical keynote address delivered at an international conference that ruminates on her Japanese American heritage; and a full bibliography. The essays offer fresh and in-depth readings of the magic realist canvas of Through the Arc of the Rain Forest (1990); the Japanese emigrant portraiture of Brazil-Marú (1992); Los Angeles as rambunctious geopolitical and transnational fulcrum of the Americas in Tropic of Orange (1997); the fraught relationship of Japanese and Brazilian heritage and labor in Circle K Cycles (2001); Asian American history and politics of the 1960s in I Hotel (2010); and Anime Wong (2014), a gallery of performativity illustrating the contested and inextricable nature of East and West. This essay-collection explores Yamashita’s use of the fantastical, the play of emerging transnational ethnicity, and the narrative tactics of reflexivity and bricolage in storytelling located on a continuum of the unique and the communal, of the past and the present, and that are mapped in various spatial and virtual realities.

**A Thousand Graces** Karen Hill Anton,2023-03-17 Chie Uchida, a talented student, does not fit the mold of her countryside life and provincial upbringing. She’s not certain what she wants, but knows that unlike her beloved brother, her future does not spell contentment on a tea farm. Her self-absorbed best friend has a rebellious streak but doesn’t present a model Chie wants to follow. Entering college, Chie plunges headlong into emotional turmoil as she takes her first misguided steps into womanhood—she misreads the attention of one professor and the aspirations of another. Set in 1970s Japan, the Showa era, the story evokes nostalgia for a simpler time as traditional customs and values fade away and Japanese society inexorably changes to meet the expectations and demands of a more modern world. The characters in this novel, drawn with a deft deliberation and intimate distance, arouse empathy as they struggle, submit, and surrender.

**Tropic of Orange** Karen Tei Yamashita,2017-09-12 Fiercely satirical. . . . Yamashita presents [an] intricate plot with mordant wit. —New York Times Book Review A stunner. . . . An exquisite mystery novel. But this is a novel of dystopia and apocalypse; the mystery concerns the tragic flaws of human nature. —Library Journal (starred review) Brilliant. . . . An ingenious interpretation of social woes. —Booklist (starred review) Yamashita handles her eccentrics and the setting of their adventures with panache. David Foster Wallace meets Gabriel Garcia Marquez. —Publishers Weekly Irreverently juggling magical realism, film noir, hip hop, and chicanismo, Tropic of Orange takes place in a Los Angeles where the homeless, gangsters, infant organ entrepreneurs, and Hollywood collide on a stretch of the Harbor Freeway. Hemmed in by wildfires, it's a symphony conducted from an overpass, grandiose, comic, and as diverse as the city itself. Karen Tei Yamashita is the author of Through the Arc of the Rain Forest, Brazil-Marú, Tropic of Orange, Circle K Cycles, I Hotel, and Anime Wong, all published by Coffee House Press. I Hotel was selected as a finalist for the National Book Award and awarded the California Book Award, the American Book Award, the Asian/Pacific American Librarians Association Award, and the Association for Asian American Studies Book Award.

*The Confessions of Lady Nijo* Nakanoin Masatada no Musume,Karen Brazell,1976 In about 1307 a remarkable woman in Japan sat down to complete the story of her life. The result was an autobiographical narrative, a tale of thirty-six years (1271-1306) in the life of Lady Nijo, starting when she became the concubine of a retired emperor in Kyoto at the age of fourteen and ending, several love affairs later, with an account of her new life as a wandering Buddhist nun. Through the vagaries of history, however, the glory of Lady Nijo's story has taken six and half centuries to arrive. The Confessions of Lady Nijo or Towazugatari in Japanese, was not widely circulated after it was written, perhaps because of the dynastic quarrel that soon split the imperial family, or perhaps because of Lady Nijo's intimate portrait of a very human emperor. Whatever the cause, the book was neglected, then forgotten completely, and only a single manuscript survived. This was finally discovered in 1940, but would not be published until after World War II in 1950. This translation and its annotations draw on multiple Japanese editions, but borrow most heavily from the interpretations offered by Tsugita Kasumi.

*Circle K Cycles* Karen Tei Yamashita,2001 With skill, imagination, and wit, Yamashita defines an emerging challenge of twenty-first century global society.

The Acquisition of Numeral Classifiers Kasumi Yamamoto,2011-05-03 The book is about the numeral classifier system and the acquisition of Japanese classifiers by Japanese children. It consists of two parts. First, it provides a general typological characterization of numeral classifier phrases and discusses problems in determining what constitutes the nature of classifiers. It also discusses the semantic properties of numeral classifiers

based on an analysis of four languages from four different language families. Second, it examines the acquisitions of Japanese numeral classifiers by Japanese preschool children, ages 3 to 6, with a primary emphasis on the development of comprehension. The importance of the study is that it reveals that young children have a much greater sensitivity to the conceptual underpinnings of the numeral classifier system than was previously considered to be the case. The research results also provide a converging source of evidence that young children often come to initially grasp the structure of the world in ways that are better understood in cognitive than perceptual terms. The implications will contribute to not only the area of language acquisition but also categorization and conceptual development.

*Through the Arc of the Rain Forest* Karen Tei Yamashita,2017 Fluid and poetic as well as terrifying. --New York Times Book Review Dazzling . . . a seamless mixture of magic realism, satire and futuristic fiction. --San Francisco Chronicle Impressive . . . a flight of fancy through a dreamlike Brazil. --Village Voice Surreal and misty, sweeping from one high-voltage scene to another. --LA Weekly Amuses and frightens at the same time. --Newsday Incisive and funny, this book yanks our chains and makes us see the absurdity that rules our world. --Booklist (starred review) Expansive and ambitious . . . incredible and complicated. --Library Journal This satiric morality play about the destruction of the Amazon rain forest unfolds with a diversity and fecundity equal to its setting. . . . Yamashita seems to have thrown into the pot everything she knows and most that she can imagine--all to good effect. --Publishers Weekly A Japanese man with a ball floating six inches in front of his head, an American CEO with three arms, and a Brazilian peasant who discovers the art of healing by tickling one's earlobe, rise to the heights of wealth and fame, before arriving at disasters--both personal and ecological--that destroy the rain forest and all the birds of Brazil.
