The Miracles of the Kasuga Deity Royall Tyler, 2016-04-05 In this annotated translation and study of an early fourteenth-century Japanese devotional picture scroll set, Royall Tyler illuminates the complex relationships between medieval Japanese religion and politics, text, and art. The Kasuga Gongen genki (The Miracles of the Kasuga Deity) mingles text and painting on silk to tell the tale of miraculous events at the Kasuga shrine in Nara, a site favored by the dominant Fujiwara clan for centuries. The work's values are aristocratic, but the text sheds light on the syncretic nature of the era's religious practices, allowing Tyler to collapse the distinction between high and low forms of medieval Japanese religion. Tyler provides a detailed examination of the scrolls, the shrine, and their history and political role. He also elucidates the scrolls' relationship to literary genre and religious practice, including the interaction between Shintoism and Buddhism. His copious annotations describe the work's historical context, as well as its religious and cultural influences. This study is essential for scholars of religion, art historians, and cultural historians alike.

The Cult of Kasuga Seen Through Its Art Susan C. Tyler, 1992 Michigan Monograph Series in Japanese Studies No. 8 The Cult of Kasuga Seen Through Its Art is a study of the syncretic cult of Kasuga Shrine at its height in the twelfth, thirteenth, and fourteenth centuries. It examines the relationships of the Buddhist and Shinto gods of the shrine and explains the soteriological function of their presence at Kasuga. Using visual art as well as stories and documents, it brings to life a medieval shrine cult and defines its contribution to Japanese religion.

The Protocol of the Gods Allan G. Grapard, 2023-04-28 The Protocol of the Gods is a pioneering study of the history of relations between Japanese native institutions (Shinto shrines) and imported Buddhist institutions (Buddhist temples). Using the Kasuga Shinto shrine and the Kofukuji Buddhist temple, one of the oldest and largest of the shrine-temple complexes, Allan Grapard characterizes what he calls the combinatory character of pre-modern Japanese religiosity. He argues that Shintoism and Buddhism should not be studied in isolation, as hitherto supposed. Rather, a study of the individual and shared characteristics of their respective origins, evolutions, structures, and practices can serve as a model for understanding the pre-modern Japanese religious experience. Spanning the years from a period before historical records to the forcible separation of the Kasuga-Kofukuji complex by the Meiji government in 1868, Grapard presents a wealth of little-known material. He includes translations of rare texts and provides new, accessible translations of familiar documents.

Akane Immigrant Poet Aiko Chikaba, Mitsuko Esperanza Kasuga, 2016-04-14 Mitsuko Kasuga (Pen name: Akane) emigrated from Japan to Mexico when she was young, and composed poetry in the form of classic Japanese tanka throughout her life. Her tanka carried her through the hardships of war and the loss of her husband, vividly describing life's joys and sorrows. This book recounts Akane's personal history and introduces 113 of her tanka in English, Spanish, and the original Japanese. Naoko Shin's English translations breathe new life into the inspired musings of this remarkable immigrant poet.

Jōkei and Buddhist Devotion in Early Medieval Japan James L. Ford, 2006-08-24 This is the first book-length study in any language of Jō kei (1155-1213), a prominent Buddhist cleric of the Hossō (Yog=ac=ara) school, whose life bridged the momentous transition from Heian (794-1185) to

Kamakura (1185-1333) Japan. Kamakura Buddhism has drawn notable scholarly attention, largely because it marks the emergence of new schools- Pure Land, Nichiren, and Zen-that came to dominate the Buddhist landscape of Japan. Although Jōkei is invariably cited as one of the leading representatives of established Buddhism during the Kamakura period, he has been seriously neglected by Western scholars. In this book, James L. Ford aims to shed light on this pivotal and long-overlooked figure. Ford argues convincingly that Jōkei is an ideal personage through which to peer anew into the socio-religious dynamics of early medieval Japan. Indeed, Jōkei is uniquely linked to a number of decisive trends and issues of dispute including: the conflict between the established schools and Hōnen's exclusive nenbutsu movement; the precept-revival movement; doctrinal reform efforts; the proliferation of prominent reclusive monks (tonseisō); the escalation of fundraising (kanjin) campaigns and popular propagation; and the conspicuous revival of devotion toward 'Sākyamuni and Maitreya. Jōkei represents a paradigm within established Buddhism that recognized the necessity of accessing other powers through esoteric practices, ritual performances, and objects of devotion. While Jōkei is best known as a leading critic of Hōnen's exclusive nenbutsu movement and a conservative defender of normative Buddhist principles, he was also a progressive reformer in his own right. Far from defending the status quo, Jōkei envisioned a more accessible, harmonious, and monastically upright form of Buddhism. Through a detailed examination of Jōkei's extensive writings and activities, Ford challenges many received interpretations of Jōkei's legacy and the transformation of Buddhism in early medieval Japan. This book fills a significant lacuna in Buddhist scholarship

Indoor Air Quality Hitoshi Kasuga,2012-12-06 Environmental tobacco smoke (ETS) as a harmful influence on the health of nonsmokers has been a controversial topic since the early 1980s. The International Conference on Indoor Air Quality held in Tokyo examined in great detail the relationship between passive smoking and lung cancer as revealed by a large cohort study. The participants were all highly qualified and experienced experts of world renown in their own fields of specialty. The deleterious effect of cigarette smoking on health is considered an established fact and as such has been used as a basic weapon in anti-smoking campaigns. There are, however, some questionable areas such as confronting variables, degree of correlation, the overall consistency of the data, and the problems of ETS measurement. Reports on other indoor pollution problems such as the presence of No2, CO, and particulates in indoor air, together with the problem of indoor air pollution in the lesser-developed countries were also given. This collection of papers will contribute greatly to research into tobacco smoking epidemiology and assist in establishing a clear focus on an issue which has tended to become hopelessly obscured.

Matsuri and Religion ,2021-08-30 This volume examines matsuri (festivals) from both urban and rural communities in Japan, showing their interconnectedness to religious life. Based on ethnographic research, authors explore historical change, identity, affect, cultural heritage, tourism,

and the intersection of religion with politics.

The Art of Revealing History Ya Decoopman,2019 The early 12th century set of illuminated handscrolls known as Kasuga gongen genki e, as a Japanese national treasure, has been widely discussed by researchers from art history and other fields since the beginning of the 20th century. However, little is known about its re-creations, even though making re-creations has been a common and important practice in Japanese art since the beginning. By comparing the authoritative Kasuga gongen genki e with its five complete re-creations in different aspects such as painting, calligraphy and patronage, this book demonstrates that each re-creation is an individual piece of art with its own aesthetic, social and historical meanings and values.
