

Katrina

J. Steven Picou, Keith Nicholls

What Was Hurricane Katrina? Robin Koontz, Who HQ, 2015-08-11 On August 25th, 2005, one of the deadliest and most destructive hurricanes in history hit the Gulf of Mexico. High winds and rain pummeled coastal communities, including the City of New Orleans, which was left under 15 feet of water in some areas after the levees burst. Track this powerful storm from start to finish, from rescue efforts large and small to storm survivors' tales of triumph.

Lost in Katrina Schaefer, Mikel, 2010-09-23 Lost in Katrina is powerful! It is the human experience during the worst storm in America's history. Mike Schaefer has captured the stories of those who not only miraculously survived, but went on to become heroes. --Angela Hill, WWL-TV anchor, New Orleans Mike Schaefer listens. And because he listens so well, we get to hear the real stories of Katrina and St. Bernard Parish. I've seen the aftermath there with my own eyes and thought what must it have been like when the storm hit, when the floods came? Now we know. And what a story. --Harry Smith, CBS News When friends ask me what Katrina was really like, this is the book I'll recommend to them. The individual stories Mike tells, of survival and loss, desperation and heroism, perfectly capture the unreal chaos that was Katrina. Even if, like I did, you think you know all about the storm and its aftermath, you'll find something new, and, no doubt, inspiring, in this book. --Tracy Smith, CBS News correspondent This book offers insightful, emotional accounts of life before, during, and immediately after Hurricane Katrina in a parish that seemingly disappeared from the government's sight. While President Bush was shaking hands with FEMA director Michael Browne (Brownie, as he will long be remembered) on the fourth day after the storm, St. Bernard Parish was struggling to salvage what they could. As the rest of the world watched the worst of humanity emerge on television, ordinary people did extraordinary things to save the parish that found itself almost completely submerged in floodwater. Heart-wrenching stories of the human will to survive offer an inside perspective on what it means to be a survivor of Hurricane Katrina.

Katrina Andy Horowitz, 2020-07-07 Winner of the Bancroft Prize Louisiana Endowment for the Humanities Book of the Year A Publishers Weekly Book of the Year "The main thrust of Horowitz's account is to make us understand Katrina—the civic calamity, not the storm itself—as a consequence of decades of bad decisions by humans, not an unanticipated caprice of nature." —Nicholas Lemann, New Yorker Hurricane Katrina made landfall in New Orleans on August 29, 2005, but the decisions that caused the disaster can be traced back nearly a century. After the city weathered a major hurricane in 1915, its Sewerage and Water Board believed that developers could safely build housing near the Mississippi, on lowlands that relied on significant government subsidies to stay dry. When the flawed levee system failed, these were the neighborhoods that were devastated. The flood line tells one important story about Katrina, but it is not the only story that matters. Andy Horowitz investigates the response to the flood, when policymakers made it easier for white New Orleanians to return home than for African Americans. He explores how the profits and liabilities created by Louisiana's oil industry have been distributed unevenly, prompting dreams of abundance and a catastrophic land loss crisis that continues today. "Masterful...Disasters have the power to reveal who we are, what we value, what we're willing—and unwilling—to protect." —New York Review of Books "If you want to read only one book to better understand why people in positions of power in government and industry do so little to address climate change, even with wildfires burning and ice caps melting and extinctions becoming a daily occurrence, this is the one." —Los Angeles Review of Books

Hurricane Katrina and the Flooding of New Orleans Mary K. Pratt, 2016-08 Explores, through the lens of cause and effect, what led to the disaster in New Orleans after Hurricane Katrina made landfall. --Publisher.

The Storm Ivor van Heerden, Mike Bryan, 2006-05-18 The ultimate inside story of the Katrina tragedy—from the cofounder of the LSU Hurricane Center After warning for years about the looming threat of catastrophic flooding in New Orleans, Ivor van Heerden was one of the highest-profile media experts during the Katrina disaster. Over the following eighteen months, he was even more prominent as he challenged the official version of those

events and campaigned for an engineering plan that would protect all of southeastern Louisiana, once and for all. In *The Storm*, van Heerden lays out in full detail the stunning incompetence among the bureaucrats, the politicians, and the Army Corps of Engineers that culminated in the catastrophe that crippled, perhaps forever, a great American city.

Hurricane Katrina Jeremy I. Levitt, Matthew C. Whitaker, 2009-01-01 On August 29, 2005, Hurricane Katrina slammed into the Gulf Coast states of Louisiana and Mississippi. The storm devastated the region and its citizens. But its devastation did not reach across racial and class lines equally. In an original combination of research and advocacy, *Hurricane Katrina: America's Unnatural Disaster* questions the efficacy of the national and global responses to Katrina's central victims, African Americans. This collection of polemical essays explores the extent to which African Americans and others were, and are, disproportionately affected by the natural and manmade forces that caused Hurricane Katrina. Such an engaged study of this tragic event forces us to acknowledge that the ways in which we view our history and life have serious ramifications on modern human relations, public policy, and quality of life.

Surviving Hurricane Katrina Kira Freed, 2015-07-15 This captivating book offers a close and exciting account of Hurricane Katrina and its aftermath, recounting what it was like to live through and survive this disaster. Readers will gain a unique perspective of the enormity of the tragedy and a greater appreciation of those who experienced it and survived its aftermath. With stunning images and gripping text, this book offers readers a new perspective of this tragedy, and readers will gain a greater appreciation for the power of mother nature.

Children of Katrina Alice Fothergill, Lori Peek, 2015-09-01 When children experience upheaval and trauma, adults often view them as either vulnerable and helpless or as resilient and able to easily "bounce back." But the reality is far more complex for the children and youth whose lives are suddenly upended by disaster. How are children actually affected by catastrophic events and how do they cope with the damage and disruption? *Children of Katrina* offers one of the only long-term, multiyear studies of young people following disaster. Sociologists Alice Fothergill and Lori Peek spent seven years after Hurricane Katrina interviewing and observing several hundred children and their family members, friends, neighbors, teachers, and other caregivers. In this book, they focus intimately on seven children between the ages of three and eighteen, selected because they exemplify the varied experiences of the larger group. They find that children followed three different post-disaster trajectories—declining, finding equilibrium, and fluctuating—as they tried to regain stability. The children's moving stories illuminate how a devastating disaster affects individual health and well-being, family situations, housing and neighborhood contexts, schooling, peer relationships, and extracurricular activities. This work also demonstrates how outcomes were often worse for children who were vulnerable and living in crisis before the storm. Fothergill and Peek clarify what kinds of assistance children need during emergency response and recovery periods, as well as the individual, familial, social, and structural factors that aid or hinder children in getting that support.

Hurricane Katrina Peggy Caravantes, 2014-09-01 Across the globe, devastating disasters have changed the course of history. This title brings Hurricane Katrina to life with well-researched, clearly written informational text, primary sources with accompanying questions, charts, graphs, diagrams, timelines, and maps, multiple prompts, and more. Explore the tragedies and triumphs of this disaster, how it helped shape the world as we know it, and how what we've learned from it has made the world a safer place. Heart Like Water Joshua Clark, 2007-07-10 Try it. Right now. Picture the lights going off in the room you're sitting in. The computer, the air conditioning, phones, everything. Then the people, every last person in your building, on the street outside, the entire neighborhood, vanished. With them go all noises: chitchat, coughs, cars, and that wordless, almost impalpable hum of a city. And animals: no dogs, no birds, not even a cricket's legs

rubbing together, not even a smell. Now bump it up to 95 degrees. Turn your radio on and listen to 80 percent of your city drowning. You're almost there. Only twenty-eight days to go. Joshua Clark never left New Orleans during Hurricane Katrina, choosing instead to band together with fellow holdouts in the French Quarter, pooling resources and volunteering energy in an effort to save the city they loved. When Katrina hit, Clark, a key correspondent for National Public Radio during the storm, immediately began to record hundreds of hours of conversations with its victims, not only in the city but throughout the Gulf: the devastated poor and rich alike; rescue workers from around the country; reporters; local characters who could exist nowhere else but New Orleans; politicians; the woman Clark loved, in a relationship ravaged by the storm. Their voices resound throughout this memoir of a unique and little-known moment of anarchy and chaos, of heartbreaking kindness and incomprehensible anguish, of mercy and madness as only America could deliver it. Paying homage to the emotional power of Joan Didion, the journalistic authority of Norman Mailer, and the gonzo irreverence of Tom Wolfe, Joshua Clark takes us through the experiences of loss and renewal, resilience and hope, in a city unlike any other. With lyrical sympathy, humility, and humor, *Heart Like Water* marks an astonishing and important national debut. A portion of the author's royalties from this book will go to the Katrina Arts Relief and Emergency Support (KARES) fund, which supports New Orleans-area writers affected by the storm. Hurricane Katrina Fletcher C. Finch, 2018-12-15 One of the deadliest and most destructive disasters in American history began with Hurricane Katrina striking the Gulf Coast in late August 2005. This noteworthy book explores the environmental factors, infrastructure issues, and human choices that contributed to the terrible damage. Along with exploring the hurricane's economic, political, and social legacy, readers will learn about the size and force of the storm, the experience of refugees in the Superdome, and the Federal Emergency Management Agency's response efforts. Carefully chosen images convey the scope of the damage and the devastating human cost.

Katrina Gary Rivlin, 2015-08-11 Ten years in the making, Gary Rivlin's *Katrina* is "a gem of a book—well-reported, deftly written, tightly focused....a starting point for anyone interested in how The City That Care Forgot develops in its second decade of recovery" (St. Louis Post-Dispatch). On August 29, 2005 Hurricane Katrina made landfall in southeast Louisiana. A decade later, journalist Gary Rivlin traces the storm's immediate damage, the city of New Orleans's efforts to rebuild itself, and the storm's lasting effects not just on the area's geography and infrastructure—but on the psychic, racial, and social fabric of one of this nation's great cities. Much of New Orleans still sat under water the first time Gary Rivlin glimpsed the city after Hurricane Katrina as a staff reporter for The New York Times. Four out of every five houses had been flooded. The deluge had drowned almost every power substation and rendered unusable most of the city's water and sewer system. Six weeks after the storm, the city laid off half its workforce—precisely when so many people were turning to its government for help. Meanwhile, cynics both in and out of the Beltway were questioning the use of taxpayer dollars to rebuild a city that sat mostly below sea level. How could the city possibly come back? "Deeply engrossing, well-written, and packed with revealing stories....Rivlin's exquisitely detailed narrative captures the anger, fatigue, and ambiguity of life during the recovery, the centrality of race at every step along the way, and the generosity of many from elsewhere in the country" (Kirkus Reviews, starred review). *Katrina* tells the stories of New Orleanians of all stripes as they confront the aftermath of one of the great tragedies of our age. This is "one of the must-reads of the season" (The New Orleans Advocate).

Standing in the Need Katherine E. Browne, 2015-09-01 *Standing in the Need* presents an intimate account of an African American family's ordeal after Hurricane Katrina. Before the storm struck, this family of one hundred fifty members lived in the bayou communities of St. Bernard Parish just outside New Orleans. Rooted there like the wild red iris of the coastal wetlands, the family had gathered for generations to cook and share homemade seafood meals, savor conversation, and refresh their interconnected lives. In this lively narrative, Katherine Browne weaves together voices and

experiences from eight years of post-Katrina research. Her story documents the heartbreaking struggles to remake life after everyone in the family faced ruin. Cast against a recovery landscape managed by outsiders, the efforts of family members to help themselves could get no traction; outsiders undermined any sense of their control over the process. In the end, the insights of the story offer hope. Written for a broad audience and supported by an array of photographs and graphics, *Standing in the Need* offers readers an inside view of life at its most vulnerable.

Hurricane Katrina Jamie Pietras, 2009-01-01 When the first signs of sunlight emerged from the trickling rain the morning of Monday, August 29, 2005, many residents of the city of New Orleans hoped the worst was behind them. Hours earlier, the tropical hurricane known as Katrina made landfall at an area just 70 miles to the southeast of the city, tearing the roofs off buildings and tossing boats like confetti. Tens of thousands of survivors in need of food, water, and medical attention sat stranded along the city's sweltering highways and in the Superdome and Convention Center. Worse, others remained trapped in their damaged homes. In an attempt to coordinate relief efforts, the Federal Emergency Management Agency implemented strict disaster-response rules that made it difficult for organizations to offer assistance and waited a precious five days before sending much-needed supplies to the Convention Center. *Hurricane Katrina* explains how the disaster stands among the worst in U.S. history, killing more than 1,600 people, and destroying 200,000 homes along the Gulf Coast. More than a million fled the Gulf region, where economic losses and property damages from flooding were expected to reach a record \$125 billion.

Caught in the Path of Katrina J. Steven Picou, Keith Nicholls, 2019-12-04 In 2008, three years after Hurricane Katrina cut a deadly path along the northern coast of the Gulf of Mexico, researchers J. Steven Picou and Keith Nicholls conducted a survey of the survivors in Louisiana and Mississippi, receiving more than twenty-five hundred responses, and followed up two years later with more than five hundred of the initial respondents. Showcasing these landmark findings, *Caught in the Path of Katrina* yields a more complete understanding of the traumas endured because of the Storm of the Century. The authors report on evacuation behaviors, separations from family, damage to homes, and physical and psychological conditions among residents of seven of the parishes and counties that bore the brunt of Katrina. The findings underscore the frequently disproportionate suffering of African Americans and the agonizingly slow pace of recovery. Highlighting the lessons learned, the book offers suggestions for improved governmental emergency management techniques to increase preparedness, better mitigate storm damage, and reduce the level of trauma in future disasters. Multiple major hurricanes have unleashed their destruction in the years since Katrina, making this a crucial study whose importance only continues to grow.

CNN Reports: Hurricane Katrina , 2005-10 CNN Reports: Katrina-State of Emergency provides a chronological account of the hurricane through a selection of CNN transcripts and photos documenting all facets of the disaster starting from past studies predicting such a tragedy to the path of the hurricane to the consequences surrounding the flooding and delayed rescue efforts. The book details events in New Orleans and along the Gulf Coast in the days before Hurricane Katrina made landfall and the subsequent weeks of those communities recovering from its destructive wake. The book includes first-hand accounts from many of the more than 200 CNN anchors, correspondents, and production members dispatched to Louisiana, Mississippi, Alabama, Texas, and Tennessee to cover the aftermath. CNN will donate all royalties to the American Red Cross Hurricane Katrina Disaster Relief Fund, with AMP matching that donation.

Hurricane Katrina Blake Hoena, 2014 Describes the people and events involved during Hurricane Katrina in 2005. The reader's choices reveal the historical details--

Floodlines Jordan Flaherty, 2010-09 *Floodlines* is a firsthand account of community, culture, and resistance in New Orleans. The book weaves together the stories of gay rappers, Mardi Gras Indians, Arab and Latino immigrants, public housing residents, and grassroots activists in the years

before and after Katrina. From post-Katrina evacuee camps to torture testimony at Angola Prison to organizing with the family members of the Jena Six, Floodlines tells the stories behind the headlines from an unforgettable time and place in history.

The Great Deluge Douglas Brinkley, 2009-10-13 In the span of five violent hours on August 29, 2005, Hurricane Katrina destroyed major Gulf Coast cities and flattened 150 miles of coastline. But it was only the first stage of a shocking triple tragedy. On the heels of one of the three strongest hurricanes ever to make landfall in the United States came the storm-surge flooding, which submerged a half-million homes—followed by the human tragedy of government mismanagement, which proved as cruel as the natural disaster itself. In *The Great Deluge*, bestselling author Douglas Brinkley finds the true heroes of this unparalleled catastrophe, and lets the survivors tell their own stories, masterly allowing them to record the nightmare that was Katrina.

Katrina Papers Jerry W. Ward, 2008 Dr. Jerry W. Ward, Jr. fuses autobiography, politics, spirituality, history, and poetry in a highly inventive and unusual trip through the aftermath of Hurricane Katrina. Ward's house and the university campus where he worked as a professor were both flooded in the storm. It is from this trauma that Ward scrambles to find hope and sanity in a world ruled by the fact that thousands have been abused by Nature and revenge is impossible.
