Skipper vs Crew / Crew vs Skipper Tim Davison, 2013-01-03 Skippers and crew have very different agenda, and nowhere does it become more evident than in their secret innermost - but not very often expressed - thoughts about the other. This brilliantly original humour giftbook has two beginnings. Opened one way it sends up skippers (from the crew’s point of view). Flipped over and opened the other way it sends up crew instead (from the skipper’s perspective). Bringing into play all the scenarios that cause stress, hilarity, scorn, angst and difficulty on a boat, when both sides co-exist in close proximity, this is a tongue in cheek send-up of each side that the other will heartily relate to and endorse. This is a book with universal humour which will travel everywhere there are crews at the mercy of slave-driving or incompetent skippers or skippers cursed with lazy or imbecilic crew. Cartoons help bring to life the inherent humour of the relationships between skippers and their crews.

Heaven Born Merida and Its Destiny Munro S. Edmonson, 2010-06-28 When the Spaniards conquered the Yucatan Peninsula in the early 1500s, they made a great effort to destroy or Christianize the native cultures flourishing there. That they were in large part unsuccessful is evidenced by the survival of a number of documents written in Maya and preserved and added to by literate Mayas up to the 1830s. The Book of Chilam Balam of Chumayel is such a document, literally the history of Yucatan written by and for Mayas, and it contains much information not available from Spanish sources because it was part of an underground resistance movement of which the Spanish were largely unaware. Well known to Mayanists, The Book of Chilam Balam of Chumayel is presented here in Munro S. Edmonson’s English translation, extensively annotated. Edmonson reinterprets the book as literature and as history, placing it in chronological order and translating it as poetry. The ritual nature of Mayan history clearly emerges and casts new light on Mexican and Spanish acculturation of the Yucatecan Maya in the post-classic and colonial periods. Centered in the city of Merida, the Chumayel provides the western (Xiu) perspective on Yucatecan history, as Edmonson’s earlier book The Ancient Future of the Itza: The Book of Chilam Balam of Tizimin presented the eastern (Itza) viewpoint. Both document the changing calendar of the colonial period and the continuing vitality of pre-Columbian ritual thought down to the nineteenth century. Perhaps the biggest surprise is the survival of the long-count dating system down to the Baktun Ceremonial of 1618 (12.0.0.0.0). But there are others: the use of rebus writing, the survival of the tun until 1752, graphic if oblique accounts of Mayan ceremonial drama, and the depiction of the Spanish conquest as a long-term inter-Mayan civil war.

The Dravidian Languages Bhadriraju Krishnamurti, 2003-01-16 The Dravidian languages are spoken by over 200 million people in South Asia and in diaspora communities around the world, and constitute the world’s fifth largest language family. It consists of about 26 languages in total including Tamil, Malayalam, Kannada and Telugu, as well as over 20 non-literary languages. In this book, Bhadriraju Krishnamurti, one of the most eminent Dravidianists of our time, provides a comprehensive study of the phonological and grammatical structure of the whole Dravidian family from different aspects. He describes its history and writing systems, discusses its structure and typology, and considers its lexicon. Distant and more recent contacts between Dravidian and other language groups are also discussed. With its comprehensive coverage this book will be welcomed by all students of Dravidian languages and will be of interest to linguists in various branches of the discipline as well as Indologists.

Indo-Muslim Cultures in Transition Alka Patel, Karen Leonard, 2011-12-07 The authors in this volume analyze the rich layers of circulation and exchange of art, architecture, and literature within South Asia from the sixteenth through the twentieth centuries, focusing on the interaction of Muslims and Islamic traditions with other people and traditions there.

Small Stories, Interaction and Identities Alexandra Georgakopoulou, 2007 Narrative research is frequently described as a diverse enterprise, yet the kinds of narrative data that it bases itself on present a striking consensus: they tend to be autobiographical and elicited in interviews. This book sets out to carve out a space alongside this narrative canon for stories that have not made it to the mainstream of narrative and identity analysis, yet they abound as well as being crucial sites of subjectivity in everyday interactional contexts. By labelling those stories as ‘small’, the book emphasizes their distinctiveness, both interactionally and as an antidote to the tradition of ‘grand’ narratives research. Drawing primarily on the audio-recorded small stories of a group of female adolescents that was studied ethnographically in a town in Greece, the book follows a language-focused and practice-based approach in order to provide fresh answers and perspectives on some of the perennial questions of narrative analysis: How can we (re)conceptualize the mainstay concepts of tellership, structure and evaluation in small stories? How do the participants’ telling identities connect with their larger social identities? Finally, what does the project of storying self (and other) mean in small stories and how can it be best explored?
