A Dictionary, Hindustani and English Duncan Forbes, 1848

BALTI AUR MAGGA : Embrace The Mediocrity K. A. Sri Priya , 'Balti aur magga' is a gripping metaphor referring to the middle class significance of allotting time to daily life chores- bathing sited here, which is as less as taking bath with one bucket of water. Embracing mediocrity is a thought that occurs out of the blue and to

make people aware of it is this book's motto as it draws its attention onto many fascinating articles. Poems and short stories.

Mobility and Migration in Indigenous Amazonia

Miguel N. Alexiades, 2009 Contrary to ingrained academic and public assumptions, wherein indigenous lowland South American societies are viewed as the product of historical emplacement and spatial stasis, there is widespread evidence to suggest that migration and displacement have been the norm, and not the exception. This original and thought-provoking collection of case studies examines some of the ways in which migration, and the concomitant processes of ecological and social change, have shaped and continue to shape human-environment relations in Amazonia. Drawing on a wide range of historical time frames (from pre-conquest times to the present) and ethnographic contexts, different chapters examine the complex and important links between migration and the classification, management, and domestication of plants and landscapes, as well as the incorporation and transformation of environmental knowledge, practices, ideologies and identities.

A Dictionary of Ila Usage, 1860-1960 Dennis G. Fowler, 2000 This book is based on material collected by missionaries at Kasenga Mission in Zambia. Edwin Smith began in 1901 to note each new Ila word, together with illustrative sentences dictated by his Ila informants. Later missionaries continued this practice, so that in 1959 the author found a mass of over 12,000 items already collected. As the largest body of Ila ever assembled, the dictionary offers much of interest in several fields. The language has a consistent agglutinative structure of great sophistication, logical as Latin, flexible as Greek. The speakers reveal not merely the preoccupations of daily existence in Ila villages a century ago, but an outlook both sensitive and wryly humorous. Feared in battle, fearful of spirits, revering God; hunters of lion and buffalo, polygamous, romantic, ribald in men's company, but highly proper in women's, tender towards children, with a high regard for the arts of hospitality, conversation, and love, the Baila spring with verve from these pages. Appendices list nearly 2,000 synonyms, 276 proverbs, 164 metaphors, 216 customs, 400 trees with their medicinal uses, 290 plants, 150 birds, and grammatical tables.
