*Kenworth Trucks of the 1950s* Ron Adams,2011-12-01 For Kenworth, the 1950s were some of its most exciting years. A financial windfall started out the decade, with a special truck built for ARAMCO that became a standard at oil sites around the world. In the mid 1950s Kenworth began building trucks in Canada and developed a new design with the cab beside the engine, upping the cargo capacity by 1,000 pounds and offering greatly improved visibility for the driver. In 1956 the company became a subsidiary of the Pacific Car and Foundry Company and under new ownership the 900 model, with a lighter, shorter chassis, was introduced. And, in 1957 the first tilt cab over engine was introduced with easier access to the engine and transmission for servicing. See the huge variety of Kenworths moving goods to Americans at the start of boom times.

**Kenworth Trucks** Ron Adams,2005-10-16 Founded in 1923, Kenworth has since become one of the most recognized names in American truck manufacturing. This book highlights the golden era of trucking in crisp period photographs that present a variety of trucking companies and their Kenworth trucks - in action. Kenworth trucks are featured at work in a variety of settings and jobs - from logging to hauling all types of commodities,

including grain, oil and gasoline, livestock, lumber and meat. Photo shots include the many types of trailers used in moving goods from place to place. A visual treat for the Kenworth enthusiast.

**Kenworth Defining Tomorrow** Marcella Hunter,Myles Hartley,Philip Spencer,2011

The name 'Kenworth' is a legend in Australian trucking. ... Originally imported from America, these heavy-duty workhorses are now manufactured locally, and can be seen throughout Australia in rugged and remote areas, in regional centres and also on city streets, where their distinctive grills set them apart from other brands. Today they can be found in nearly every industry around the country, from livestock haulage and refrigerated transport to mining and logging. ... Kenworth defining tomorrow proudly celebrates the 40th anniversary of Kenworth in Australia. ... it continues the story told in Kenworth making history and plays tribute to the many people who have played a part in establishing the Bayswater plant as an internationally competitive manufacturing base in Australia.--Dust jacket gate fold.

**First Custom-Built Trucks for Australia** Edwin (Ed) Cameron,Orangehammer Marketing Communications,2014-12-09 This is a story of the pioneering of motor transport, beginning at Doncaster in Victoria delivering fruit in the 1940s. After World War 2, Ed

Cameron and his brothers were the driving force began regular deliveries of produce from Melbourne to Sydney. They formed the D&E Cameron transport company, to battle the primitive Hume Highway. Frustrated by the inadequacies of the available European and British trucks, Ed found the solution by importing the first Kenworths to Australia. It was through his efforts that Kenworth set up at Bayswater in Victoria, to produce trucks custom-built for Australian long-haul transport conditions. D&E Cameron ceased operations in the 1970s, but the name continues as Ed's son runs the very successful Glen Cameron Group, as one of Australia's leading transport operations. In this book, Ed Cameron tells the Kenworth story against the background of his family history, and the diversity of his interests following his life on the roads.
