

Kilo Class

Anthony H. Cordesman, Steven Colley

Kilo Class Patrick Robinson,2009-10-13 It's one of the stealthiest, most dangerous underwater warships ever built—and it's about to set off World War III. Silent at less than five knots and capable of a massive nuclear warhead punch, it's the 240-foot Russian Kilo Class submarine. Strapped for hard cash, the Russians have produced ten new Kilos for Beijing. The Chinese have already received three of the subs and now the last seven are ready to be delivered—a code-red situation the Pentagon must avert. Armed with a full strike force of Kilos, China can cripple American interests, shatter the balance of power, and successfully achieve the unthinkable in the Pacific Rim. But not if the newly appointed National Security Adviser, wily Texas admiral Arnold Morgan, can stop them—using the navy's deadliest covert forces. In a breathtaking race against time, a team of Navy SEALs penetrates deep inside the remote waters of northern Russia on a daring mission of destruction. And in the icy darkness of the North Atlantic, a brave U.S. captain takes his 7,000-ton nuclear vessel on a hair-raising trip beneath the polar ice cap to head off a powerful Russian cordon determined to transport the Kilos at any cost. Horns locked in a tense game of geomilitary survival, each of the world's three most powerful nations knows that one mistake will mean all-out war.

Kilo Option Sean Flannery,1997-09-15 Military intelligence analyst Bill Lane must stop nuclear weapons from falling into the wrong hands, in a fast-paced international thriller from the author of *Winner Take All*. Reprint.

Kilo Class Patrick Robinson,2015-08-31 Nach Nimitz Class der neue U-Boot-Thriller von Patrick Robinson. China rüstet zur Seemacht auf, um Taiwan an sich zu reißen. Russland braucht Geld und verkauft U-Boote. Die USA sehen ihre Interessen bedroht. Eine tödliche Jagd beginnt und von ihrem Ausgang hängt der Weltfrieden ab. Ein packendes militärisches Planspiel über die nahe Zukunft.

Chinese Strategy and Military Modernization in 2015 Anthony H. Cordesman,Steven Colley,2016-01-12 China's emergence as a global economic superpower, and as a major regional military power in Asia and the Pacific, has had a major impact on its relations with the United States and its neighbors. China was the driving factor in the new strategy the United States announced in 2012 that called for a "rebalance" of U.S. forces to the Asia-Pacific region. At the same time, China's actions on its borders, in the East China Sea, and in the South China Sea have shown that it is steadily expanding its geopolitical role in the Pacific and having a steadily increasing impact on the strategy and military developments in other Asian powers.

Classe Kilo Patrick Robinson,1999 The US Department of Defense is well aware of China's intention to shut the US Carrier Battle Groups out of the Taiwan Strait and then to reclaim, by military force if necessary, the rich independent island that sits only one hundred miles off China's eastern

coastline.

The Impact of Chinese Naval Modernization on the Future of the United States Navy Ronald O'Rourke,2006 China's rapidly developing military capabilities have forced US policy makers to reconsider their own military infrastructure. The primary concern of this book is to examine how China's military modernisation will be factored into decisions about US Navy programs. Several elements of China's military modernisation have potential implications for future required US Navy capabilities. These include theatre-range ballistic missiles (TBMs), land-attack cruise missiles (LACMs), anti-ship cruise missiles (ASCMs), surface-to-air missiles (SAMs), land-based aircraft, submarines, surface combatants, amphibious ships, naval mines, nuclear weapons, and possibly high-power microwave (HPM) devices. This book will examine how these elements and others will influence the future of the United States Navy.

The Dynamics of Russian Weapon Sales to China Stephen Blank,1997 Russia has recently sold or transferred many military weapons or technologies to China. Russian state policy has also officially joined with China in a relationship described as a strategic cooperative partnership. Some Russian diplomats also say that there is virtually complete identity with China on all issues of Asian and global security. Dr. Stephen Blank examines this relationship carefully for what it reveals about both states' international security policies.

The Silent Service: Virginia Class H. Jay Riker,2009-03-17 A crew of American naval submariners go up against an unidentified terrorist threat in this military thriller from a U.S. Navy veteran. The U.S.S. Virginia—the first in the most technologically advanced new class of U.S. attack submarines—sets sail, even as the Navy's high-tech submarine program falls under attack from a Congress ready to cut military spending. But a threat no one anticipated is gliding silently through dangerous waters. A rogue Kilo-class submarine built by a shadowy and powerful ally has become the latest weapon in al Qaeda's terrorist arsenal. The submarine's brutal strikes have created a volatile hostage situation in the Pacific . . . and have left hundreds of people dead. This new and stealthy terrorist threat must be eliminated before more innocent lives are lost. But the officers, crew, and Navy SEALs aboard the Virginia will face more than they anticipated in the turbulent waters of the South China Sea—as one untried American sub races toward an explosive confrontation with a cunning, and ruthless enemy.
