**Spectacles of Authenticity** Hsuan Tsen, 2011 In the late-nineteenth and early twentieth centuries, America and Japan were in the process of establishing their positions as powers in a world dominated by Western Europe. The two nations with unconnected histories and cultures found themselves in momentary sympathy as they embarked on their first forays into military imperialism, expanded their trade, and constructed civic institutions intended to compete with those of Europe. It was during this period that mass entertainments developed and began circulating across national borders and, drawing on tourist practices, helped create a universal visual culture which coexisted with local particularities. This dissertation undertakes a study of Japanese and American shared visual culture and modern entertainments with the goal of nuancing current scholarship on East/West exchanges and expanding the definition of modernity. Three modern phenomena, panoramas, World's Fairs, and film, form the core of my three main chapters and describe a process of appropriation, assimilation, and collaboration through their movements from Europe, across America to Japan, and ending with a return to America. Many scholars have observed that Americans viewed Japan as a confusing cultural other with a baffling skill at appearing modern. This dissertation begins with the premise that Japan was modern and re-examines American and Japanese cultural exchanges from this position with the aim of shifting the paradigms of modernity and modern visuality.

**Terrorism for Self-glorification** Albert Borowitz, 2005 In this timely study of the roots of terrorism, author Albert Borowitz deftly assesses the phenomenon of violent crime motivated by a craving for notoriety or self-glorification. He traces this particular brand of terrorism back to 356 BCE and the destruction of the Temple of Artemis at Ephesus by arsonist Herostratos and then examines similar crimes through history to the present time, detailing many examples of what the author calls the Herostratos Syndrome, such as the attempted explosion of the Greenwich Observatory in 1894, the Taliban's destruction of the giant Buddhas in Afghanistan, the assassination of John Lennon, the Unabomber strikes, and the attacks on the World Trade Center buildings. terrorism cannot be the exclusive focus of a single field of scholarship, Borowitz presents this complex subject using sources based in religion, philosophy, history, Greek mythology, and world literature, including works of Chaucer, Cervantes, Mark Twain, and Jean-Paul Sartre. *Terrorism for Self-Glorification*, written in clear and direct prose, is original, thorough, and thought provoking. Scholars, specialists, and general readers will find their understanding of terrorism greatly enhanced by this book.

**Shots in the Dark** Shoji Yamada,2020-06-24 In the years after World War II, Westerners and Japanese alike elevated Zen to the quintessence of spirituality in Japan. Pursuing the sources of Zen as a Japanese ideal, Shoji Yamada uncovers the surprising role of two cultural touchstones: Eugen Herrigel's Zen in the Art of Archery and the Ryoanji dry-landscape rock garden. Yamada shows how both became facile conduits for exporting and importing Japanese culture. First published in German in 1948 and translated into Japanese in 1956, Herrigel's book popularized ideas of Zen both in the West and in Japan. Yamada traces the prewar history of Japanese archery, reveals how Herrigel mistakenly came to understand it as a traditional practice, and explains why the Japanese themselves embraced his interpretation as spiritual discipline. Turning to Ryoanji, Yamada argues that this epitome of Zen in fact bears little relation to Buddhism and is best understood in relation to Chinese myth. For much of its modern history, Ryoanji was a weedy, neglected plot; only after its allegorical role in a 1949 Ozu film was it popularly linked to Zen. Westerners have had a part in redefining Ryoanji, but as in the case of archery, Yamada's interest is primarily in how the Japanese themselves have invested this cultural site with new value through a spurious association with Zen.
