Suicide or Murder Ian Ross Vayro,2023-07-21 Mina, a Lufthansa flight attendant, and Adam, a trainee police detective, establish a loving relationship formed around an astounding story (purported to be true) that boggled police investigators and medical examiners in LA. The story investigates the legal ramifications associated with a bizarre death that was chosen as the most unusual case on record for presentation at the 25th Anniversary dinner of the American Association of Forensic Scientists. It may be difficult to envisage a growing romance within the confines of a murder mystery; however, the unusually volatile pressures and emotions that surround this case are, in fact, the perfect vehicle to exhibit the unique personalities of the involved characters. This story is sometimes bizarre and sometimes amusing and it becomes quite difficult to keep in mind that a large part of it is claimed to have really happened.

The Music Sound Nicolae Sfetcu,2014-05-07 A guide for music: compositions, events, forms, genres, groups, history, industry, instruments, language, live music, musicians, songs, musicology, techniques, terminology , theory, music video. Music is a human activity which involves structured and audible sounds, which is used for artistic or aesthetic, entertainment, or ceremonial purposes. The traditional or classical European aspects of music often listed are those elements given primacy in European-influenced classical music: melody, harmony, rhythm, tone color/timbre, and form. A more comprehensive list is given by stating the aspects of sound: pitch, timbre, loudness, and duration. Common terms used to discuss particular pieces include melody, which is a succession of notes heard as some sort of unit; chord, which is a simultaneity of notes heard as some sort of unit; chord progression, which is a succession of chords (simultaneity succession); harmony, which is the relationship between two or more pitches; counterpoint, which is the simultaneity and organization of different melodies; and rhythm, which is the organization of the durational aspects of music.

Rise and Fall of Australia, The Nick Bryant, 2015 A forensic look at the Lucky Country, from the inside and outside. Never before has Australia enjoyed such economic, commercial, diplomatic and cultural clout. Its recession-proof economy is the envy of the world. It's the planet's great lifestyle superpower. Its artistic exports win unprecedented acclaim. But never before has its politics been so brutal, narrow and facile, as well as being such a global laughing stock. A positive national story is at odds with a deeply unattractive Canberra story. The country should be enjoying The Australian Moment, so vividly described by the best-selling author George Megalogenis. But that description may turn out to be inadvertently precise. It could end up being just that: a fleeting moment. At present the country seems to be in speedy regression, with the nation's leaders, on both sides, mired in relatively small problems, such as the arrival of boat people, rather than mapping out a larger and more inspiring national future. In *The Rise and Fall of Australia*, BBC correspondent and author Nick Bryant offers an outsider's take on the great paradox of modern-day Australian life: of how the country has got richer at a time when its politics have become more impoverished. In this thoroughly entertaining and thought-provoking book, dealing with politics, racism, sexism, the country's place in the region and the world, culture and sport, the author argues that Australia needs to discard the out-dated language used to describe itself, to push back against Lucky Country thinking, to celebrate how the cultural creep has replaced the cultural cringe and to stop negatively typecasting itself. Rejecting most of the national stereotypes, Nick Bryant sets out to describe the new Australia rather than the mythic country so often misunderstood not just by foreigners but Australians themselves.

Combating Desertification in Asia, Africa and the Middle East G. Ali Heshmati, Victor R. Squires, 2013-07-01 This book is about the 'how' of desertification control as opposed to an analysis of the 'why' and fills a gap in the desertification-related literature in that it shows what to do in situations ranging from fixing mobile sands to arresting accelerated soil erosion in sloping lands. There are numerous illustrations to show the successful techniques. This compilation demonstrates that desertification and land degradation can be controlled and reversed with existing techniques in such widely varying environments as the Sahel of Africa to Sri Lanka and the Philippines in SE Asia, from mountains in Lesotho to low lands on desert margins in Mongolia. Proven approaches include technical interventions, changes in governance and to the legislative framework and policy reform. The book fills a gap in the desertification-related literature in that it shows what to do in situations ranging from fixing mobile sands to arresting accelerated soil erosion in sloping lands.

The 100 Best Australian Albums John O'Donnell, Toby Creswell, Craig Mathieson, 2011-08-01 Australian music has a proud, colourful and successful history. In 2008, Australian rock and roll turned 50. This book names the best Australian albums of the last 50 years. It places each album in order (from 1 to 100) and discusses why each album deserves its place. It tells the story behind the making of the album, where the album fits in the artist's career and the album's impact on the local and world stage etc. The entries will feature new interviews with the artists and the producers/managers involved in the recording and the release of the album. It wouldn't be a good list if it didn't polarise people and we hope that this list will. We also hope that it will get people sitting around comparing their favourites and discovering or re-discovering these great albums and others. With 70 years of loving and writing about Australian music between us, we shamelessly believe we've earned the right to write this book. And we think we've got it right. Let the debate begin. o u John O'Donnell, April 2010 Finally, here is a much-needed list of argument-starting top 100 seminal/ influential/essential Australian albums of all time. Let the fight begin!

Scar Tissue Anthony Kiedis, Larry Sloman, 2004-10-01 In this vivid and inspiring New York Times bestseller (Newsweek), the Red Hot Chili Peppers' lead singer and songwriter shares a searingly honest account of life in the rock scene's fast lane—from the darkness into the light. In 1983, four self-described knuckleheads burst out of the mosh-pitted mosaic of the neo-punk rock scene in L.A. with their own unique brand of cosmic hardcore mayhem funk. Over twenty years later, the Red Hot Chili Peppers, against all odds, have become one of the most successful bands in the world. Though the band has gone through many incarnations, Anthony Kiedis, the group's lyricist and dynamic lead singer, has been there for the whole roller-coaster ride. In *Scar Tissue*, Kiedis delivers a compelling life story from a man in love with everything—the darkness, the death, the disease. Even his descent into drug addiction was a part of that journey, another element transformed into art. Whether he's honoring the influence of the beautiful, strong women who have been his muses or remembering the roaring crowds of Woodstock and the Dalai Lama's humble compound, Kiedis shares a compelling story about the price of success and excess. *Scar Tissue* is a story of dedication and debauchery, of intrigue and integrity, of recklessness and redemption—a story that could only have come out of the world of rock.
