Forging Stalin's Army Sally W Stoecker,2018-02-19 This innovative study examines the early years of the Red Army as it developed from a revolutionary partisan force into a modern, professional institution under the leadership of Mikhail Tukhachevsky, an important and controversial figure in the politics of the Stalin period. Sally Stoecker combines her institutional analysis of the formative period of the Soviet military with an astute look at the person and political maneuvers of Marshal Tukhachevsky and his complex relationship with Stalin, which eventually led to his spectacular downfall and execution in the Great Terror of the late 1930s. }This innovative study

Soviet-German Non-aggression Pact Explained M. Zhdanov, Kliment Efremovich Voroshilov, 1939

Stalin and the Soviet-Finnish War, 1939-1940 E. N. Kulkov, Oleg Aleksandrovich Rzheshhevskii, Harold Shukman, 2014 From 14-17 April 1940, a meeting was held in the Kremlin to examine and analyze the performance of the Red Army in the recent Soviet-Finnish War. The participants were all the army commanders who had taken part in the campaign, and some members of the Politburo, notably Stalin, Molotov and Voroshilov. This book is an English translation of the verbatim record held in the Russian State Socio-Political History Archives in Moscow. Marshals Kliment Voroshilov and Grigory Kulik co-

chaired the sessions, but it was Stalin who guided the proceedings. Forty-six regimental, divisional, corps, army and front commanders, and senior Red Army officials delivered their reports and engaged in debate. Stalin gave a long speech at the closing of the last session in which he expounded his views on all aspects of military policy. This unique document is the sole verbatim record of a secret meeting at which fundamental issues of military policy and the state of the armed forces were discussed, and a programme of further military construction chartered. The report reveals the atmosphere of Soviet summits, as well as the mentality of senior figures. It conveys a real picture of the war through the eyes of the responsible participants, from political leaders to commanders of military units. The materials of the meeting are a valuable source for the study of the history of the Soviet Union and international relations during a time of complex diplomatic manoeuvring. They clarify the mechanisms of decision-making by Soviet leaders at the onset of the World War II, and depict specific features of the dictatorial autocracy which overwhelmingly determined the life of the Soviet Union and the Soviet Armed Forces.--Publisher description.

Stalin's Falcons Dmitry Zubov, 2024-06-13 In this stunning exposé, Dmitry Zubov reveals the dark truth of the terrible losses suffered by Soviet flyers, the inferiority of the Russian aircraft on World War II's Eastern Front, and the almost slave-like conditions in which those aircraft were made. The Soviet history of the Second World War, written under the conditions of a totalitarian regime, reflected all its features, with the result that it includes solid sets of patriotic fables that have no connection with reality. Many of the events of the war were distorted beyond recognition or even made up from beginning to end. Archives containing original documents were available only to selected, specially verified KGB 'historians' who presented only the version of the war that was acceptable to the Soviet regime. After the collapse of the Soviet Union, the process of declassifying archives and gaining wide access to information gradually began to reveal the terrible truth of the crimes of the Soviet regime. One of which, of course, was the incompetent leadership of the Red Army, which led to massive loss of life across the military and civilians alike. However, the consequences of decades of Soviet propaganda had a strong impact on both

Russian and world historical science. Because of this, not only Russian, but, unfortunately, many European and American historians found themselves repeating the Soviet myths they had been fed. The history of Soviet fighter aircraft did not escape this fate. The tale of Stalin's so-called 'Falcons', who allegedly shot down dozens and even hundreds of Luftwaffe aircraft, was persistently drummed into the heads of many generations of Russian people. These heroes, supposedly, flew Soviet fighters whose technical characteristics were many times superior to their German counterparts, with the result that Luftwaffe aces were reportedly afraid of meeting them in the air. These primitive propaganda clichés became a model for describing the actions of Stalin's fighter aircraft. In this stunning exposé, Stalin's Falcons reveals the stark and dark truth of the terrible losses suffered by Soviet flyers, the inferiority of the Russian aircraft and the almost slave-like conditions in which those aircraft were made.

Memoirs of Nikita Khrushchev Nikita Sergeevich Khrushchev, Serge_ Khrushchev, 2004 Nikita Khrushchev's proclamation from the floor of the United Nations that "we will bury you" is one of the most chilling and memorable moments in the history of the Cold War, but from the Cuban Missile Crisis to his criticism of the Soviet ruling structure late in his career, the motivation for Khrushchev's actions wasn't always clear. Many Americans regarded him as a monster, while in the USSR he was viewed at various times as either hero or traitor. But what was he really like, and what did he

really think? Readers of Khrushchev's memoirs will now be able to answer these questions for themselves (and will discover that what Khrushchev really said at the UN was "we will bury colonialism"). This is the second volume of three in the only complete and fully reliable version of the memoirs available in English. In the first volume, published in 2004, Khrushchev takes his story up to the close of World War II. In the first section of this second volume, he covers the period from 1945 to 1956, from the famine and devastation of the immediate aftermath of the war to Stalin's death, the subsequent power struggle, and the Twentieth Party Congress. The remaining sections are devoted to Khrushchev's recollections and thoughts about various domestic and international problems. In the second and third sections, he recalls the virgin lands and other agricultural campaigns and his dealings with nuclear scientists and weapons designers. He also considers other sectors of the economy, specifically construction and the provision of consumer goods, administrative reform, and questions of war, peace, and disarmament. In the last section, he discusses the relations between the party leadership and the intelligentsia. Included among the Appendixes are the notebooks of Nina Petrovna Kukharchuk, Khrushchev's wife.

Normandy Olivier Wieviorka, 2008 The Allied landings on the coast of Normandy have assumed legendary status. But overly romanticizing D-day, Wieviorka argues, loses sight of the full picture. Normandy offers a balanced, complete account that reveals the successes and weaknesses of the titanic enterprise.
