Challenging the dominant museum models of art and history that have been so exclusive of women's artistic contributions to the twentieth century, the virtual feminist museum stages some of the complex relations between femininity, modernity and representation. Featuring studies of Canova's Three Graces and women artist's modernist reclamations of the female body, the book traverses the rupture of fascism and the Holocaust and ponders the significance of painting and drawing in their aftermath. Artists featured include: Georgia O'Keeffe, Josephine Baker, Gluck, Charlotte Salomon, Bracha Ettinger and Christine Taylor Patten.
