Colonialism and Modern Architecture in Germany Itohan Osayimwese, 2017-08-11 Over the course of the nineteenth century, drastic social and political changes, technological innovations, and exposure to non-Western cultures affected Germany's built environment in profound ways. The economic challenges of Germany's colonial project forced architects designing for the colonies to abandon a centuries-long, highly ornamental architectural style in favor of structural technologies and building materials that catered to the local contexts of its remote colonies, such as prefabricated systems. As German architects gathered information about the regions under their influence in Africa, Asia, and the Pacific—during expeditions, at international exhibitions, and from colonial entrepreneurs and officials—they published their findings in books and articles and organized lectures and exhibits that stimulated progressive architectural thinking and shaped the emerging modern language of architecture within Germany itself. Offering in-depth interpretations across the fields of architectural history and postcolonial studies, Itohan Osayimwese considers the effects of colonialism, travel, and globalization on the development of modern architecture in Germany from the 1850s until the 1930s. Since architectural developments in nineteenth-century Germany are typically understood as crucial to the evolution of architecture worldwide in the twentieth century, this book globalizes the history of modern architecture at its founding moment.

Physics with Many Positrons Alfredo Dupasquier, Allen P. Mills, Roberto S. Brusa, 2010 With the exception of positron emission tomography (PET), the field of low energy positron science produces relatively few academic articles each year compared to more accessible fields. Though much has been achieved since the publication of two related volumes earlier in this series: *Positron Solid State Physics* (1981) and *Positron Spectroscopy of Solids* (1993), only the first steps have been made towards 'physics with many positrons': physical situations where the interactions of positrons with positrons can be observed. This 2009 Enrico Fermi School aims to stimulate the field o.

Mage of Dylar Paul H. Kogel, 2010-02-18 Years of inspiration provided by such authors and titles as J.R.R. Tolkien's, *The Hobbit* and *The Lord of the Rings* and Neil Hancock's, *Circle of Light* novels, and in keeping with John Marco's, *Tyrants and Kings* - Paul H. Kogel has poured himself into this, his first novel of *The Dylarian Chronicles*. In *The Mage of Dylar*, you will travel with Antis, son of Bynen, Govin of the Estern Forest and his friends, on a journey that will keep you spellbound in mystery and mounting excitement. Zelliach the Grey's great-grandson, Sorrel, has plans for Isle of Dylar that Antis, trained in wizardry by his great grandfather's ghost and the ghost of Creston, the grandest of Grand Masters himself, must thwart in order to save the Isle from being cast into the depths of chaos and despair. The attempt had been made once before, but Nemond the Green had been able to prevent it at the last terrible moment, by sacrificing himself to bring down Zelliach and to save Dylar from his loathsome tyranny. Now, Antis must be prepared to do the same, but it will take all of his power and every smidgen of courage that he and his friends can command. *Mage of Dylar* is not only about magic, war and victory in battle: It's about maturing and developing through hard work and dedication to become the very best that one can be. It's about friendship, the great value that should be placed upon it and how it can inspire and drive one on when all else fails to do so. It's about courage, devotion and the fortitude to cling to the values and ideals of the family, and how they remain essentially the same from generation to generation.

Basic Clinical Radiobiology Fourth Edition Michael C. Joiner, Albert van der Kogel, 2009-03-27 This concise but comprehensive

textbook sets out the essentials of the science and clinical application of radiobiology for those seeking accreditation in radiation oncology, clinical radiation physics and radiation technology. Fully revised and updated to keep abreast of current developments in radiation biology and radiation oncology, the fourth edition continues to present in an interesting way the biological basis of radiation therapy, discussing the basic principles and significant developments that underlie the latest attempts to improve the radiotherapeutic management of cancer. New topics for the fourth edition include chapters on the mechanisms of cell death, biological response modifiers, and biological image guided radiotherapy, with major revisions to sections on the molecular basis of the radiation response, tumour hypoxia and the dose-rate effect. A variety of new authors have contributed to this revision, who, together with the new Editorial team, have used their significant international teaching experience to ensure the content remains clear and comprehensive, and as valuable to the trainee as it is to the established radiation oncologist. With the fourth edition we will see the most radical change so far - as Professor Gordon Steel has retired as Editor and has been replaced by Bert van der Kogel, the current current course director for the above-mentioned course, plus Michael Joiner, who is the head of the Radiation Biology Program at the Wayne State University and is the Associate Editor of the International Journal of Radiation Biology.

The Dylarian Chronicles Paul H. Kogel, 2008-03 The ghost of Nemond the Green tells The Tale of Karrynathe events that set the stage for two Dark Wars of Dylar. Karryn and his Phantom horde are unmatched among the brigand bands of the Northwest. Soon they would rule them all. Could be that Karryn would rule the very guild that Dylar the Grey himself had commissioned. Teahl, High Wizard of the Guild, must learn to his horror that Karryn is the son he never knew. Will Teahl commit a seat on the Guild to Karryn, or will Karrynas dealings with the black arts disqualify him? Will Karryn fulfill the prophecy of the Estern Forest Priest, and will the witches of the Coven of Seven realize their darkest dreams by his hand? Find the answers to these questions and much more in this explosive book in Paul H. Kogelas new fantasy series called The Dylarian Chronicles.

The House at Ampasiet Paula Kogel, 2010 When Paula Kogel was young, she fell passionately in love with a Dutch soldier and the couple moved to the Dutch East Indies to raise a family. Upon the outbreak of fighting in World War Two, the family moved to the suburb of Tjideng in Batavia. Their small two-bedroom house in the Ampasiet district is the setting for the book. When Japanese Armed Forces took control of the Dutch East Indies in March 1942, soldiers were immediately transported to POW slave labour camps such as the Burma Railway and the coal mines in Japan, while the civilian men, and later boys as young as 10, were removed from their families. The women and small children left behind were interned in camps, often fenced-off town districts, where they had to fend for themselves. In Tjideng, Paula and her two young sons were imprisoned in their own home, ultimately sharing their house at Ampasiet with 21 other prisoners, each allotted just 50cm of 'living space'. It was unbearably cramped, dehumanizing and tense and conditions deteriorated rapidly. Survival meant working together for the sake of the children. What shines through is the courage and strength Paula and her fellow internees showed in the face of such unbelievable cruelty. The book also tells the story of Paula's husband Jan, enduring transportation by the so called 'hell ships' to prison destinations, working on the railway and in the mines until the Atom bomb in August 1945 ended the war and saved his life. Paula was born in Germany in 1911. She had always filled her life with music, and when she returned to The Netherlands after the war she became a successful music teacher. She also toured the country with her puppet theatre, and brought much joy to her students and audiences alike. Always claiming that nobody would be able to kill her spirit, her eternal optimism was a quality that helped her survive the horrors of the Tjideng prison camp. The House at Ampasiet was originally published in Dutch in 2000 by Paula's daughter Lore Ridings, fulfilling her mother's dearest wish to have her story published.

De rode kogel Christa Meindersma, 2023-03-15 Christa Meindersma is zesentwintig als Chinese soldaten haar tijdens een vreedzame betoging in Lhasa beschieten. Met twee kogelgaten in haar lichaam wordt ze naar een ziekenhuis gebracht. Daar wordt het pas echt eng: is de operatie bedoeld om haar leven te redden of wil men haar laten sterven in een hospitaalbed? Ze overleeft. Deze gebeurtenis bepaalt haar verbondenheid met de Tibetanen en de Dalai Lama. In De rode kogel vertelt Meindersma over Tibetanen die haar hebben geraakt: een activist, spion, minnaar, politiek gevangene, dichter, de Dalai Lama. Daarmee vertelt ze het verhaal van

Tibet: een vergeten conflict op het dak van de wereld. De rode kogel is ook haar persoonlijke zoektocht naar wat het betekent om te overleven en vrij te zijn als anderen worden verdrukt en gedood. Meindersma's boek is vaak intiem, soms absurdistisch en ook ontroerend. 'Vertel de wereld over ons,' smeekten de Tibetanen haar. Met De rode kogel lost ze deze belofte in. Met een voorwoord van de Dalai Lama.
