Politics and Policies in Upper Guinea Coast Societies Christian K. Højbjerg, Jacqueline Knörr, William P. Murphy, 2016-11-15 This book examines the radical changes in social and political landscape of the Upper Guinea Coast region over the past 30 years as a result of civil wars, post-war interventions by international, humanitarian agencies and peacekeeping missions, as well as a regional public health crisis (Ebola epidemic). The emphasis on 'crises' in this book draws attention to the intense socio-transformations in the region over the last three decades. Contemporary crises and changes in the region provoke a challenge to accepted ways of understanding and imagining socio-political life in the region - whether at the level of subnational and national communities, or international and regional structures of interest, such as refugees, weapon trafficking, cross-border military incursions, regional security, and transnational epidemics. This book explores and transcends the central explanatory tropes that have oriented research on the region and re-evaluates them in the light of the contemporary structural dynamics of crises, changes and continuities.

**Creolization and Pidginization in Contexts of Postcolonial Diversity**, 2018-02-27 Creolization and pidginization are conceptualized and investigated as specific social processes in the course of which new common languages, socio-cultural practices and identifications are developed in contexts of postcolonial diversity shaped by distinct social, historical and local conditions.

Small Countries Ulf Hannerz, Andre Gingrich, 2017-04-05 What is a small country? Is a country small because of the size of its territory or its population? Can smallness be relative, based on the subjective perception of a country's inhabitants or in comparison with one's neighbors? How does smallness, however it is defined, shape a country and its relations with other countries? Answers to these questions, among others, can be found in *Small Countries*, the first and only anthropological study of smallness as a defining variable. In terms of population size, some two thirds of the countries of the world can now be considered small countries, and they can be found in all world regions except North America and East Asia. They exhibit great diversity with regard to culture, history, and institutional arrangements, so there can be no model of any typical small country. Yet the essays collected by Ulf Hannerz and Andre Gingrich identify a range of family resemblances in such areas as internal connectivity and sensibilities of identity. Contributors describe a number of similar problems with which small countries must cope, on domestic levels as well as in their transnational and global encounters. For some small countries, challenges such as media organization and branding have a negative impact on real or perceived vulnerability, while for others, the same challenges facilitate success stories. Comparative case studies cover a diverse set of regions, including the Caribbean, Middle East, Africa, and Europe, and employ diverse anthropological approaches. Tacit assumptions about scale, identities, and networks in everyday social life are best revealed through close, interpretive effort. At times a sense of shared belonging comes to the fore with particular events, such as a national crisis or an unexpected success in international sports, offering scope for situational analyses. In showing how small countries confront globalization, *Small Countries* reveals how the sense of scale intensifies when the world as a whole shrinks. Contributors: Regina F. Bendix, Aleksandar Bošković, Virginia R. Dominguez, Thomas Hylland Eriksen, Andre Gingrich, Beng-Lan Goh, Ulf Hannerz, Sulayman N. Khalaf, Eva-Maria Knoll, Jacqueline Knörr, Orvar Löfgren, João de Pina-Cabral, Don Robotham, Cris Shore, Richard Wilk, Helena Wulff.

Service-Oriented and Cloud Computing Kung-Kiu Lau, Winfried Lamersdorf, Ernesto Pimentel, 2013-08-23 This book constitutes the refereed proceedings of the Second European Conference on Service-Oriented and Cloud Computing, ESOC 2013, held in Málaga, Spain, in September 2013. The 11 full papers presented together with 4 short papers were carefully reviewed and selected from 44 submissions. The volume also contains 3 papers from the industrial track. Service-oriented computing including Web services as its most important implementation platform has become the most important paradigm for distributed software development and application. The papers illustrate how cloud computing aims at enabling mobility as well as device, platform and/or service independence by offering centralized sharing of resources. It promotes interoperability, portability and security standards, and raises a completely new set of security issues.

**Integrating Strangers** Anaïs Ménard, 2023 Drawing on an ethnography of Sherbro coastal communities in Sierra Leone, this book analyses the politics and practice of identity through the lens of the reciprocal relations that exist between socio-ethnic groups. Anaïs Ménard examines the implications of the social arrangement that binds landlords and strangers in a frontier region, the Freetown Peninsula, characterized by high degrees of individual mobility and social interactions. She showcases the processes by which Sherbro identity emerged as a flexible category of practice, allowing individuals the possibility to claim multiple origins and perform ethnic crossovers while remaining Sherbro.

Language and National Identity in Africa Andrew Simpson, 2008-02-07 This book focuses on language, culture, and identity in nineteen countries in Africa. Leading specialists, mainly from Africa, describe national linguistic and political histories, assess the status of majority and minority languages, and consider the role of language in ethnic conflict.

Crete Rolf Goetz, 2022-05-03 Crete offers an incredibly multifaceted realm for walkers. Many areas of the island are still rugged and pristine. The island's terrain is dominated by three mighty mountain ranges, furrowed by deep gorges. Lofty mountains and a deep-blue sea are in close proximity - an ideal combination for any holiday. The finest coastal and mountain walks on Greece's largest and most diverse island can be found in the Rother Walking Guide »Crete«. The choice ranges from a pleasant walk across foothills through vineyards and sprawling groves of olive trees all the way up to the highest panoramic summits. There are even some demanding peaks, over 2000 metres in height, to climb. Breathtaking canyons can be traversed and isolated, dripstone caves are waiting to be explored. Everywhere you look, you'll find little villages, secluded monasteries and remote caves. Coastal trails lead to tranquil coves for bathing; is there anything better than, after a walk, taking a dip in some refreshing waters? Even the classic Cretan walks, like the Samaria Gorge and Dead's Gorge with its Minoan palace grounds, are included in this guide. Rolf Goetz, a seasoned writer of walking guides for the Bergverlag Rother, presents 70 walks on the island of Crete, all rich in diversity. Each individual walk includes a short preface with all the important key points, an exact description of the route, a pertinent height profile and a little walking map with the route marked in. Apart from these, there are many tips pertaining to the availability of refreshment, possible alternative routes as well as sites worth a visit. GPS tracks are available for downloading. Numerous delightful photos whet the appetite for making the island your first choice for your next holiday sojourn. An essential guide for Crete fans!

*The Early Greek Poets and Their Times* Anthony J. Podlecki, 2011-11-01 This book brings a new approach to the study of the early Greek lyric poets. Instead of concentrating on the poetry as literature, Podlecki has chosen to examine the life and works of the leading poets of the eighth to fifth century B.C. in the context of the military and historical events of the period.

**The Heroes of Olympus, Book Four: The House of Hades** Rick Riordan, 2013-10-08 At the conclusion of *The Mark of Athena*, Annabeth and Percy tumble into a pit leading straight to the Underworld. The other five demigods have to put aside their grief and follow Percy's instructions to find the mortal side of the Doors of Death. If they can fight their way through the Gaea's forces, and Percy and Annabeth can survive the House of Hades, then the Seven will be able to seal the Doors from both sides and prevent the giants from raising Gaea. But, Leo wonders, if the Doors are sealed, how will Percy and Annabeth be able to escape? They have no choice. If the demigods don't succeed, Gaea's armies will never die. They have no time. In about a month, the Romans will march on Camp Half-Blood. The stakes are higher than ever in this adventure that dives into the depths of Tartarus.

**Dungeons & Dragons: Classics Vol. 1** Michael Fleisher, Dan Mishkin, The classic *Advanced Dungeons & Dragons* series returns! This action-packed volume collects the first eight issues of the fan-favorite series by writer Dan Mishkin and artist Jan Duursema.

*Excursions in Epichoric History* Thomas J. Figueira, 1993 In a test case for the study of epichoric Greek history (that not centered on Athens and Sparta), Thomas Figueira deploys a range of disciplinary

methodologies to explore the political history of the ancient island city-state of Aigina, down to the Roman conquest of Greece. Excursions in Epichoric History combines previously published articles, revised and updated, and new essays to provide a set of alternative perspectives on the course of Greek foreign policy and institutional history.

*Sierra Leone* John L. Hirsch, 2001 John Hirsch traces Sierra Leone's downward spiral in this book, drawing on his first-hand experience as US ambassador in Freetown in 1995-1998. Hirsch analyzes the historical, social and economic contexts of the ongoing struggle, as well as the impacts of regional and international powers.

**The Innocence Device** William Kowalski, 2014-09-01 The year is 2147. Chago, twenty-four, is a prisoner in a world made up only of prisoners and those who guard them. The only bright spot in Chago's life is his son, Jim-Jim, whose mother is a guard. In an effort to resolve overcrowding in the prison, the warden introduces the Innocence Device, a high-tech machine he claims can determine innocence or guilt. Prisoners are encouraged to walk through the Innocence Device and experience its rewards: immediate freedom or death. When they discover the machine is rigged, the prisoners riot and take over the prison. After witnessing the execution-style death of the mother of his son, and surviving a brief stint outside the prison walls, Chago ends up in a position of power. But he soon finds the new regime little different from the old, and he sets out to save the only thing he values—his son.

**Governance and Internal Wars in Sub-Saharan Africa** Abdulahi A. Osman, 2007-03-31 The 1990s have brought unprecedented violence, economic decline and suffering for many African countries. Much of the optimism that greeted the independence decade of the 1960s, when Africa was called the 'continent of the future' has turned into failure and disappointment. The increase in these conflicts has been blamed on several variables, including colonialism, ethnic diversity, end of the Cold War and economic decline. While many African countries have managed to maintain a modicum of peace, stability and growth, some have clearly failed woefully in this regard. This raises a very fundamental question: How and why did some countries manage to avert internal wars while others did not? The book measures and provides rich details of governance from contextual, structural and policy perspectives. It systematically and uniformly compares two categories of countries: those that experienced internal war and those that did not.

**Sierra Leone** David Harris, 2014-06-01 Sierra Leone came to world attention in the 1990s when a catastrophic civil war linked to the diamond trade was reported globally. This fleeting and particular interest, however, obscured two crucial processes in this small West African state. On the one hand, while the civil war was momentous, brutal and affected all Sierra Leoneans, it was also just one element in the long and faltering attempt to build a nation and state given the country's immensely problematic pre-colonial and British colonial legacies. On the other, the aftermath of the war precipitated a huge international effort to construct a 'liberal peace', with mixed results, and thus made Sierra Leone a laboratory for post-Cold War interventions. Sierra Leone examines 225 years of its history and fifty years of independence, placing state-society relations at the centre of an original and revealing investigation of those who have tried to rule or change Sierra Leone and its inhabitants and the responses engendered. It interweaves the historical narrative with sketches of politicians, anecdotes, the landscape and environment and key turning-points, alongside theoretical and other comparisons with the rest of Africa. It is a new contribution to the debate for those who already know Sierra Leone and a solid point of entry for those who wish to know.
