Light on Life: An Introduction to the Astrology of India Dr. Robert Svoboda,Hard de Fouw,2019-05-01 Light on Life brings the insight and wisdom of Indian astrology to the Western reader. Jyotish, or Indian astrology, is an ancient and complex method of exploring the nature of time and space and its effect upon the individual. Formerly a closed book to the West, the subject has now been clarified and explained by Hart de Fouw and Dr. Robert Svoboda, two experts and long-term practitioners. In Light on Life they have created a complete and thorough handbook that can be appreciated and understood by those with very little knowledge of astrology.

Sree Varaha Mihira's Brihat Jataka Varāhamihira,1986 Birhat Jatak from time immemorial has been considered as the standard textbook on Astrology. The English translation of Varahamihira's Brihat Jataka is a monumental work in completing which the difficulties in translating a beautiful, technical and suggestive work in sanskrit had to surmounted by hard labour, profound research and want of adequate expressions. It is not mere a translation work; the ripe experience of Mr. Rao for over 60 years in the field of Astrology and his sound judgment on doubtful points have substantiated its value further.

From the Inside Out Ryan Kuja,2018-05-22 For the sake of the world, we question. For the sake of the gospel, we examine. For the sake of the dignity of the image-bearers we serve--as well as ourselves--we inquire. The evolution that has taken place in the world of mission over the last twenty-five years has left many Christians asking brutally honest questions about what we do and why we do it. Are we doing more damage than good? What does it look like to truly love and serve the marginalized in an authentic and effective way? What, actually, is the gospel and is it truly good news? In this groundbreaking book, Ryan Kuja vividly examines the world of Christian mission as few have seen it. With a beautiful balance of storytelling and theological reflection birthed from his own painful and powerful experiences on and off the field--from rural villages in South Sudan to major cities across Asia, Africa, and Latin America--Ryan guides us into global mission's past and present, revealing where the light and hope lie, helping recover a missional future that will usher us into a new era. This is mission reimagined for a world recreated . . . from the inside out.

Essential of Horary Astrology Or Prasna Padavi M. Ramakrishna Bhat,B. P. Nair,1992 This book provides an insight into the importance of astrology viz., natal, electional and horary, as well as deals with other dimensions of this science such as spirituality, spiritualism, Ayurveda, transmigration of souls, thought-reading, dreams, temple and its rituals and effects of particular sins. The work presents new theories and methods of determining success and defeat in contests and wars with the help of illustrative charts. It urges readers to avoid fatalism commonly associated with predictions and explains how one could solve riddles in life and tide over the pessimistic attitude and related psychological problems. The author has thrown fresh light on some questions like the name of the author of Prasnamarga, line of succession of his pupils, and the authorship of the Dasadhyayi. The most significant contribution of this work is the clear exposition of the rules of Astamangala and Devaprasna, in addition to Candragupti (water-divination), martial problems, Coragrahas, Necromancy, special importance of Mandi and Dasa of its star, Kalacakradasa, etc.

Scorpio Ascendant Secrets Saket Shah,2020-01-05 There are times when people just can't identify with the attributes of their Sun or Moon sign. In fact, they may feel that they are an antithesis of their zodiac sign. You may also have observed it. Your Leo friend may not seek attention, may be because he or she has a Capricorn ascendant. Your Sagittarius friend is very possessive, may be because he or she has a Scorpio Ascendant. It is easy to understand why some people do not correspond to their Sun or Moon signs once you know about what is the rising sign or Ascendant in a horoscope. Ascendant is the degree of the zodiac sign that was highest on the Eastern horizon at the time and place of birth. When seen from Earth, the sky seems to move, so the entire zodiac can be observed in a span of 24 hours day which means the rising sign changes on the Eastern horizon every 2 hours because there are 12 zodiac signs. People tend to associate their physical, emotional and spiritual attributes more with rising sign at times.

Manifestations of Queerness in Video Games Gaspard Pelurson,2022-07-29 Taking the reader on a journey through queer manifestations in games, this book advocates for video games as a rich, political and cultural medium, which provides us with tools to navigate the future of gaming. Situated at the intersection of New Media, Game, Cultural and Queer Studies, the book navigates diverse interspecies relationships, queer villains from the past, Pokémon memes on border politics, flânerie in post-industrial cities and one-sided erotic fights. It provides new critical engagements with the works of Jose Esteban Muñoz, Bonnie Ruberg, Guy Debord and Jack Halberstam, examining queer representation, gaming subcultures and dissident play practices. Making the bold claim that video games might be the queerest medium today, this book provides organic, self-reflective and, ultimately, thought-provoking thinking in which both games and gamers are queered. This book will be of interest to scholars researching game studies, sex, gender and sexuality in new media, but also readers interested in literature, digital media, society, participatory culture and queer studies.
